ECONOMY IN A FAMILY.

There is nothing which goes so far towards placing young people beyond the reach of poverty as economy in the management of household affairs. It matters not whether a man furnishes little or much for his family, if there is a continual leakage in his kitchen or parlor; it runs away he knows not how, and that demon Waste cries "More!" like the horse-leech's daughter until he that provided has he no more to give.

It is the husband's duty to bring into the house, and it is the duty of the wife to see that none goes wrongfully out of it. A man gets a wife to look after his affairs and assist him in his journey through life; to educate and prepare their children for a proper station in life, and not to dissipate his property. The husband's interest should be the wife's care, and her greatest ambition to carry her no farther than his welfare or happiness together with that of her children. This should be her sole aim, and the theatre of her exploits in the bosom of her family, where she may do as much toward making a fortune as he can in a counting-room or work-shop.

It is not the money earned that makes a makes a man wealthy—it is what he saves from his earnings.—Self gratification, in dress, or indulgence in appetite, or more company than his purse can well entertain, are equally pernicious. The first adds vanity to extravaganee, the second fastens a doctor's bill to a long butcher's account, and the latter brings intemperance, the worst of all evils, in its train.

POLISH WOMEN.

Many of the Polish women are very like our English women of the slender, delicate type, but with paler complexions, and brighter and generally darker eyes. I thought it was impossible to see finer and more varied expression than their face exhibited; for I saw them at a time when their enthusiasm, their indignation, their sorrow, and all their religious feelings were awakened. I had read in some book, that they were frivolous and changeable; but they have been constant enough to Poland, and dull persons will always mistake animation, quickness of perception, and a light manner for treating light subjects, for frivolity.

In every civilized country, women give the tone to society; and this is particularly the case with Poland, where social gatherings are more frequent than with us, and where there are no social entertainments, no pleasure-parties of any kind, at which women are not present. If, however, the Polish ladies cared only for pleasure, instead of placing patriotism above all other considerations—it the balls, and brides offered to them and their husbands could make them forget their suffering country, then the Russians would certainly by this time have made some progress in the way of gaining adherents among the Polish families of the kingdom; whereas, as it is, they have not advanced a step. The Polish mothers bring up the young Poles as patriots and the Polish wives exclude from society all whose patriotism is even doubtful.

Gen. Lee Acknowledges a Defeat.

When Gen. Kilpatrick entered Hagerstown on Sunday morning, an order was found which had been issued by General Lee, dated the 11th, in which he admits the defeat of his plans. We quote the following passage:—After the long and trying marches, endured with the fortitude that has ever characterized the soldiers of the Army of Northern Virginia, you have penetrated to the country of our enemies, and recalled to the defence of their own soil those who were engaged in the invasion of ours. You have fought a fierce and sanguinary battle, which, if not attended with the success that has hitherto crowned your efforts, was marked by the same heroic spirit that has commanded the respect of your enemies, the gratitude of your country, and the admiration of mankind.

HUBBARD LIGHT MOWER.

IN again presenting to the public this superior Mower, we refer with pleasure and pride to its unparalleled success during the season of 1862; a success we have not seen equalled during many years experience in manufacturing Agricultural Implements. Upon its first introduction to the public, it at once took position among the very best machines of its class. During the four years of its existence it has gained steadily and rapidly in public favor, and we believe that, to day, no Agricultural implement of any class enjoys so high ar epatation as the HUBBARD LIGHT MOWER.

It enters upon its fifth year with all the *eclat* of its previous unrivalled success, and under the most favorable auspices. With most manufacturers, the close approximation to perfection obtained by the Machine in 1862, would have been sufficiently satisfactory, and they would have been contented to have made all future Machines precisely like them. Indeed, we have received hundreds of letters from purchasers of the Machine that express the idea that "the perfection of Mowing Machinery is reached in the LITTLE HUBBARD. It cannot be improved." But believing in progress, and seeing where improvements could be added that would make what before worked well, now work still better, we decided to add them—although they considerably increase the expense of manufacturing the Machine—and can now confidently say that THE HUBBARD LIGHT MOWER FOR 1863 HAS NOT ITS EQUAL.

For Price, &c.' address or call on
HUNT & BRADEN,
Ruff's Creek, Pa., Washington co., Pa.

CERTIFICATE.

The undersigned would state for the information of those interested, that we have seen the "Hubbard Light Mower" at work, and we are free to state that in our opinion it is equal, if not superior to any Mowing Machine we have yet seen. It is of very light draft, fully balanced, leaving no weight on the horses' neck, and does its work well, even with a very slow motion of the team.
