There is an ugly prospect of a renewal of the Legislative war at New Orleans. Carter, the speaker of the bolting House of Delegates, promises to make a forcible attempt to seize the 'Mechanics' Institute, where the Warmoth House is in session, and replace himself as speaker. The Warmothites have the Metropolitan police, all armed with rifles, and Carter two thousand men at his back.

The Legislature of Illinois has passed a bill enacting that no liquor shall hereafter be sold in that State without license, and no license shall be issued until the party applying therefor shall give bonds in \$3,000 with two freehold securities, for the payment of all damage incurred in person or property by the sale of liquor under such license, the penalty to be recovered in the name of the State for the use of the person injured.

NEW BOUNTY BILL.—An important bill has been introduced into Congress by the Hon. L. D. Shoemaker, granting to every person, officer or otherwise, who served in the army or navy of the United States, for the period of ninety days during the rebellion, and received an honorable discharge from service, and who has not already received the benefit of the acts a warrant for one hundred and sixty acres of land, or, in case such person shall have since died, to his widow or minor children; a subsequent marriage not to impair the right of such widow to the warrant. A point of considerable interest in the bill is the authority which it confers for the assignment, transfer or location of the warrants by the warrantees, or their legal representatives, according to the provisions existing laws regarding the public lands.

HO! FOR THE WAYNESBORO STATION.

The cars of the W. M. R. R. now run daily from Baltimore city to Rouzer & Shover's warehouse, 4 1/2 miles from Waynesboro and 1 1/2 from Pikeville, in Franklin county, Pa. Passengers and freight from Franklin, Bedford and Huntingdon counties, Pa., will now seek this route to go to Baltimore, and farmers ship their produce to the same market. The prospects for the W. M. R. R. and the merchants and traders of Baltimore now opens auspiciously.

Waynesboro is but 80 miles from Baltimore via the W. M. R. R. while by the way of Chambersburg and Harrisburg it is 180 miles to Philadelphia. Travelers and men of business will always seek the shortest and cheapest and best route both for business and pleasure. This rich region of Pennsylvania disregarding State lines as mere myths at best, will now seek the Baltimore market, if the merchants of that city are wide awake, and sell goods on as accommodating terms as the merchants and traders of Philadelphia.

The merchants of the latter place are now sending "drummers" out to notify merchants and farmers in Western Md. and Southern Pennsylvania, that to those who ship their goods on the W. M. R. R. and buy in Philadelphia, that they will pay the freight from the latter place to the Calvert Street Depot on all goods bought in that place and shipped on this road.—Clarion.

Our friend of the Clarion has somewhat overdrawn upon his imagination, as the counties of Bedford and Huntingdon are perhaps further from Waynesboro Station than Baltimore is, with the North Mountain intervening. It is therefore not at all likely that any freight from those regions would reach this Station, to which access is had with great difficulty from the immediate neighborhood West of the Mountain. The importance of a Branch Road to Waynesboro is therefore as important as it is apparent.

TAKE THE PAPER.—Some one hits the nail squarely on the head when he says, "what tells us so readily the standard of a town or country as the appearance of its paper? And its youth or its age can as well be determined by the observing as by a personal notice. The enterprise of its citizens is depicted by its advertisements, their liberality by the looks of the paper. Some papers show a good, solid, healthy foundation, plethoric plasma, a well-to-do appearance generally; others show a striving to contend with the grasping thousands around them, trying hard to wrench out an existence from the close fist community around them.

Take your home paper; it gives you more news of immediate interest than other papers; it talks for you when other localities belie you; it stands up for your rights; you always have a champion in your home paper, and those who stand up for you should certainly be well sustained. Your interests are kindred and equal, and you must rise or fall together. Therefore, it is your interest to support your home paper; not grudgingly, but in a liberal spirit; as a pleasure, not as a disagreeable duty; but as an investment that will amply pay the expenditure."

A WELL-KNOWN PHYSICIAN GONE.—We are pained to announce the death of DR. JOHN J. OELIG, which took place at his residence in this place on Tuesday morning last. The Dr. had been subject for several years to sudden attacks bordering upon apoplexy, from which he recovered, however, and was in the enjoyment of his usual health up to Saturday last, when he was taken suddenly ill, which was followed with an apoplectic attack on Monday, causing death on Tuesday. The Dr. we believe was a native of our town and had followed his profession for a period of forty years or more. As a physician he was widely known and had many warm friends and admirers, who will lament his sudden death.

ODD FELLOWS SUPPER.—A very sumptuous Supper was served up to Waynesboro Lodge of Independent Odd Fellows, at the Bowden House, in this place, on Tuesday evening last, eighty or ninety persons partaking of the good things prepared for the occasion. A course of Oysters gone through with, the tables were re-set and loaded with fowl, cakes and a profusion of other delicacies, all of which are said to have been gotten up in the good style for which "Aunt Nancy" is noted, the brotherhood enjoying a good time in general. About twenty-five members of the Fairfield, Adams county Lodge were present as guests and partook of the savory dishes. The procession at 9 o'clock was escorted from the Lodge to the Hotel by the Waynesboro Band.

