HAND IN HAND WITH ANGELS.

BY LUCY LACROY.

Hand in hand with angels, Through the world we go; Brighter eyes are on as Than we blind ones know Tenderer voices cheer us Than we deaf will own. Never, walking heavenward, Can we walk alone.

Hand in hand with angels-Some are out of sight, Leading us unknowing, Into paths of light; Some soft hands are loosened From our mortal class. Soul in soul to hold us With a firmer grasp.

Hand in hand with angels-Some, alas! are prone! Snowy wings, in falling All earth stained have grown. Help them, though polluted And despised they lie. Weaker is your soaring When they cease to fly.

Hand in hand with angels -Ott in menial gnise. By the same straight pathway High and low must rise. If we drop the fingers Toil-embrowned and worn. Then one link with heaven From our life is torn.

Hand in hand with angels-In the busy street, By the winter hearth fires, Every where, we meet, Though unfledged and songless. Birds of Paradise; Heaven looks at us daily Out of human eves.

Hand in hand with angels-Walking every day, How the chain may lengthen None of us can say. Yet no doubt it reaches From earth's lowliest one, To the loftiest seraph Standing in the sun.

Hand in land with angels -Tis a twisted chain, Winding heavenward, earthward; Up and down again. There's a painful jarring, There's a clank of doubt, If a heart grows beavy, Or a hand's left out.

Hand in hand with angels-Blessed so to be! Helped are all the helpers; Who give light shall see! He who aids another Blesses more than one; Sinking earth he grapples To the great white throne.

Hand in hand with angels-Never let them go! Clinging to the strong ones. Drawing up the low! One electric love note Thrilling all with fire; Soar we, through vast ages, Higher, ever higher!

He was the son of Samuel C. and Elizabeth Hibbs of Red-Stone township Fayette county Pa. He volunteered at an early period in the history of the present war, had served his three years, when while preparing to be mustered out of service, he accidently received a wound which resulted in his premature death. He was a good soldier; as he had been an affectionate and obedient son while at home, so he was faithful and true, in every other relationship in life. He professed religion some years since, and united with the Salem congregation of the Cumberland Presbyterian Church; of which he remained a worthy and constant member up to the time of his death. He was dutiful in life and hopeful in death, during his last sufferings he was patient and resigned; and gave great satisfaction to his Chaplain, and others who conversed with him, of a preparedness to depart and be with Christ Best Specimen of Beets, Abram Gooseman which is so much more to be desired Pumpkins, Morgan Bell than any enjoyment or portion that Best Collection of Vegetables, F Bradley earth or time can afford. From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had finished the second. THE peculiar tales infection which we call SCROPULE larks in multitudes of men. either produces or produced by an en-feebled, vitiated, state that fluid becomes in ompetent to sus the vital forces in their vigorous action, and enves the system to

fall into disorder and decay. The scrofulous contamination is variously caused by marcarial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin it is hereditary in the constitution, descen from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the according to the organs it attacks. In the lungs, Scrofuls produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become alcerous screes; in the stomach and bowels, deraugements which produce indigestion, dyspepsia, and liver conplaints; on the skin, cruptive and consumptions. These all having the same require the same remedy, viz. particular, require the same remedy, viz. parification and invigoration of the blood. Purify the blood and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the feet."

is compounded from the most effectual and dotes that medical science has discovered this afflicting distemper, and for the care of the disorders it entails. That it is far saptific to any other remedy yet devised, is known by all who have given it a trial. That it does extend the virtues truly extraordinary in their contains the same of the sa upon this class of complaints, is indicated proven by the great multitude of public known and remarkable cures it has made the following diseases : King's Evil Glandular Swellings, Tumors, Erus-tions, Pimples, Blotches and Sores, Er sipelas, Rose or St. Anthony's Fire, a Rheum, Scald Head, Coughs from berculous deposits in the lungs, Swellings, Debility, Dropsy, House, Dyspepaia or Indigestion, Syphilic Enfections, Mercurial Distress, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be earned the directions for its use, and some of

the remarkable cures which it has made when all other remedies had failed to afford relief. all other remedies had raised to afferd reflect. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak in him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fafal results than are healthy constitutions and its fafal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. A Thin we now offer to the public under the name of ATER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any

We know the public have been deceived by many compounds of Saraparilla, that promised much and did nothing; but they will nother be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting dises tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has
