"I had for several years a very troublesome humor in my face, which grew constantly worse until it disligured my features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. Erysipelas — General Debility — Purify the Blood.

From Dr. Robt. Sawin, Houston St., N. Y.
Dr. Ayer: I seldom fail to remove Eruptions and Screfulous Sores by the persevering use of your Sarsaparilla, and I have just now cured an attack of Malignant Erysipelas with it. No alterative we possess equals the Sarsaparilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars! worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparilla. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and somid as anybody. Being in a public place, my case is known to everyhody in this community, and excites the wonder of all."

From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Sarbapalilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonde issued under this Act shall be "Exempt from Taxation' by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are to be "Re deemed in Coin," at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until their redemption "Five per cent, interest will be paid in Coin," on Bonds of not over one hundred dollars annually and ou all other Bonds semi_annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and more convenient for commercial uses. Subscribers to this loan will have the option of hav-

ing their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of subscription and deposit. As these

their v lue is increased from one to three per cent. pe annum, according to the rate of tax levies in various parts of the country. At the present rate of premium on gold they pay

Over Eight Per Cent Interest in currency, and are of equal convenience as a perma

nent or temporary investment. It is believed that no securites offer so great inducements to lenders as the various description of U. S. Bonds. nall other forms of indebtedness, the faita or ability of private parties or stock companies or seperate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin

These Bonds may be subscribed for in sums from \$50 to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3rd day of Mar ch 1864 was \$768,965,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the cus toms revenue in gold for the carrent fiscal year ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen tha even the present gold revenes of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount

of importations, to \$150,000,000 per annum. Instructions to the National Banks acting as loan agents were not issued from the United State Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than "Ten Millions : week." Subscriptions will be receive by the
