

Waynesboro' Village Record.

Thursday, March 14, '73.

There were 118 deaths from small-pox in Philadelphia last week.

The income of Wm. B. Astor is \$5,000 per day, and he owns six hundred houses.

The total loss by the burning of Dr. Jayne's granite building in Philadelphia, is nearly a million of dollars.

Black or spotted fever has made its appearance in Scranton in such a form that the public schools have been closed.

Two hundred and fifty canary birds, formerly the property of James Fisk, Jr., were sold at auction last week, bringing \$3,000.

Barnum advertises for 300 men to travel with his great moral show. He says that they must abstain from the use of spirituous liquors and profane language.

New Hampshire elected her Governor and State Legislature on Tuesday. The Republicans, the Democrats, the Labor Reformers and the Prohibitionists had a ticket in the field.

The death penalty is abolished in Kansas, the lower House of the Legislature having passed the bill (which had previously passed the Senate) regulating the punishment of convicted murderers. Imprisonment for life is the severest penalty under the new law.

On Monday a week a large bundle of vouchers were stolen from the Court House in York, Pa., and upon investigating the affair it turns out that York has a Tammany Ring, and that it has made away with \$310,000 belonging to the taxpayers.

A man narrowly escaped being buried alive at Sleepy Hollow Cemetery near Tarrytown, N. Y. As the coffin was about to be lowered into the grave a noise proceeded from it, causing the interment to be delayed long enough to discover that the man was alive.

Resolutions have been introduced in the California Legislature asking Congress to repeal the act giving the monopoly of the fur business in Alaska to one firm. Last year the importation of raw fur from Alaska to California aggregated two millions of dollars, one steamer alone bringing \$800,000 worth.

The case of Dr. Huston of Baltimore was last week before the Conference of M. E. Church South, at Warrenton, Va. Of course the Rev. gentleman plead martyrdom. The disgraceful affair was referred back to the Presiding Elder of the East Baltimore Conference for immediate investigation.

The present winter has written a tale of unparalleled horror on the pages of Western history. As yet however not half the story of suffering from terrible frosts, and damage from blinding snow-storms, has met the public eye. Snow has been piled high in many localities, and men, women and children frozen while endeavoring to obtain food and fuel. In some cases, parties were overtaken in the open air and killed by the blighting embrace of the North wind; in others, whole families died by their own fireless hearth stone, cold hungry and alone. These are some of the incidents which have marked the winter of 1872 in the West.

The facts of the immense frauds perpetrated on the treasury of New York by the Tammany Ring have been known for so many months that they are almost an old story, but the practical workings of the thievery were not perfectly illustrated until Andy Garver returned from his exile and turned State's evidence against the rest of the robbers. In the trial of Mayor Hall of last week Garver was placed on the stand as a witness for the prosecution and told the whole story of his own rascality in the presenting of a fraudulent bill to the city for \$395,000 for plastering pretended to have been done on the Court House. He was paid thirty-five per cent. of the claim, of which he kept \$50,000 for himself, gave twelve the same amount, and the remainder was distributed among the other thieves. There was nothing directly implicating Hall in the affair, except that the warrant for pay for labor never performed must have passed through his hands and been audited by him. Ex-Comptroller Connelly has fled from New York on account of the threats of his former confederates of the Ring, that if he came into court to testify against them, they would produce evidence that he had been convicted of crime in Philadelphia and been pardoned out of prison by the Governor of Pennsylvania.

The cases of the Southern Pennsylvania railroad company against a number of citizens in the vicinity of Mercersburg, which were to have been tried in the court of Common Pleas of Perry county have been settled and the suits withdrawn.

Dr. Jacob Thomas, of Frederick, who was arrested some months ago, on the charge of killing a Mr. Belt near Buckeystown, and who was indicted by the Grand Jury of that county a few days since, has removed his trial to Hagerstown.

The Telegraph office is now next door to the Waynesboro Hotel.

See Carpet advertisement, I. H. WHITMORE, Greenacastle.

THE R. R. SURVEY.—Our Railroad Committee have secured the services of Joseph S. Gitt, Esq., Civil Engineer, to run a couple of experimental lines to ascertain in which direction the shortest and most feasible route for the proposed branch road to connect with the Western Maryland road lies. The time appointed to commence the work was this morning. A couple of weeks will elapse we are informed before Mr. Gitt's report will be completed, when we hope to be able to give something more definite as to the probable success of the project.

