## UNITED STATES 5-20'S.

THE SECRETARY OF THE TREASURY has not yet given notice of any intention to withdraw the popular Loan from Sale at Par, and until ten days notice is given, the undersigned, a "General Subscription Agent," will continue to supply the public.

The whole amounts of the Loan authorized is Five Hundred Millions of Dollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for chromistics by National Banking Associations now organizing in all parts of the country, will, in a very sheet period, absorb the balance. Sales have larely maded from ten to afteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Treasury has ample and nafalling resources in the Duties on Imports and Interral Revenues, and in the insue of the Interest bearing legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary for a long time to come, to seek a market for any other long or permanent Loans, the Interest and Principal of which are payable in Gold.

Predence and self interest must force the minds of

ice and self interest must force the minds of Professee and self interest must force the minds of those enacemplating the formation of National Baaking An octations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should less no time in subscribing to this most popular Loan. It will soon be heyond their reach, and advance to a handsome premium, as it was the result with the "Seven Thirty" Loan, when it was all sold and sould no longer be subscribed for at par. It is a Six per Cent. Loan, the laterest and Principal physical in Coin, thus yielding over Nine per Cent. per annum at the present rate of premium on Coin.

The Government requires all duties on imports to be pidit in Coin; these duties have for a long time pass amounted to over a Quarter of a Million of Dollart daily, a sum nearly three times greater than that reamounted to over a quarter of a million of Dollar daily, a sum nearly three times greater than that required on the payment of the interest on all the 5-20's and other permanent Leans. So that it is hope that the ampine Coln in the Treasury, at no distant day will enable the United States to resume specie paymine and that little in.

into upon all liabilities. The Loan is called 5-20's from the fact that whilst the Funds must run for 20 years yet the Government has a right to pay them off in Gold at par, at any time ther 5 years.
The Interest is paid half-yearly, viz:—On the first

days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are \$50, \$100, \$500, and \$1000 or Registered Sonds of same denomination, and in addition, \$8,000, and \$10,000. For Banking purposes and for investments of Trust-monies the Registered Honds are preferable.

These 5-20's callnot be taxed by States, cities, towns, or countier, and the Government tax on them is only
