Waynesboro' Village Record.

Thursday, August 31, 1871.

The State Fair will be held at Scranton on 19th, 20th, 21st and 22d of September.

The entire United States five per cent. loan of \$200,000,000 has been taken—seventy-five millions in Europe and the remainder in this country.

The contest between Shepherdstown and Charlestown, West Virginia, to be county seats is settled by the Supreme Court of that State in favor of Charlestown.

The Millerites have ciphered out this time that according to the prophecies of Daniel the world will come to an end, and we shall have "the second advent" about the 3d of September.

Twenty years ago a man entered a farm eight miles square in Livingston County, Ill., at \$1.25 per acre. It is now divided into thirty-two farms of 1-280 acres each, and is valued at \$2,000,000.

Only twenty-five houses remain standing in the village of St. Cloud, near Paris. On the first of July, 1870 there were 625 houses in the place, exclusive of the famous palace, which had been utterly destroyed.

On Thursday the steamship Leodon's from New York and Florida, was wrecked about seventy-five miles from St. Augustine, Fla. Twenty persons were drowned.

The Sunday night a week broke out in a stable at Williamsport, Pa., and into wild blowing a gale, the flames spread rapidly, and soon forty buildings were consumed, including the Waverly House, the residence of the late Gov. Packer, a church, and many stores and private dwellings. The loss is about \$250,000.

A fire in Virginia City, Nevada, on Sunday morning a week, spread quickly and destroyed fifty buildings. Loss \$150,000. A young man named Helzabogher has been arrested, charged with being the incendiary.

John Hopkins, a Maryland Quaker, began life in Baltimore as a small grocer and, by industry, has brought himself to be the richest man south of Mason and Dixon's line. He is now the largest stockholder in the Baltimore and Ohio Railroad, worth \$8,000,000, much of which he has given to endow the John Hopkins University, on the outskirts of Baltimore City. Mr. Hopkins is a plain, aged gentleman, still diligent and daily in business, and was one of the projectors and endowors of the line of iron steamships between Baltimore and Bremen.

One of the most terrible railroad accidents on record occurred at Revere, a few miles from Boston on Saturday night. The Bangor express train ran into the rear end of another passenger train while running at high speed, and a fearful scene of death ensued. The rear car of the forward train was crowded with passengers, very few of whom escaped death or injury, those who were unharmful by collision suffering from the escaping steam from the engine of the express train. Twenty-four persons were killed and many more wounded, some of whom will die. The details of, as reported by Telegraph, make the disaster no less horrible than the New Hamburg slaughter on the Hudson River Railroad. The responsibility of the affair is thrown upon the conductor and engineer of the express train. At Westport, Pa., on Saturday there was a collision by which six persons were killed.

Yet another steamboat explosion! This time the boiler of the Ocean Wave, an excursion steamer at Mobile, Ala., has burst, with two hundred souls on board. The disaster occurred on Saturday evening. So far, the bodies of nineteen dead and twenty-eight wounded have been recovered, but it is yet impossible to give a correct estimate of the total loss of life. By some it is believed that thirty or forty persons are still buried in the debris of the wreck or at the bottom of Mobile bay. The scene is described as appalling, and has cast a gloom over the whole city. The Mobile Register says "the Ocean Wave has for some time been considered an unsafe boat, and the boiler was so rotten as to literally tear open. Had it been stronger, so as to explode with greater violence, the destruction would have been greater." The Register says "a criminal responsibility rests somewhere, and it should be visited upon those to whose recklessness and incapacity the catastrophe is attributable."

The potato blight has developed to an alarming extent in Ireland, and it is feared the crop is almost ruined.

Town and Country.

LAST NOTICE.—There are quite a number of our patrons who are largely in arrears for subscription. We made our purchase of a new press and material—an item of over \$1,000—with the expectation that this class would show their appreciation of our efforts to furnish a more acceptable family paper, by calling and settling their accounts, but we have been disappointed. Six weeks have passed since the first number was issued, and our cash receipts have been decreasing instead of increasing. Under these circumstances, to furnish paper, ink and labor, and continue the paper to a class of persons who have not paid us a dollar for years, is more than our circumstances will justify. We have therefore no other alternative left us but to drop from our list the names of such patrons, which we purpose doing after the first of September. This done, we will make an effort to secure in a lawful manner the amount of these arrearages, and where we fail will deal with the parties as we have heretofore dealt with others, in no very complimentary manner.