If a line that is practicable and satisfactory can be found our railroad men should lose no time in completing the necessary arrangements to make its success a reality and insure an early commencement of work this spring. If the connection can be had in six or seven miles, a few months, after a commencement, should suffice for the completion of the road. If we are to get this outlet to Baltimore the sooner the better. For this want our community has too long suffered pecuniary loss and inconvenience. Our business men and farmers can therefore well afford to act with promptness and liberality in behalf of a public enterprise so vitally important to their best interests. For want of a railroad enough money has already been lost to build a half dozen branch roads.

Y. M. C. A.—We are glad to learn that our Young Men's Christian Association is growing and under the blessing of God prospering. At a meeting of the Association held on Monday evening it was agreed to rent the Hall above Deaver's store room for a reading room. One of the members kindly offering to furnish the room at his own charge and the Association to repay him as it is able. The objects and purposes of the Association are good and it deserves the help of all persons. The regular prayer meeting of the Association will be held in the Methodist Church on Sunday afternoon at 3 o'clock. Let there be a full turn out.

DEMOCRATIC TICKET.—The Democrats on Saturday nominated the following township ticket to be supported at the election to-morrow:

- Judge, Simon Lecron; Inspector, Henry Walter; Supervisors, Arnold Rodgers, Samuel Leeron, Jona. Hefner, Samuel Sheffer; School Directors, Wm. Pennel, David E. Miller, Samuel Nichodemus; Assessor, John Harbaugh Jr.; Constable, Daniel Johnston; Auditor, Wm. Pope. For the Borough the ticket is—Assessor, L. C. Brackbill; School Directors, W. L. Hamilton, Ferdinand Forthman; Constable, Wm. F. Hoener.

PAYMENTS.—Many of the pavements in our town are sadly out of joint at present and should be relaid or repaired. In their arrangements for spring work property holders should not forget this important item. In front of a dwelling house nothing looks more untidy than a ragged pavement, which may be put down as a fair index to its occupants' inside surroundings. If you would not then be regarded by passers by as untidy or niggardly, or both, order material for the work.

DIED SUDDENLY.—Mr. John Scott an old and well-known citizen died at his residence near Park Hill on Saturday last after only a few hours illness. His remains on Monday were conveyed to Salem burying-ground for interment.

Mr. Small, and aged citizen also expired suddenly at his residence at Small's Mill, Quincy township, the same day.

"WHAT IS IT?"—This strange visitant in animal form has another witness in the person of Mr. John Hoke of Park Hill. It exhibited itself to him one dark night last week in a field at the roadside near Mr. Samuel Frantz's Mill. According to our informant the animal presented eyes about the size of a large apple and resembling balls of fire. John's nag is said to have made her best time that night over the turnpike. Enough—such a strange sight—to scare any horse.

Educational.

On yesterday afternoon I was pleased to visit our School Room in Quincy, that afternoon being the last of three quarters taught by our worthy John W. Brown, who stands second to none in the county as a teacher and a scholar. His labors have proved a success, as was practically demonstrated on the afternoon of yesterday. I was amazingly astonished to find such a great number of bright scholars, who for all time during their existence should ever hold cherished in their memories the name of J. W. B., who has labored with so much zeal during his series of terms at this Village. I dare say that the minor portion of teachers in this country (by this I do not mean to speak disrespectfully of other teachers. I merely want to show the advance they have made in education) would be able to solve such difficult problems as were there solved yesterday. The declamations, compositions, dialogues, &c., were elegant (some a little sidesplitting like) and extremely interesting. Almost any one would have supposed that gray hairs were their author and that no such intellects could ever exist in heads of children of so few summers. The days of foginess and know-nothingism, are among those of the have-beens. They did have their day, but thanks be to our learned teachers wherever they be for the out-rooting of ignorance and the upbuilding of knowledge. 'Tis an old adage, that we live in an age of progression, and we surely feel that the people of Quincy have reaped the benefit of the adage. During the last few years we have been paying such wages for teachers as will induce the rising generation to make themselves fit subjects to teach those yet unborn which they have obtained by attention to their studies and having as tutors men and women of knowledge. I therefore feel that it is the duty of the School Boards to employ the best teachers of the land at such wages as will secure their services (be that what it will) even if it would treble our present taxes. Only too many of us I am afraid have been made to feel the want of a more thorough education. We should view the matter as suicidal to our children's interests, which could be otherwise done by not grasping so tightly the Almighty dollar.

We had at the close of the afternoon several very elegant addresses by Mr. Brown and Jno. Hayman. The latter is a member of the School Board, all of which added very much to the afternoon's entertainment. A great many fathers and mothers of pupils were present as well as other visitors from our Village, which tended to make the afternoon still more pleasant and profitable.

