A Message from the Army.

BY MRS. HOWLAND. Oh, Friends! our soldier-nearts cry out From all the far-off camps; From lonely watch-fires in the West, From Southern woods and swamps.

Wherever in their windy tents Brave boys are gathering, There, sun-browned faces smile, and bless Your Christ-like ministering.

Blow! blow, March winds! from mountain - forts.

From gulf and river banks, And carry to those Northern homes Our thousand, thousand thanks!

And we who lie on narrow heds All over the sad land-From stricken rows, in dreary wards We stretch a pallid hand.

And grasp the palm whose clasp we know-The generous, tender palm! Whose very touch on heart and head Is spice, and oil, and palm?

And we whose beds are narrower yet, Beneath the sun and rain; Who never more may carry arms Though spring has come again:

We too would tell how loving hands Shut down our dying eyes, And send a blessing from the dead On all your sacrifice!

Oh earnest hearts! oh generous hands! What better thanks can be Than His, who said-"When I was sick Ye came to visit Me!"

Work on! Pray on!-No heart may faint, No hand shall work in vain, Soon Pain shall conquer us a Peace, And Peace shall heal our Pain. March, 1864.

Wonder is often expressed that the loss of life in large battles is so small. The condition of the 28,000 muskets picked up at Gettysburg may explain partly. Of these 24,000 were found to be loaded, 12,000 containing two loads each, and 6,000 from three to ten loads each. In numerous instances half a dozen balls were driven in on a single charge of powder. In some cases the former possessor had reversed the usual order, planting the ball at the bottom of the barrel and the powder on the top. Not unfrequently save paper cartridges were packed. above each other without being torn or

Petroleum is rapidly superseding all other kinds of oil in use on the English railways. When properly clarified, its illuminating power is found to be greater than that of any other kind of oil. A lamp with a flat wick sixeighths of an inch broad, supplied with petroleum, gives light equal to 7 15-100 candles, while if fed with the best olive oil, the effect is that of 2 29-100 candles. Again, petroleum docs not congeal nor char the wick of a lamp and is much cheaper.

Mansfield's Dispensatory says that most of the Sarsaparilla of the shops is mert and worthless. Dr. Ayer in his writings on this drug states that not only is it inert as found in the shops, but so also are most of the preparations from it, or bearing its name. He shows, however, that this fact arises from the use of worthless varieties, or unskillful preparations by incompetent men; that the true medicinal .Sarsaparilla (Sarza Smilax off,) of the tropics, when freshly gathered in the bud, is one of the most eftectual alteratives we possess. Combined with other substances of great alterative power, like Iodine, Stillingia, Dock, &c., it makes Ayer's Comp. Ext. of Sarsp., which we have reason to believe is one of most effectual remedies for humors, skin diseases and for purifying the blood which has ever yet been found by anybody.-[Bangor (Me.)

Commenced when boys, at school or elsewhere, it is kept up even during young manhood, producing mental and physical progration. If continued, these diseases, and even madness are the result. If the victim be conscious of the cause of his decay, and quit it, he suffers under those terrible nocturnal and involuntary emissions which weaken and shame him, till life becomes grievous.—Thus place between certain decay and premature death and horrible suffering, the wretched victim rushes to SELF-DESTRUCTION, or sinks to an untimely grave. If he emacipates himself before the practice has done its worst and enters matrimony, his marriage is unfruitful, and his sense tells ham that this is caused by his early follies.

Let no false modesty prevent you from explaining your case to one whose acknowledged position in the medical profession, and respectal fifty in private firm yourself, and so tamper with a faculty, the destruction of which renders a mantruly miserable. HUBBLED MOWER. BRADEN & HUNT HAVE on hand a supply of the HUBBARD MOW-ING MACHINES. Any one wishing a good re-liable Machine can now have the opportunity. Read the following testimonials:

the following teatimonials:

WE, whose hames are underwritten, having used the light Hubbard Mower, take pleasure in recommending it to the Farming public, as the best Machine extant; and we feel confident that those who wish to purchase a Mower will be satisfied that they have made a good investment of their money by purchasing the light Hubbard. We have used the above Mower during the whole of the past harvest without the necessity of stopping to repair; such is the strength and firmness of the Hubbard that with the proper care all the unrecessary expenses and loss of time is avoided which is so common with other Mowers. In short, the Hubbard fully comes up to our expectation, agreeably to the recommendation given it. Not only on account of the elegancy with which it performs the work, but also the ease to the team with which it Is done. The draft is lighter and the horses' necks never suffer from soreness. All this is avoided on account of the Machine being so perfectly balanced. The Pubbard except other Mowers on account of it doing the work as satisfactorily in driving slow as last, which also enhances the safety of the Machine on irregular or rough places.
