the ambaciber on the 1st of Sep-

fall into disorder and decay. The scrofulous contamination is variously caused by mercurial

according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which pro-

and these dangerous distempers leave you.
With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for

this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to

any other remedy yet devised, is known by all who have given it a trial. That it does com-

bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably

proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or

series of complaints that arise from impurity

for gratuitous distribution, wherein may be learned the directions for its use, and some of

the remarkable cures which it has made when all other remedies had failed to afford relief.

Those cases are purposely taken from all sec-

tions of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-

and its istal results than are healthy construc-tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aver's Sarsaparitla, although it is com-

posed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By

its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the

blood; purge out the causes of disease, and vigorous health will follow. By its peculiar

virtues this remedy stimulates the vital func-tions, and thus expels the distempers which

part of it.

We know the public have been deceived by

far more effectual than any other which has
