Press for Sale.—We still have for sale the Washington Press upon which the Record was printed previous to its enlargement. Price, \$100.

From the Chambersburg "Broad Aze" CARRIER, NOVEMBER 8, 1871.

Mr. Editor.—Being in the vicinity of the Mirimar Railroad, and meeting the President, I was invited by him to take a ride along the line of the road. Having the time to spare, and being anxious to convince myself of the reality of the undertaking I assented, and was surprised to see the progress that the road had already made. I found three large gangs of men at work, one gang at Williams mill; another at Leidy's, and a third at Boiling Springs, and was told that another was about to start at Barnitz's mill. This certainly means business. About five miles of the road is graded ready for the superstructure. At the rate they are pushing the work forward it will not be many months before the Iron Horse will wake the echoes of the south side of the Cumberland Valley by his shrill whistle as he passes to and fro over this (which is destined to be) the greatest railroad of the valley—a road which will be a monument to the names and memories of the great minds and liberal hearts who conceived and carried into effect a project whose usefulness—none dare gainsay, as day by day it develops the mineral resources of the territory through which it passes, by the building of furnaces, rolling mills, foundries; encouraging manufactures by opening avenue for the transportation of their wares to market—stimulating the farmers to a greater activity by bringing almost to their very doors a market for their grain and produce, and in this way protecting them from the present monopoly that cats up every cent of the profit they otherwise would have if they could get their grain into market at reasonable freight charges. This reason, if no other, should induce our farmers and mechanics to subscribe still more largely to the Mirimar, for they have long been at the mercy of a road that knowing it had no competitor piled up the freight charges until it almost took the price of a bushel of wheat to get it into market. And for this reason, if no other, should the projectors of this road be ever held in grateful remembrance by the citizens of the Cumberland Valley.

The road crosses the South Mountain Iron Company's road at Papertown, which fact will make this town of no inconsiderable importance in the valley as it is already the seat of several large paper mills. Many more will grow up around it making in a few years the greatest manufacturing town of the Valley, and perhaps of the State, since the natural advantages, its large streams of pure water presents for the manufacture of paper—its splendid sites for the erection of Furnaces, Forges and Rolling Mills, and last, but not least, its numerous and inexhaustible beds of iron ore, gives it the ascendancy over nearly all other points along the route. Spring Forge, Leeburg and Chambersburg are all in the same category, and only need a cross road to place them on an equal footing with Papertown. While along the route I looked anxiously among the many faces that greeted me for the genial face of my friend Moffitt but could not catch up to him, but understood he was locating the bed of the road about Papertown—Capt. deserves great praise for the active part he has taken in surveying the road and presenting to the minds of its stockholders and others its utility. I have been told that the farmers along the whole road as far as it has been graded have granted the right of way free of charge, and have every reason to believe that from Mt. Holly to its intersection the right of way will be granted. This is the right spirit, and the same spirit should animate every landholder along the entire route. To me, praise cannot be recorded the President, Mr. D. V. Ahl, for this noble undertaking. The rich as well as the poor in this Valley should look upon him as their greatest benefactor, for to the former he has opened a new avenue for the advancement of his interests, and to the latter he has given employment. I also met Mr. John Moore another of the great men of this road and found him urging the work forward.

In conclusion let me say that my very best wishes are with the Mirimar and that I am impatiently waiting to hear the Steam Engine with a long train of cars pass over it. I also sincerely hope that the Broad Aze may be as successful as the Mirimar. Yours Truly, J. K. F.

The Executive Committee of the Relief Society at Chicago has published an official statement of the moneys received up to Nov. 7th. The total amount received is \$2,050,000, out of \$3,500,000 subscribed. The society is now relieving 80,000 thousand persons, and aiding in the erection of temporary houses on the site of their former dwellings, or on leased ground. These houses are to be occupied during the winter and next summer.—The number already built is 4,000, which is estimated, with the number to be built, will shelter 35,000 people. The cost of these buildings, with some necessary furniture, will be about \$1,200,000, leaving about \$2,250,000 to meet expenses for food, clothing, fuel, etc., from October 13th until the completion of the work which cannot possibly and with the present winter.

