The merits of this machine consists in part, in the attachment of curved knives to the arms of the cutting wheel, the shearing cut across the mouth-piece, the great power and directness of the blow, by which treble the volume of material is cut, with less power than is required by any other machine; those combined with its durability and simplicity of construction, command public attention. THE alarming increase in the number of frightful accidents, resulting in terrible deaths and destruction of valuable property, caused by the indiscriminate use of oils, know under the name of Petroleum, prompts us to call your special attention to an article which will, wherever used, remove the cause of such accidents. We allude to CARSON'S STELLAR OIL FOR ILLUMINATING PURPOSES.

NATING PURPOSES. The proprietor of this oil has for severa years felt the necessity of providing for, and presenting to the public, as a substitute for the dangerous compounds which are sent broadcast over the country, an oil that is safe, brilliant, and entirely reliable. After a long series of laborious and costly, experiments, he has succeeded in providing, and offers to the public, such a substitute, in

"CARSON'S STELLAR OIL" It should be used by every family because it is safe boyond a question. The primary purpose in the preparation of STELLAR OIL has been to make it Perfectly Safe, thus insuring the lives and property of those who use it. Its present standard of SAFETY and BRILLIANCY will always be maintained for property of the same and property of the same and BRILLIANCY will always be maintained. ed, for upon this the proprietor depends fo

sustaining the high reputation the STEL-LAR OIL new enjoys.

To prevent the adulteration of this oil with the explosive compounds now known under the name of kerosene, &c., &c., it is put up for family use in five-gallon cans, each can being sealed and stamped with the trademark of the proprietor; it cannot, therefore, be tampered-with between the manufacturerand consumer. Mone is genuine without this trade-mark.

It is the duty and interest of all dealers and customers of illuminating oil to use the STELAROIL only, because it alone is known to be safe and reliable. It is for sale by Amberson, Benedict & Co., Waynesboro'. Manon & Statler, Marion. E. B. Winger, Quincy. Gelwicks & Burkhart, Chambersburg.

its high standard; and it is the only reliable and perfected prepara-tion for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. GEISER'S

PATENT SELF-REGULATING GRAIN SEPARATOR

CLEANER, BAGGER AND POWERS!

No implement more important to the farmer than a First-class Grain Thresher and leaner-for none pays him so well and so

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with

FIRST-CLASS WORKMEN & MATERIAL this Machine just stands high above all of this Mach's just stands high above all of its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honest competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commends from 2 to 3 capts of the commends from 2 to 3 capts of the commends from 2 to 3 capts of the capts this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impar rionty as a cleaner over an others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more duble—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz:— From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$100 to \$360, without power. We also make the latest improved triple-geared Horse Powers, suitable for each size machine, ranging from \$90 to \$135, and all fully and fairly warranted.