The Elephant is coming.

SCHOOL HOUSE FOR SALE.—The School Board will sell the Eastern School House on Tuesday next. See Business Locals.

A reply to "Business" by "Citizen" was handed in too late for this issue. It will appear next week.

ARRIVED.—J. H. Johnston, gunsmith, is on hand with another lot of Pen-Knive Blades.

The readers of the Record are asked to excuse the crowded state of its advertising columns for the present. The circus and "sale season" will soon pass by.

LAND SALE.—Mr. Daniel Brewer, residing near Upton, sold his farm, containing 234 acres, to Mr. Moses Gingrich, for \$17,000.

REAL ESTATE SALES.—Several sales of valuable Real Estate will be found in our advertising columns to-day to which we call special attention.

SALE OF VEHICLES.—Messrs. Hamilton and Morison will sell at public sale a large number of vehicles on 23d of September. See advt.

The United Brethren Camp Meeting near Funkstown, in this county, closes to-morrow. The attendance on Sunday last is represented as having been unusually large. Between forty and fifty tents are on the ground.

CLERMONT ACADEMY.—It will be seen by reference to our advertising columns that a School is to be opened at the Clermont House (Miller's) on the South Mountain, in which the higher branches are to be taught, of which JONATHAN EMMERT, A. B., is to be Principal. Mr. E. is highly recommended as a gentleman and scholar. The location is a delightful one for such an institution. We trust it may be so patronized as to prove successful.

DEAD.—Dr. Samuel D. Barrick, formerly of this place, died at his residence in Sabillasville, Frederick county, Md., on the 22d inst, aged 46 years and 6 mos.

Dr. Barrick (says the *Mechanicsville Courier*) resided in Harbaugh's Valley, about twenty-two years, and during this time engaged wholly in the practice of medicine. The people had great confidence in his skill in the medicine art. His name has become a household word, and will live in the memory of his patrons.—He leaves a wife, two daughters and three sons to mourn his loss. A large concourse of people, far and near, attended his funeral. Rev. Mr. Gilds preached the funeral discourse.

SHOW COMING.—It will be seen by referring to our advertising columns, that Handenburgh & Co.'s Mammoth Menagerie and Circus will exhibit in this place, on Saturday the 9th day of September, afternoon and evening. This time our readers can look out for a "big show". An exchange says: We do not wonder at the patronage this establishment has received here, for it is, in reality, an attractive show to transit their business. No house is better known or valued by the press for its promptness in settlement than the well established and popular J. C. AYER & Co., Lowell, Mass., whose medicines have become a household necessity, and won the confidence and praise of all. Our own acquaintance with them has extended over a series of years, and we have invariably found them, their travelers and their medicines worthy of the commendation they everywhere receive.—Jackson (Tenn.) Tribune

The former Pastors, Rev. J. W. Weightman and Rev. A. Buhrman, preached in town on Sunday, the former in the Presbyterian and latter in the Lutheran Church.

Henry Ritter, a noted horse thief, escaped from the York county jail on the night of the 24th inst, by digging through the wall. He is five feet seven inches high, dark complected. A reward of one hundred dollars is offered by the Sheriff for his arrest.

SARATOGA SPRINGS, N. Y.,
August 24, 1871.
W. Blair, Ed. *Y. Record*.—Dear Sir:—In your issue of August 17th now before me my attention is called to an article therein signed "Citizen" headed "The Railroad Question," to which in a few brief words I would reply. I am not a present prepared to answer in full the matter as it deserves, but on my return home I will in detail do so. At present I only wish to say this, the statements put forth by so called "Citizen" are base fabrications from beginning to end. I fully recognize the author to be one largely identified and connected with the Miramar R. R.