Our enterprising Photographer, Mr. L. C. BRACEBILL, has returned from the city and opened out in the room, under his Gallery an assortment of beautiful pictures, picture frames, stationary, &c. &c. We advise the public, those especially with a taste for the beautiful, to call and examine his stock, which is a novelty in our town, where also are furnished photographs which will compare favorably with the best Baltimore or Philadelphia specimens. He has the latest improvements known to the art.

John Rogers aged 103 years, the oldest man in Boston, died on the 11th.

MR. EDITOR!—Your readers are doubtless aware of the organization of the "Young Men's Christian Association" in this place. As yet the membership is not large. Thinking that if the objects were more generally known many persons would unite themselves with us in this work, and therefore desire to set forth briefly the following:

Object—"to promote evangelical religion among young men" residing in this town and vicinity. To accomplish this end it is designed to hold weekly and monthly prayer meetings and such other religious exercises as may be found expedient. To obtain a room in which the members and other young men can meet every evening for the purpose of social converse, prayer, reading of books, etc.—To make it attractive so that young men may be drawn to it to spend their evenings and leisure hours, and thus lead them to abandon the habit of loafing in objectionable places.

To the devotional meetings we trust that the Congregations of the different churches will continue to give good attendance.

If all good Christians will give this association their countenance and support it will doubtless become a means of effecting much good in this community.

Qualifications for membership: Any man who is a member in good standing of an Evangelical Church, may become an active member by signing the constitution and paying in advance one dollar annually. Any man of good moral character may become an associate member by the payment of one dollar in the same manner. Ladies may become members by the payment of fifty cents annually.

SPECIMENS.—Several fine specimens of ore taken from an ore bank on the farm of Mr. A. S. Monn, can be seen at this office. Mr. M. has been prospecting for several weeks and will take pleasure in showing persons who call upon him what developments he has made. He is anxious that persons interested and those familiar with the different qualities of iron ore should call and examine for themselves. Mr. Monn's lower farm, which lies near the Blue Rock School House, is also known to contain great quantities of valuable ore, but a different quality from the specimens in our possession. Should the Harrisburg and Potomac Railroad reach our town over its proposed route, not only the lands of Mr. Monn, but those belonging to his neighbors must necessarily be enhanced in valuation on account of these mineral deposits.

THIEF ARRESTED.—Twelve bushels of clover-seed were stolen from the barn of Mr. Noah Sheely, near Cashtown, this county, on Saturday night, January 6th. On Tuesday following, Mr. Sheely, accompanied by several others, went to Franklin county, in search of the seed or information concerning it, and whilst there learned that a man named Harry White had been seen to cross the mountain with a wagon at night under suspicious circumstances. He was accordingly arrested, (by Detective Horner, of Fayetteville,) at his residence, in Greencastle, and lodged in jail here on Friday evening last, to await his trial by Court. It is said he has made some damaging confessions.—The seed has been recovered, Mr. Sheely fully identifying the bags containing it.—Gettysburg Compiler.

The annual report of the Cumberland Valley Railroad contains the following: The Southern Pennsylvania Railroad, leading from Marion, a point on this road, to Mount Pleasant in Franklin county a distance of twenty-five miles, has been completed and accepted by the Cumberland Valley Railroad Company under the terms of the lease, the conditions of which are stated in our last year's report. This road, after passing through the richest and most beautiful part of Franklin county, reaches the ore mines of the Mount Pleasant Iron Company, which upon the authority of a personal examination of them by Prof. Lesley, are pronounced to be excellent in quality, most abundant in quantity and mined with unequalled facility. We have thus by these roads, all of which will be in operation early in the summer, reached every desirable point for trade and travel on either side of our valley.—It is contemplated to extend the Scotland and Mount Alto Road to Waynesboro, which, if completed, will secure a most desirable accommodation to the enterprising manufacturers, as well as farmers in the vicinity of that place.

A complete set of burglar's tools was recently found concealed between the ceiling and roof of the Reformed church in Hagerstown. Rumor has it that an attempt was since made to fire the Post office in that place, and that the Mayor had received a written notice that the town would be fired if the tools were not returned by a specified time.

STAGE LINE.—The traveling public and other business men will be pleased to learn that Mr. B. F. BARR, is making arrangements to run a daily stage line from this place to Monterey, or Summit Station, which will leave Waynesboro at 9 A. M., making connection with the train on the W. M. R. R., leaving Summit Station, at 1 P. M., arriving at Waynesboro at 3 P. M.

NOTE TO ADVERTISERS.—That the circulation of the Record in Washington and Quincy townships exceeds that of all the papers in the county combined.

THE HARRISBURG AND POTOMAC RAILROAD.—The Carlisle Volunteers has, following with reference to the construction of this road: "Notwithstanding the occasional spells of cold weather, work has been progressing rapidly on the line of the Harrisburg and Potomac Railroad. A hundred and fifty men are employed and ten miles have already been graded.

