Long years of matured usefulness seemed yet before him; but death, inexorable in his decrees, had otherwise willed!

How true, in regard to all of ve, is the lan guage of the poet:

A few months may-a few years must, Repose us in the silent dust!

Judge Lindsey had been on the Bench about four years at the time of his decease. On account of his youth and apparent inexperience, he entered upon the discharge of his duties as Judge, with some distrust on the part of some of his brethren at the bar, as well as the community, to whom he was to administer the law, but he rapidly won of our Judges, had to a greater extent, the confidence and respect both of Bar and people. This is not the language of eulogy, and those who know him and know the facts, will recognize the literal truth of the representation. infection which we call SCROFULA lurks in multitudes of men. either produces or is produced by an en-feebled, vitiated state of the blood, wherein competent to austain the vital forces in their vigorous action, and leaves the system to fall into disorder and

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, fith and fikhy unhealthy food, impure an, man above all, by habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniqui-ties of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tabereles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distenspers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh' healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most effectual anti-

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to

any other remedy yet devised, is known by all

who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Erup-tions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Selt Rheum, Scald Head, Coughs from tu-berculous deposits in the lungs, White Swellings, Debility, Dropsy, Henralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Discuss, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in ATER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief Those cases are purposely taken from all sec-tions of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these consideralife. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This remedy which is adequate to its cure. This we now offer to the public under the name of ATER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sursaparilla in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which

part of it.
We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
