The most popular Monthly in the world.—N. Y. Observer.

We must refer in terms of eulogy to the high tone and varied excellences of Harper's Magazine—a journal with a monthly circulation of about 170,000 copies—in whose pa es are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited Each Number centains fully 144 pages of reading matter, appropriately illustrated with good wood cuts; and it combines in itself the racy monthly and the more philisophical quarterly, blended with the best festures of the daily journal. It has great power in the dissemination of a love of pure literature.—Trubner's Guide to American Literature, L. nden.