Representatives Schofield and Lansing, of the Sub-Committee on the Ku-Klux, which recently visited Florida returned to Washington one day last week. They report that while in Florida they examined a large number of witnesses, and received the astonishing intelligence that in Jackson county alone since 1868 seventy-five murders have been committed.

Under a recent law, pensions are now paid quarterly, and over \$7,000,000 are required for each quarter.

Town and Country.

No Small Fox here.

Another small "moustache" has been started in town.

The prettiest girl in town was out on Saturday evening.

The Chambersburg papers deny that the Small-pox is prevailing in that place.

The first snow of the season fell here yesterday morning, only partly covering the roofs of the houses.

The Chambersburg Repository promises an enlargement and thorough change in appearance on the first of January next.

Ground was last week broken on the Western Maryland Railroad at Williamsport.

The great fall of stars occurred on Tuesday morning, November the 12th, 1833.

S. F. Greenwalt, Esq., has entered upon his duties as Sheriff of this county. J. W. Fletcher is his Deputy.

Hon. John Thompson Mason is to be Secretary of State under Governor Whyte of Maryland.

Business in this place will be suspended on Thursday next, Thanksgiving day.

ADJOURNED SALE.—We direct attention to the adjourned sale of real estate by Peter Rouzer, in Pikesville.

Our R. R. Committee are now canvassing for stock subscriptions. Citizens generally, of both town and country, should respond promptly and liberally.

A more than ordinary fatality prevailed among the town hogs during the past week. Charley, the "Baltimore Butcher," is up and doing.

The "slow coaches" who have not paid us for years will settle their accounts with costs, unless they come down with the "stamps," soon.

DEAD.—Mr. John Brown an influential and esteemed citizen died in Fayetteville on Wednesday a week. Aged about 75 years.

BIG.—Our neighbor, J. R. Sellars, on Tuesday slaughtered a hog which weighed 480 pounds and turned out three cans of lard.

CONTRACT AWARDED.—The contract for grading and piking South Street has been awarded to our friend, Mr. J. J. Irvin, for the sum of \$2,000.

THE WARE MILL.—The assignees of Henry Besore will offer at public sale on the 15th of December, the valuable Wharf Mill property, situated in Quincy township. See advt.

A law in Maryland prohibits the killing of partridges. Sportsmen who cross the line under the impression that they can shoot these birds without risk, should be aware of the consequences.

LECTURE.—REV. LITTLE, late of Philadelphia, will deliver a Lecture in the Lutheran Church in this place, on Friday evening, December 15th. Subject: "Germany as I Saw It."

The Supreme Court has ordered a peremptory mandamus commanding Eminger, jointly with H. G. Skiles, the other return judge, to give a certificate of election in legal form to J. M. Weakly, in the 19th Senatorial district.

STEALING AGAIN.—A few weeks since a hand axe, a brace and several bits were stolen from the shop at Snow Hill, and since the saw was stolen from the vice in the Smith Shop. A few grapes shot in the rear of the light-fingered gentry in that region would doubtless have a good effect.

FIRST LOAD.—The first car load of flour on this side of the mountain freighted over the Western Maryland Railroad was shipped on Friday a week by Mr. David Lohr to Messrs. Newman & Forney, Commission Merchants, No. 77 North Baltimore Street. Messrs. Newman & Forney, formerly of this place, are practicable and reliable business men, to whom flour, etc. from this county can be consigned with safety.

MORE BIG BEETS.—Mr. Theodore Wiesner, Merchant of Fleagleville, sends us a red beet, taken from his garden, which weighs nine pounds and one ounce. This is a whopper, beating the Ringgold specimen two pounds and one ounce.

While we are on the beet question we will add a Western specimen. The last Knox Republic, published at Knoxville, Ill., contains the following notice:

Mr. R. N. Wallace, of this city, has sent us a beet that beats all the beets that have thus far come within our observation. It is thirty-one inches in circumference and weighs nineteen pounds. If anybody has a beet that will beat Mr. Wallace's beet, we want to know it.

