A child of Mr. Wheeland, restong in the lower end of this borough, eighteen months, of age, was the subject of violent pain in the stomach, unless when under the effect of narcotics, attended with increasing debility and wasting away of the system. Several physicians had been in attendance who pronounced it nothing more than severe cholic, and prescribed accordingly, but without producing any permanent effect. Miss Young, M. D., was ultimately applied to. On a thorough examination of the body, and pressing her hand upon the stomach, she felt something move, and became satisfied some living creature was there, and to remove it applied appropriate remedies. These had the desired effect. A crab, one inch and a half in length, with sixteen legs, clays very sharp and covered with scales, was the result. Some life still remained. From that time the child recovered, and became perfectly healthy. The supposition is that the egg was swallowed, or the creature when very small. In the stomach of so young a child the egg would hatch, which would not be the case with one more advanced in life. Miss Young has the crab in a state of preservation. Thus the life of this child was saved by the skill of this lady, whose reputation as a succathful practitioner is fully established in this community, by the restoration of persons affected with intricate and dangerous complaints.

UNITED STATES 5-20%.

THE SECRETARY OF THE TREASURY has not yet given notice of any intention to withdraw the popular Loan from Sale at Par, and until ten days notice is given, the undersigned, a "General Subscription Agent," will continue to supply the public. The whole amount of the Loan authorized is Five Hundred Millions of Dollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven materies. The Barge demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period, absorb the balance. Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millions daity, and as it is well known that the Becretary of the Treasury has ampleaded attacking resources in the Duttes on Imports and Interval Research, and in the issue of the Integrat bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary for a long time to come, to seek a market for any other long or permanent Loans, the Integrat and Principal of which are payment for a self-integrat and Principal of which are payment for a self-integrat and Principal of which are payment for the self-integrat and Principal of which are payment for the principal of the principal of which are payment for the principal of the principal of which are payment for the principal of the princ THE SECRETARY OF THE TREASURY has not Produce and self interest must force the minds of
