A glance is better understood than a sentence anywhere else, and "vour folks" always know when you are in tun and in earnest. Not to he obliged to sit bolt upright and smile even if you have the headache; to talk whether you have anything to say or not; to laugh at anything comical with out hurting any one's feelings; and to be cross, if you want to enjoy that lurury, without offending anybody are some of the luxuries of a period home, and who does not appreciation them ?'

THE AGE OF FORTY-SIX. - Thomas Hood died at the age of forty-six, at the time he had excited the greatest expectations. There seems to be a fartality at this period of life for certain, intellects, nearly as great as that which has rendered the age of thirty-sayan dangerous to the higher walked artistic genius, to Raphael, to Mozart, to Burns, to Bryon. It is the grandiclimacteric of a soldiers' and the statesman's life At forty-six Pitt gave up the ghost, and passed away in the prime of his powers; at forty-six Napoleon lost the battle at Waterloo, and ended his career; st forty-six Wellington won that bettle and may be said almost commenced his civii career. At forty-seven Nelson's hour had come at Trafalgar. In literature we find that Spencer died at forty-six: Addison at forty-seven; Goldsmith a forty-six; Hood at forty-six.

A Blind Musician of Rare Ability: A friend has informed us of a blind man, a graduate of the Ohio Institute for the Blind, who is a novelty in the musical world.