His attacks are made without the least semblance of truth. We were not aware that we had competition in the field, and did not desire in the least to engage in any warfare of words—but since this outrageous misrepresentation has appeared we are determined to reply to it and set the plain facts of the case truthfully and properly before the people of your County. We are now having our survey made and will by this week have reached as far as the Caledonian Estate, and as soon as completed we will then be prepared to lay the entire facts of estimates, distances, costs, etc. before the people, and ask the Miramar to do the same, and then let the matter be decided according to the merits and advantages offered by either competing company. We are also having a thorough geological survey made from Pine Grove to Waynesboro', and we expect to be able to show more ore and minerals on each and every mile between the two above named points than the Miramar company can in any ten miles of their entire route. Until then we only ask a cessation of untruthful and base reports such as contained in your issue of the 17th inst. Promising at an early date to prove by facts the superiority of our route over all other competitors.

Very Respectfully,
J. C. FULLER, Pres.
South Mountain Iron Co.

COMMUNICATED.
On the 1st day of August 1871 Samuel Gelwick, Sup't. of Franklin county held an examination in the Village of Quincy. Mr. J. W. Brown, B. E., having taught there 8 months previously his class of pupils joined the class of teachers—in all 16 in number. The pupils of Mr. Brown passed a very credible examination—some were boys yet—and received better certificates than some of those who have been teaching for years. Mr. Brown is a graduate of the Keystone State Normal School, this shows the value of our Normal School System. President, John Hemminger, formerly of Cumberland Co. Pa. would not consent on the employment day of teachers for Quincy to have schools taught hereafter by a poorer teacher than Mr. B., and so, knowing that low wages would result in poor training in the school, he preferred rather to have no school at all. He was determined in spite of all that he would not let Mr. Brown leave the school at any figures. Mr. B. asked \$60 per month, they wished to "flew" him, but he could not be bought at a low figure.—So, at last, it was decided that a Penna. State Normal Diploma is worth \$60 per month to the patrons and tax payers of the district. This is the dawn of a new era in Quincy which is certainly ahead in Franklin county so far as heard from.—Let other districts all over the State go and do likewise and the hum-drum teaching will pass into history or oblivion.—Three cheers for Quincy, and let the Waynesboro' and Washington township value the man's services, who labors to give brain a development enabling people to prosper more and better?

BE CAREFUL.—In these days, when tight hats, hot air, and sedentary occupations, cause the hair to fall out, it is a matter of no little importance to know which of the hair-preparations are of any value. The majority, as has been frequently proved by the best dermatologists, are hair-doctors, possess little or no merit. Such being the fact, it is consoling to those who are afflicted to know, there is really one good article, which is recommended and used by the first medical authority, and has stood every test, many years. This preparation is Hall's VEG-ETABLE SICCILIAN HAIR RENEWER. It will restore to gray hair its original color, cleanse the head thoroughly, cure all eruption of the scalp; and will always restore the hair so long as any germ remains, as they almost invariably do, until extreme old age has destroyed the roots. The original article is made by R. P. Hall & Co., Nashua, N. H.

PERSONAL.—We were pleased to receive a call, during the past week, from Dr. AYER's traveler, who was in our town devoting his time and attention to the preparations of the great medicine man. This call has become a pleasant annual to us from the able and reliable business character of the accomplished gentleman whom this firm send out to transact their business. No house is better known or valued by the press for its promptness in settlement than the well established and popular J. C. AYER & Co., Lowell, Mass., whose medicines have become a household necessity, and won the confidence and praise of all. Our own acquaintance with them has extended over a series of years, and we have invariably found them, their travelers and their medicines worthy of the commendation they everywhere receive.—Jackson (Tenn.) Tribune

A religious paper prints the following paragraph. The result will be chronicled in a sunbeam which will appear on the 3d Monday of October. It is asked of all newspapers, desiring the spread of truth and the destruction of error, that they publish this request and pray to Almighty Power, that on the three first Sunday nights in October, 1871, there shall appear in the heavens a distinct light in the shape of a great cross; and furthermore, all good people are urged to pray earnestly for this miraculous sign.

Rev. Joel Swartz, Pastor, of the First English Lutheran Church of Carlisle, has received and accepted a call to this Lutheran congregation of Williamsport, Penn.

To acquire a healthy condition of the bowels, drink a glassful of cold water, to which add a little salt, upon rising—says an exchange.