A CITIZEN.

A WOMAN MURDERED.—The Pittsburg Commercial says: The vicinity of Johnstown, Cambria county, is at present startled by the discovery of one of the most fiendish murders that has been committed in this State for years. The body that of a female, was first seen on Friday morning by John Shriver a resident of Johnstown, lying on the side of a mountain, on the lands of the Cambria Iron Company. He, it appears in the evidence had been out fox hunting, when one of the dogs he had with him got upon the track of a man in the snow. The dog followed it and Mr. Shriver continuing in the course pursued by the dog came to the dead body of a woman, evidently about 45 years old. It was some distance from the place to the nearest house, and Mr. Shriver at once proceeded to alarm the people. During his absence from the body, some person, yet unknown, covered it with brushwood and leaves and set them on fire. When Mr. Shriver and some persons to whom he had communicated his discovery, returned to the spot the fire was still smouldering.

Mr. J. A. Harrold, the coroner of Cambria county, was notified of the finding of the body, and empaneled a jury for the purpose of holding an inquest. Near where the remains were found there was picked up a tuft of bloody hair, a pair of spectacles, two combs, a white handkerchief, and a full set of artificial teeth. These articles are now in possession of the coroner.

The coroner cut from the victims' neck a piece of cord which was sunk into the flesh.

LATER.—From information obtained at the inquest, it appears that the murdered woman was a Mrs. Moore, and her husband, Michael Moore, is now in custody on the charge of committing the murder.

TO OUR PATRONS.—In addition to our usual expenses during last year this office incurred a heavy indebtedness in the procurement of a new press and material, the bulk of which indebtedness falls upon us next spring, and the object of our present writing is to bring this fact clearly before patrons in arrears, either to large or small amounts. For the outlay we ask nothing but prompt payment of what is due, the subscription and advertising rates remaining the same as before the enlargement. We therefore intend this as an earnest appeal for payment on the part of all in arrears. It would be difficult for us in the midst of a throng season to draw off the accounts of individual subscribers living in distant parts of the country. They have an idea as to the amount of their indebtedness and can enclose the money, a check or P. O. order through the mail; where doubts exist as to the amount they can give us the benefit of them by sending enough, which will be properly placed to their credit. This notice, or their failure to comply with it, will tell us who our "dead heads" are.

ANTI-SWEARING ASSOCIATION.—The Miners' Journal says: An anti-swearing association has been formed at Harrisburg by the crew of the shifting engine Richmond, of the Philadelphia and Reading railroad. By the rules of the association, a fine of ten cents is inflicted for every oath uttered by a member. We should like to see moral courage enough displayed for the formation of several such societies in this borough. In Newport, Kentucky, swearing on the streets costs a dollar an oath. We believe there is a law in this State imposing a similar fine for this offence, but who ever heard of it being enforced? And yet, why should it not be? Why should our statute books be filled with laws which are thus permitted to become null and void. Far better repeal than allow them to be thus repeatedly and shamefully violated.

It may only be a conceit of ours, but we are daily impressed with the idea that there is more shameless, open profanity and blasphemy in our streets and places of business than ever before, at least within our recollection. It will not, perhaps, exercise any influence upon the minds of the profane to say what we propose doing in the next sentence, but with the hope that it will possibly induce some young man to pause and reflect for a moment, we will pen it: Profanity, whether on old or young lips, is an abomination in the sight of God. It has neither sense nor reason for its indulgence. It is the indelible evidence of a depraved and vulgar mind, and no one who aspires to the title of a gentleman has a right to inflict it upon others.

WALTER & BONBRAKE.

HIGHLY IMPORTANT.—The following are a few of the reasons for the great popularity of the Wilson Shuttle Sewing Machine.

- 1st—Simplicity, has the fewest parts, the least friction, the least wear, runs lightest, and is the easiest learned.
2d—Durability, has steel bearings for needle-bar and every wearing part either case-hardened or springtempered.
3d—Does a larger range of work, than any other machine.
4th—Has self-adjusting shuttle tension.
5th—Price \$15 to \$25 less than any other first class machine. Its manufacturers and agents, on account of their enormous sales, are content with a moderate profit, while others selling comparatively few machines exact an exorbitant profit from each purchaser.
Lastly, nobody is asked to believe these assertions without investigation, or to buy a Wilson Underfeed unless satisfied that it is the BEST machine in the market.
