THE peculiar taint or

infection which we call SCROFULA lurks in the constitutions of multitudes of men. either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes in the vital forces in their impetent to sustain vigorous action, and eaves the system to leaves the system to decay. The scrofulous contamination is variously caused by mercurial

disease, low living, disordered digestion from habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which pro-

tions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sec-tions of the country, in order that every reader

him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitugreatly shorten, the average duration of human life. The vast imposes life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SABSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which

may have access to some one who can speak to

lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is in-tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has

This class of Ritters has caused and will continue cause, as long as they can be sold, hundreds to die the death of the drunkard. For those who desire and will have a Liquor Bitters, we publish the following receipt. Get one hottle of Houfand's German Bitters and mix with three quarts of good Brandy or whiskey, and the result will be a preparation that will far excel in medical virtues and true excellence any of the numerous Liquor Bitters in the market, and will cost much less. From Rev. J. Newton Brown, D. D., Editor of

the Encyclopedia of Religious Knowledge.
Although not disposed to haver or recommend Pates the Encyclopedia of their or recommend Pates the Medicines in general, through district of their ingredients and effects; I yet know of no sufficient reasons why a man may mot lestify to the benefits be believed himself to have received from any simple preparation, in the hope that he may those contribute to the benefit of others. in the hope that he may thus contribute to the beneal of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for an early years, under the impression that they were chiefly as a leolodic mixture. I am indebted to my friend, Robert Snoemaker, Eq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottless of these Bitters, at the beginning of the present year, was followed by evident relief, and restoration to a degree of bodily and mental viger which I had not felt for six months before, and had almost despaired of regaining. I therefore that God and my friend for directing me to the use of them.