BARN BURNED.—On Saturday the 11th inst., about noon, the splendid barn of William M. Watts Esq., in Upper Allen Township, Cumberland County was consumed by fire together with all its contents, except the live stock. 500 bushels of barley, 1000 bushels of corn, a mow of hay, and a large quantity of wheat threshed and unthreshed.—Spirit.

There is sleighing in Malda.

ONE IN FRANKLIN COUNTY.—It has been known, says the Lancaster Express, by some few persons, for some time past, that valuable mineral deposits exist in the South Mountain section lying in Franklin county, Pa. Recently this knowledge became more general and attracted the attention of capitalists and men of science. It is a fact well ascertained now, that select parties of persons belonging to this class have quietly visited the locality, and have made topographical observations and mineral explorations, and that the results have proved so satisfactory that large tracks of land utterly worthless, except for mineral development, have been bought by them. It has also transpired that a leading banker and several capitalists from Lancaster city, attended by the celebrated practical chemist, Professor Thomas R. Baker, Graduate of the University at Göttingen, Germany, and who at present occupies the chair of Chemistry and Natural Science at the State Normal School at Millersville, very recently made a tour of observation and inspection to this place. This party from Lancaster have so far kept their opinions to themselves. It has leaked out, however, that the professor had shipped to his laboratory at the Normal a large quantity and variety of specimens secured by the party, and that an open expression of opinion by them is subordinated to the careful analysis of the specimens in the hands of the professor, and his report thereon to them privately. The mineral characteristics of the locality are singular and unusual. There seems to be a promiscuous throwing together of different valuable properties in close proximity.—There are indubitable indications of gold and silver, boundless deposits of iron, and what especially attracted the attention of a party headed by Governor Geary, was the extent and richness of the copper ores. The surface indications of copper are remarkable, pure lumps of several pounds weight having been found.—The immediate locality, more closely explored by the Lancaster party, lies near the Buena Vista House, some few miles south of the Southern terminus of the celebrated Tape Worm Railroad. This particular spot which they fixed upon as a strong point in the neighborhood, some miles distant, who seems perfectly satisfied to hold on to it at all events.

NOVEMBER.—The month of November, which the poet Bryant styles "the saddest of the year, is already more than half gone, and the whole face of nature presents a changed and mournful appearance. The trees, which a short time ago, were clothed in gorgeous raiments by the Autumnal frosts, are now being stripped of their leaves by the blustery winds, and these sad relics of decay are now strewn in plentiful profusion over the ground, admonishing us of the ruin, worked by the hand of Time. November with us, has always been an unfavorable month, and the feeling of gloom and sadness which sometimes will steal over us, prevails with increasing energy when its dark and dreary days are slowly passing by.—The weather thus far, however, has been quite mild and pleasant, the sun shining with genial warmth; but in a few days, all this has been changed, and dull, leaden skies and cold, drizzling rains attest that.

"The melancholy days are come, The saddest of the year, Of wailing winds and naked woods And meadows brown and bare."

DEATH FROM SMALL-POX.—REV. C. RUSSELL, of the Reformed Church, brother of D. B. Russell, Esq., of this place, died in Philadelphia of Small-pox on Friday last. He had been on a visit to his friends here but a short time previous, and at the time he contracted the disease was on his way to Camden, Delaware, where he had a charge and an appointment to preach the following Sunday. We understand the deceased left Latrobe, Westmoreland Co. Pa. about one year ago, where he had preached for about thirteen years, and since had been preaching in Camden. He expired at the residence of his brother, Rev. Geo. B. Russell—in the 46th year of his age. A native of our town, and well and favorably known from his boyhood, his sudden death is very generally regretted.

The ticket elect in Washington County, Md., at the late election, is as follows: Whyte (Dem.) 83 majority for Governor. Claggett (Dem.) beats Darby (Rep.) for Senate by 23 maj. Moses Whitson, Charles Ardinger, David H. Newcomer, (Reps.) and Augustus Young, (Dem.) are elected to the House. The Republicans also elect the State Attorney, J. C. Zeller by 5 majority; one Judge of the Orphans' Court, J. L. Smith; and four County Commissioners, Theodore Emley, J. H. Harp, W. Lyday and Samuel Strie. Bamford (Rep.) beats Krouse (Dem.) for Sheriff by 87.

