Local Department.

The Dunkard Oil Region.

We spent several days recently in the miliar with the operations for Petroleum in that locality and with the topography of the country. In general physical . appearance

and characteristics, that portion of the county bears very close resemblance to the Venango region, and we are confident will ultimately prove as productive of Oil. The rough and rugged hills, the coal deposits, and indeed every surface indication fortifies us in this impression. But four wells have as yet been sunk any considerable distance, and all of them have vielded oil. One of them, belonging to a Company in which our bachelor triend, CEPHAS WILEY, Esq., is one ment, and constant pumping, it would yield Him who can 100 barrels per day. As it is, however, barrels being hard to obtain, and the tank being small, Mr. Wylie has frequently to suspend pumping for hours at a time ; so that but a proximate guess can be made as to the actual yield of the well in 24 hours. In a short time, however, the facilities for pumping and barreling will be greatly improved

and the full capacity of the well ascertained.

wholly undeveloped, however, though a earnestly desired. great number of valuable leases have been taken, and companies organized to open it up.

has lately purchased the Kussart farm, above Ounberland county, by WM. KENNEDY, Esq., were out, and I kept soaked pretty well MERCANTILE APPRAISER'S NOTICE nas lately purchased the Russart lains above and nearly adjoining the Maple tract, and will soon commence boring. They have certainly obtained the best farm on the creek for oil purposes, and one of the largest. The bottom land on it, we judge, contains not less then 60 acres and horders a full not less than 60 acres, and borders a full mile on the creek. In addition to this, the company, we are told, has a number of other very valuable lands.

the fact that Greene county is as rich in another to enable you to pass, you may be but it was an awful gauntlet to run, I i oil as Venango, while we are much nearer sure they are ladies of uncommon politeness assure you. Pittsburgh and the other great markets for and consideration. Many women claiming Petroleum

An Editorial Visit.

Our sanctum was illuminated, one day last week, by the handsome and good-natured countenance of brother PATTERSON of the "Washington Examiner," (one of the best printed and best conducted papers, by specimen of the live young Democracyright and honest in conviction, abundant in labors, full of hope, courage and earnestness. We wish him success in his editorial vocation WK Greene and in all his undertakings. Ditto to his John McDonald partner, brother ECKER. Bell-Ringing.

Mercantile Appraiser. CLASS CUMBERIAND TP. 14 14 13 part we know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there

per cent. interest will be paid in Coin," on Bonds of not over one hundred dollars annually and on all other contamination is variously caused by mercurial Bonds semi-annually. The interest is payable on the disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy first days of March and September in each year. Subscribers will receive either Registered or Coupor habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, "from parents to children unto the third and

in

fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the

lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, With feeble, foul, or corrupted blood, you can-not have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases : King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculeus deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsuparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out 7 (0) the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this reneedy stimulates the vital functions, and thus expels the distempers which lark within the system or burst out on any We know the public have been deceived by

remains no question of its surpassing excellence for the cure of the afflicting discases it is in-tended to reach. Although under the same 7 00 name, it is a very different medicine from any 2 00 other which has been before the people, and is

Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are pavable to bearer, and more convenient for commercial uses. Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accreed interest in coin-(or in United, States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of subscription and deposit. As these Bonds are

U. S. 10-40 BONDS.

Exempt from Municipal or State Taxation.

their value is increased from one to three per cent. per a inum, according to the rate of tax bevies in various parts of the country. At the present rate of premium on gold they pay

Over Eight Per Cent Interest a currency, and are of equal convenience as a perma nent or temporary investment.

It is believed that no securites offer so great induce ments to lenders as the various description of U. S.

Bonds. nall other forms of indebtedness, the faita or ability of private parties or stock companies or seperate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin-These Bonds may be subscribed for in suma from

\$50 to any magnitude, on the same terms and are thus made equally available to the smallest lenser and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit o

the interest. It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3rd day of Mar ch 1864 was \$768,965,000. The interest on this debt for the coming fiscal year will die \$45,937,126, while the cus toms revenue in gold fer the carrent fiscal year ending June 30th, 1864, has been so far at the rate of over

\$100,000,000 per annum. It will be seen the even the present gold revenes of the Government are largely n excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum. Instructions to the National Banks acting as loan

agents were not issued from the United State Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than "Ten Millions a week." Subscriptions will be receive by the First National Bank of Philadelphia, Pa.

Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa. AND BY ALL NATIONAL BANKS ich are depositaries of Public money, and all

Respectable Banks and Bankers support the country, [acting as agents of the National Depositary Banks,] will furnish further inform tion on application and