The President of the road, D. V. Ahl, seems to be indefatigable in his efforts to hasten this important work on to completion. The latest move is to run a branch road to Petersburg, Adams county, the people of that vicinity having subscribed \$50,000 to the project. Considerable interest has also been manifested in Franklin county, and there is not much doubt that stock enough will be taken to extend the road from Cleaversburg to the Potomac.

The early completion of this railway is a matter of the deepest concern to every citizen of the county. The development of the vast iron interests of the South Mountain region will bring employment to thousands of men, and revive every branch of trade. The prostration of business in this valley, during the past year or so, has resulted mainly from the fact that all our dependence is upon agriculture; and when crops fail, or prices are low, there is a stagnation in every branch of trade. But line the South Mountain with smoking furnaces, and the whole aspect of business will be changed.—Workmen will find ready employment at good wages, store keepers will find sale for goods at cash, and every branch of mechanical industry will receive a new impulse.

The new road will be an especial advantage to the villages of Boiling Springs, Middletown, Papertown and Cleaversburg, and indeed will put a new phase on the whole South Mountain region.—That its construction is assured beyond a doubt, it is the duty of every good citizen to wish the project well and lend a helping hand. The new road will be of no immediate advantage to us of Carlisle but the question whether it will specially benefit this or that locality sinks into insignificance in view of the lasting benefit it must inevitably confer upon the county in general. Success, then, to the Harrisburg and Potomac railroad, and may the whistle of its locomotive soon be heard along its entire line, from the Susquehanna to Virginia."

THE PNEUMOLOGICAL JOURNAL has begun this year well. In no other periodical do we find human nature so thoroughly treated. We always see something in it which instructs us, something which entertains and something that is amusing. It is also a capital family Magazine. In the February number we find illustrated articles and sketches on the following: James Denoon Reymer, the eminent Norwegian-American; How the faculties Combine; Protoplasm, or the mystery of Physical life; Expression—its Anatomy and philosophy; Conjugal Psychology; Joshua Watson, the Philanthropic Churchman; "Follow your Nose," or, how the Nose indicates character; Rheumatism, its Causes and its Cure; Great Criminals; Plain Penmanship; Pre-Adamites found in the Bible, a new reading of Genesis; Governor Washburn of Massachusetts; A Marvelous Conjuror; Pickles, etc. Price 30 cents, single Nos.; \$3 a year. S. R. Wells, New York.

ADULTERY.—Rev. C. W. Kirby of the M. E. Church, charged with committing adultery with the wife of James King of Chambersburg, was tried for the offence last week at Chambersburg, convicted and sentenced to pay \$200 fine, costs, and undergo thirty days imprisonment in the county jail. It is not long since Kerby preached and lectured on temperance in this place.

The contract for the soldiers' monument at Antietam with James B. Battersworth, of Hartford, Connecticut, has been ratified, the price to be paid being thirty thousand dollars, and the work to be completed within two years. The design of the monument includes a white granite pedestal twenty-five feet high, surmounted by a colossal statue of a soldier of the same material. That statue will be twenty feet high, weighing sixty-five tons, and the largest of modern times.

Rev. George H. Hopworth, pastor of the Unitarian Church of the Messiah, New York, and one of the most prominent members of the denomination, has renounced Unitarianism. He preached a sermon to his congregation announcing his change of views. He now professes a firm belief in the divinity of Christ and in the Trinity—the equality of the Godhead—and on this doctrine he says he takes his final stand. In the course of his sermon he said: "In my youth I was a doubter. You cannot tell me anything about the experience of the skeptic; I have had it all. I have doubted all the way down to the bottom of things. In my Cambridge days I doubted even my own existence. I doubted God and immortality. But the truth has crept up, little by little, and now I take this step, which is my final one.

A fair-haired, love-sick youth in Ohio, presented his 'girl' with a pair of those new-fangled metallic garters on Christmas. He thought they were the latest thing in bracelets and only discovered his mistake upon requesting her to "try them on." He don't go there any more.

A Terre Haute (Ind.) man whose estate was valued at \$1,250,000, kept himself so short of food and clothing that he was found the other day, frozen to death. His son proved himself a chip of the old block by boxing his father up and sending him several hundred miles as freight, rather than pay the exorbitant express charges.

Mr. Anderson, of Amherst, Va. was carelessly handling a pistol on the 10th inst. when it was discharged, the ball entering his wife's bosom and inflicting a mortal wound. They had been married three weeks.

Miss Jane Owens, of Green Co., Mississippi, 18 years old, and her brother, 12 years old, were handling a gun which was thought to be unloaded. All at once, while in the boy's hands, the gun went off—the whole charge penetrating Miss Owens's brain, killing her instantly.

Use Dr. Briggs' Pile Remedies according to directions to cure internal, external, itching or bleeding piles. They are mild and reliable, and warranted as represented.
