Sad Occurrentce,

On Sunday evening last, while Win Brown on the following Thu sday ittorning, and Thaddeus Morris two estimable young about nine o'clock. An inquest was men living in and near the village of Mr. held by Coroner Black, the jury being Morris, in this county, were returning from composed of Messrs, James W. Kountz, ship, they learned that another wedding was liam B Cundali, George Morgan, and to come off at the house of Charles Coss that night, and concluded to stop and ascertain if such were the fact. They accordingly role to the house, and judging from appearances, without entering, that they had been misinformed, they started homeward. Atter riding'a short distance from the dwell- as the one who fired the tatal ball, and ing, they were fired upon three several times by some person unknown, and young Brown for his arrest. Up to Wednesday was shot in the temple, the ball entering the morning he had not been taken into brains.

Our accomplished surgeon friend, Dr. Ro-s of this place, was called to the unfortunate young man, and performed, with his usual skill the operation of removing the fragments of bone which had penetrated and disorganized a large portion of the brain, but failing to find the ball, which, he thinks, lodged against the opposite side of the skull. The patient died on Saturday last, after lingoring for several days.

Suspicien attached to Thomas Phillips, a drafted man of the neighborhood, who was keeping out of the way of the authorities, he was arrested and is now in jail, at this place, to await trial or investigation. The presumption is he fired upon Morris and Brown under the impression that they were detectives seeking his arrest. The parties had all been friendly, and no other explana-Nion can be given of the melancholy occurtence.

Oil Intelfigence.

The exclusion in the new oil region of Dunkard and Whitely creeks, in Greene county, still continues. The Wheeling Intelligencer states that on Dankard creek, a few miles above Whitely, there are fitteen derricks up with engines on the ground, and the parties are either operating or about foliy, which if it continues, will lead ready to begin. There are ten other der- to a sharp re-action against the worship ricks on the ground and ready to be crected, making twenty-five new mills, all of which a journal, which once declared that the will soon be in the process of boring. On the Maple farm the St. Clair well is journing, and it is believed that this well will yield largely if properly worked. It has already produced 300 barrels. Within a stone's cast is the new well known as the "Kramer well," pumping a small but regular stream and yielding about four barrels per day. Within idols. They always break them in the hailing distance of this is the Willie well, end.-London Spectrelor. which has produced as high as eighty barrels per day. The Slocum well, a short distance below, commenced flowing a short time since. but in consequence of the bursting of the tubing, operations haveceased for the presont. These four are the only producing wells in this region, and it is worthy of note that these are the only wells which have been sunk sufficiently deep, in the opinion of oil operators, to obtain the greasy fluid.

The Royal Baby.

The baby is home again to the delight, we presume, of all England. and certainly to the immense rehef of all newspaper readers. The child landed at Hull, and its arrival produced an outburst of flunkcyism beyond even Eaglis's precedent. The Mayor actually went in his robes to visit a baby not 12 months old : the Sheriff's wife gave him a fur rabbit, which, say the reporters, he "appeared to appreciate;" a vast crowd assembled to see him pass. and "the cow which supplied the infant prince with milk during his passage from the Elbe to the Humber, was purchased by Mr. Alderman Abbey of pickets succeeded in getting within this Hall," that dign tary obliviously considering the annual to be historic. Already winds would blow gently on a tree because the Queen had planted it, is indulging in a pretty sharp ridicule: and aldermen who now buy cows because they feed royal babies will soon be ashamed of caring about the babies themselves. It will not do to let the English people raise their princes to 100 killed and wou dod, while the Jacob Braden enemy's loss must reach from 250 to 300.

Scald Head, Sore Eyes. From Harrey Sickler, Esg., the able editor of the Tunckhainnack Democrat, Pennsylvania. "Our only child, about three years of age, was at-tacked by pimples on his forehead. They rapidly spread until they formed a loathcome and virilent sore, which covered his face, and actually blinded his eyes for some days. A skillul physician applied nitrate of silver and other remedies, without any ap-parent effect. For filteen days we guarded his hande, lest with them he should tear open the festering and corrupt wound which covered his whole face. Hav-ing tried every thing else we had any hope from, we began giving your SAISAPARILLA, and applyflig the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottley, and was well when we had given the first bottley, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Shat, of St. Louis, Missourf. "I find your SAESAPARILLA a more effectual remedy for the secondary symptoms of Syphilic and for syphilic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."
