The Democrats of Greene county, held McClellan ratification meeting at Davistown, Oct. 1st. The day was very unfavorable, the constant rain of the forenoon prevented an early assemblage of the people. However by one o'clock, a goodly number were present, who set to work and raised a pole of pure hickory, 114 feet in height. The meeting was then organized by the election of the following officers:

LEWIS DOWLIN, Esq., President. el, Jos. McCormick and Andrew Montgom- Centre 154 111 ery, Vice Presidents.

Jair Wildman, and Wm. F. Burwell, Secretaries.

The Ladies then presented a beautiful flag, (which their skilful fingers had previous Jackson 75 67 ly arranged,) bearing upon it thirty-four Jefferson 138 89 stars as a representative of the whole Union. D. R. P. Huss, Esq., of Waynesburg, was then called to the stand who delivered a Morgan 125 91 short but very appropriate speech, doing honor to himself and the cause he espoused. Which was followed by a speech from R. A McConnell, Esq., in his usual happy style. He denounced the present Administration in full, passing through its whole career from Whiteley...... 138 19 the beginning of the war to the present time; showing in a clear light to the minds of all thinking men, the base and wicked, as well as unconstitutional proceedings of a corrupt party. Mr. McConnell closed his remarks by enumerating some of the heroic actions of Gen. McClellan and calling loudly upon all men of all parties to give him their undivided support in November next. Which we have great reason to believe they will do from the three long loud cheers which went up from the crowd for Geo. B McClellan, as the speaker left the stand.

"This was the song the people sang. We'll vote no more for Abraham; His head's too wooly, and his heart's too black,

Scropula lurks in the constitutions

multitudes of men. It

either produces or is

habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, eruptive and cuttaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you.

With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh healthy, you cannot have scrofulous disease."

Ayer's Sarsaparilla

disorders it entails. disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases : King's Evil : or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas. Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sec-tions of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human The vast importance of these considers tions has led us to spend years in perfecting a remedy which is adequate to its cure. I This we now offer to the public under the name of Ayer's Sabsaparilla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital func-tions, and thus expels the distempers which within the system or burst out on any

part of it.

We know the public have been deceived by many compounds of Sarsiparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is in-tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them

CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to: the best it ever has been, and that it may be relied on to do all it has ever done.
