WE, whose names are underwritten; having used the light Hubbard Mower, take pleasure in recommending it to the Farming public, as the best Machine extant; and we feel confident that those who wish to purchase a Mower will be satisfied that they have made a good investment of their money by purchasing the light Hubbard. We have used the above Mower during the whole of the past harvest without the necessity of stopping to repair; such is the strength and firmness of the Hubbard that with the proper care all the unrecessary expenses and loss of time is avoided which is so common with other Mowers. In short, the Hubbard fully comes up to our expectation, agreeably to the recommendation given it. Not only on account of the elegancy with which it parforms the work, but also the ease to the team with which its done. The draft is lighter and the horses' necks never suffer from soreness. All this is avoided on account of the Machine on irregular or rough places.
