ing Glory Store and a Morning Glory Heat-
er both in use but one S. B. RINEHRT.
Sept 23—44

SHAD AND HERRING.—Mess. Shad and
Potomac Herrin in bbls. for sale by
W. A. REID.

ROASTED ALIVE!
The following record of one day's accidents,
all from the same cause, viz: the use of in-
ferior Coal Oil, is taken from the Philadel-
phia Ledger of a recent date:
"The alarm of fire, last evening, at 7 o'-
clock, was caused by the burning of the
dwelling corner of 19th and Poplar, result-
ing from the explosion of a coal oil lamp.
Mrs. Hersh, occupying the second story of
the dwelling had retired to her department,
a few moments before the discovery of the
fire. On entering her room, she was found
lying on the floor, wrapped in flames."
"About 7 o'clock yesterday morning, a
coal oil lamp in the hands of Sarah Alexan-
der, who lives on Cowlip St. near 16th—
She was severely burned."
"Margaret Collins, residing in the rear of
618 South st., was burned by the explosion
of a coal oil lamp. Her husband, while at-
tempting to extinguish the flame, was also
severely burned. Two of the above named
victims have since died of their injuries."
All such fearful accidents, resulting in death
and the destruction of valuable property,
may be avoided by using "CARSON'S STELLAR
LAMP OIL," which is known to be a perfect-
ly safe and reliable illuminator. It is for sale
by Amberson, Benedict & Co., Waynesboro';
Christian Good, Quincy. Feb 2—1871.

OMNIBUS LINE!
THE subscriber informs the public that
he is proprietor of the Bus line running
daily between Waynesboro', and Green-
castle, heretofore run by Wolfersberger & Ston-
er. With new horses and a first-class pas-
senger omnibus he is enabled to convey pas-
sengers to and fro with comfort and conve-
nience.
His Bus will leave Waynesboro', at 6 1/2
A. M. time and sure connection with the
first Passenger train at 8 1/2 A. M. Leaves
Greencastle at 5 o'clock, P. M., arriving at
Waynesboro', at 6 45. He is himself Proprietor,
Contractor and Driver. Delivers
Admission tickets to any from Green-
castle. All Express matter expressed there-
same morning and through to Waynesboro
the same day it arrives. Persons wishing to
send goods by Express will do well by
giving him a call. Persons wishing to go to
Hagerstown should take this route. The
train leaves at 9 15 making connection with
the Washington County Railroad.
aug 20 [44] J. R. WOLFFENBERGER.

CARSON'S STELLAR OIL!
THE alarming increase in the number of
fire accidents, resulting in terrible
deaths and destruction of valuable property,
caused by the indiscriminate use of oil,
known under the name of Petroleum, prompts
us to call your special attention to an article
which will prevent such accidents, and remove
the cause of such accidents. We allude to
CARSON'S STELLAR OIL FOR ILLUMI-
NATING PURPOSES.
The proprietor of this oil has for several
years felt the need of providing for, and
presenting to the public, as a substitute for
the dangerous oil now in use, an oil that is
safe, brilliant, and entirely reliable. After
a long series of laborious and costly experi-
ments, he has succeeded in providing, and
offers to the public, such a substitute, in
"CARSON'S STELLAR OIL"
It should be used by every family because
it is safe beyond a question. The primary
purpose in the preparation of STELLAR
OIL has been to make it perfectly safe, thus
insuring the lives and property of those who
use it. Its present standard of SAFETY
and BRILLIANCE will be maintained,
for upon this the proprietor depends for
maintaining the high reputation the STELLAR
OIL has now won.
To prevent the adulteration of this oil with
toxic compounds now known under the
name of kerosene, &c., &c., it is put up
for family use in five-gallon cans, each can
being sealed and stamped with the trade-
mark of the proprietor; it cannot, therefore,
be tampered with between the manufacturer
and consumer. More is genuine without
this trade-mark.
It is the duty and interest of all dealers
and customers of illuminating oil to use the
STELLAR OIL only, because it alone is known
to be safe and reliable. It is for sale by
Amberson, Benedict & Co., Waynesboro';
Manion & Stutler, Marion.
E. B. Winger, Quincy.
Gielwicks & Burkhardt, Chambersburg;
V. D. Dixon, St. Thomas.
J. Heston & Co., Greencastle.
Thomas C. Grove, Mercersburg.
Jno. L. Ritchey,
JARDEN & CO., WHOLESALE AGENTS,
No. 130 South Front St., Philadelphia.
feb 2—1871.

ANTITETAM
SASH AND DOOR FACTORY?
JUST WHAT YOU WANT

with all the fixtures for putting up.

RAG CARPETS
constantly on hand and made to order

Selling lower than any other house
in the county. Call and hear prices.
Greencastle, Dec. 1, 1870.

HALL'S
VEGETABLE SHAMPOO
HAIR
RENEWER.
Every year increases the popular-
ity of this valuable Hair Prepara-
tion, which is due to merit
alone. We can assure our old
patrons that it is kept fully up to
its high standard; and it is the on-
ly reliable and perfected prepara-
tion for restoring GRAY or FADEN
HAIR to its youthful color, making
it soft, lustrous, and silky. The
scalp, by its use, becomes white and
clean. It removes all eruptions and
dandruff, and, by its tonic prop-
erties, prevents the hair from falling
out, as it stimulates and nourishes
the hair-glands. By its use, the
hair grows thicker and stronger.
In baldness, it restores the capillary
glands to their normal vigor, and
will create a new growth, except in
extreme old age. It is the most
economical Hair-Dressing ever
used, as it requires fewer applica-
tions, and gives the hair a splendid,
glossy appearance. A. A. Hayes,
M. D., State Assayer of Massachu-
setts, says, "The constituents are
pure, and carefully selected for ex-
cellent quality; and I consider it
the Best Preparation for its
intended purposes."
Sold by all Druggists and Dealers in Medicines.
Price One Dollar.

Buckingham's Dye.
FOR THE WHISKERS.
As our Renewer in many cases
requires too long a time, and too
much care, to restore gray or faded
Whiskers, we have prepared this
dye, in our preparation, which will
quickly and effectually accomplish
this result. It is easily applied,
and produces a color which will
neither rub nor wash off. Sold by
all Druggists. Price Fifty Cents.
Manufactured by R. P. HALL & CO.,
NASHUA, N.H.
Aug. 24—1y.

PATENTED SEPT. 21 1869
FOR CUTTING MAY, STRAW, FODDER, &c.
RYLANDS' PATENT CUTTER.
The merits of this machine consists in
part, in the attachment of curved knives
to the arms of the cutting-wheel, the shear-
ing cut across the mouth-piece, the great
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
less power than is required by any other
machine; whose combined with its durabil-
ity and simplicity of construction, command
public attention. Nothing like to get out
power and directness of the blow, by which
treble the volume of material is cut, with