REMOVAL OF HANNIBAL.—On Saturday last the bones of Hannibal, the big Elephant who died and was buried near Centerville, this county, in May, 1865, were taken up and shipped to Chicago, by Mr. H. W. Boyd, Professor of Anatomy, in the Chicago Medical College, there to be dressed up, put together and occupy not a little space in their museum. It required four large store boxes and a sugar hogshead to contain the bones.—Bedford Inquirer.

The Phrenological Journal for December is at hand. Among the Magazines we receive each month, none are more carefully perused than the Phrenological, on account of its sound views on everything related to the times. It is progressive and reformatory, but never deals in vague and illusory schemes, like most of the so-called progressive publications. The December number contains among other good things; Judge Daly, of New York, with a fine portrait; An old bone of contention; An able Review of Mr. Beecher's life of Christ; The Bridge of motion, or Recent scientific Developments; Lawra's Experience, a strange but true love story; Gen. Robt. A. Cameron, the Colorado Colonel; Chicago; Chronic catarrh, its cause and cure; Thought in sound and motion; The Geological History of man; The Faculty of Order and its culture; Working at Night; The Deserted Village. Single Nos. 30 cts.—\$3.00 a year. A new vol. begins with the next number. S. R. WELLS, Publisher, 389 Broadway, New York.

YOUNG LADY BURNED TO DEATH.—On Friday night the 10th inst., about 11 o'clock, Miss Edith Gitt aged between 15 and 16 years, daughter of Jesse W. Gitt, merchant, of Hanover, attempted to blow out a burning lamp of Kerosene oil. The fluid ignited, exploding the lamp, and scattering the burning liquid over her clothing, which were at once enveloped in flames. Aid was at once summoned, but before the flames were extinguished, the young lady was terribly burned, the face and breast to a crisp.—She lingered until 11 o'clock Saturday morning, when death relieved her sufferings. Miss Gitt was a young lady of culture and the idol of a large circle of loving friends.

We would direct attention to Messrs. BLISS KEENE & Co's advertisement of CUNDURANGO, the new remedy for Cancer, Scrofula, and all diseases resulting from impure blood. The cures accomplished by this remedy, as reported, are truly marvellous. Messrs BLISS, KEENE & Co. are regular physicians of high standing and thoroughly reliable.

THANKSGIVING.—Union services will be held in the Presbyterian Church in this place, on Thursday morning next, Thanksgiving Day. A sermon appropriate to the occasion will be delivered by one of our ministers.

Dr. G. A. Hamill, of Martinsburg, West Virginia, met his death by a fall on the 10th inst. He had been called to see a patient about three o'clock A. M., and in the darkness fell into an excavation but a short distance from his residence and broke his neck.

Hagerstown Almanac at REID'S.

The mammoth cave in Kentucky is for sale at \$500,000.

The Wyoming House of Delegates has passed a bill for the repeal of the female suffrage act.

The anthracite coal market, according to the Philadelphia Ledger, continues very dull, and although there is a large decrease in the production prices are from 10 to 15 cents lower than they were last week.

HEAVY ROBBERY.—The Jewelry store of J. & S. Franks, North Sixth street, Philadelphia, was entered by burglars on Saturday night, and twenty thousand dollars' worth of Jewelry and watches stolen.

A terrible explosion occurred on the 9th inst., in a coal mine near St. Etienne, France. Twenty-two dead bodies have been taken from the mine, and thirty more men have been killed and were still in the pit. The explosion was caused by fire damp.

BUSINESS LOCALS.

GEER at the Ringgold Cross Roads has just returned from the city with his second supply of winter goods. This was caused by the rapid sales of his first stock, and abundantly proves that the "Cheap for Cash" plan takes with the people. All in want of winter goods at short profits should give him a call.

ASTRACHAN SACKS.—Pure Astrachan Sacks will last a lifetime. Prices this season are in sympathy with the low prices for Ladies Furs. Never within our experience covering twenty years in the fur trade have we known prices so favorable to buyers. No article in Ladies' Wear affords more real comfort, or cost less money proportionately than Ladies' Furs or Genuine Astrachan Cloaks.—Come and see for yourselves and look at our make of Ladies New Style of Dog Skin Gloves for Winter of 1871, at UPDEGRAFF'S Hat, Glove and Fur factory, opposite Washington House Hagerstown Md., Nov. 9—4.

PLEAS.—Look at those features and see the agony depicted in the face. It cannot be helped while the trouble remains.—Thesuffering from piles of a very aggravated description. You cannot walk with any comfort; you cannot ride in peace; you cannot sit with ease, and the suffering when attending to nature is almost unbearable, and causes such feeling of dread that it is put off at great sacrifice to health and comfort, in many instances increasing the difficulty, until an alarm is given. Use Dr. Briggs' Pile Remedies according to directions to cure internal, external, itching or bleeding piles. They are mild and reliable, and warranted as represented. Sold by Druggists.

Corns, Bunions, Ingrowing Nails and their attendant ills, have been, in years gone by, and will be in years to come, a source of much discomfort and unhappiness to those who are annoyed with them. By persistent efforts and unflinching perseverance, Dr. J. Briggs gave the suffering humanity his remedies—Alleviator and Curative. The popularity which they have gained, and the entire satisfaction derived from their use, is well known and can be attested by all classes who have suffered with Corns, Bunions, Ingrowing Nails, Chilblains, Frost or Blistered Feet, &c.—Sold by Druggists.

NEUROUS DISEASE.—How many thousands of the most refined ladies of the land are slaves to nervous diseases in various forms—trembling, twitching, and jerking of the nerves, headache, hysterics, sudden outbursts of temper on trivial occasions, peevishness, a feeling of desperation, despondency, or fear, &c. In any unhealthy condition of the nervous system, Briggs' Alleviator has absolute control over the nerves, creating a radical change and positive cure. Sold by F. FOURTHMAN and druggists generally.

MARRIAGES.

In this place, on the 21st inst., by the Rev. H. Stonehouse, Mr. CORNELIUS WILLARD, of Frederick county, Md., to Miss HARRIET KEEPER, of Adams Co. Pa.

On the 21st inst., by the Rev. Dr. Mitchell, Mr. JOHN A. GARDNER, of London, Ohio, to Miss MOLLIE A. daughter of Ephraim Hiteshaw, Esq., of Chambersburg.

On the 16th inst., at the Lutheran Parsonage in Quincy, by Rev. J. S. Harkey, Mr. ALEXANDER ROCK, and Miss SUSAN HIST, of Quincy township.

DEATHS.

On the 2d inst., near Marion, this county, Mr. ANRAT HESS, aged 59 years, 2 months and 2 days.

Friend Abraham, though well stricken in years, may have presumed his days to be many, but suddenly a voice was heard: "Set thy house in order, thou must die, and not live,"—a few days, and he was numbered with the nations of the dead; a few days left to get ready to meet the "Judge of all the earth." On the 4th inst. his remains were conveyed to the Antrim German Baptist burying ground, followed by a large concourse of people and relatives, deeply impressed with the uncertainty of life and the certainty of death. As a word of comfort to the bereaved widow, mourning relatives and children—joy to the heart to know that "Earth has no sorrow that Heaven cannot heal." D. F. G.

On the 12th inst., Mrs. MARGARET CRAWFORD, near Fayetteville, in the 53th year of her age.

On the 3d inst., near Jacobs' Church, Mr. GEO. SPOTTERLY, in the 53d year of his age.

In Guilford township, on the 12th inst., MARGARET, wife of John Crawford, aged 67 years, 9 months and 16 days.

Near Greenscreek, November the 8th, 1871, Mrs. ANNA MARY LANE, aged 86 years, 7 months and 13 days.
