armer than a First-class Grain Thresher and Cleaner—for none pays him so well and so

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with

FIRST-CLASS WORKMEN & MATERIAL this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any exist-ing Machine. This is admitted by all hon-est competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning rable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use-and besides all that is sold for less money and besides all that is sold for less moley according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz:—From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices required from \$100 to \$200 mith that prices ranging from \$190 to \$360, without power. We also make the latest impproved triple-geared Horse Powers, suitable for each size machine, ranging from \$90 to \$135, and all fully and fairly warranted. Dr. P. FAHRNEY'S Celebrated Blood Cleanser or Panacea.

As a medicine for children, the Panacea is, in every may, calculated to take the place of the endles variety of drugs which are annually sold for that purpose, and which are of en very injurious. A medicine-which possesses the qualities of a calearite as well as a mild afterative, and which is exable of arresting disea e without the least injury to the child, is of incalculable value to every mother. As a calearite, it is very escelve, yet it does not, if given in proper quantities, cause nancea or distress to the stomator be bowels. It is very pleasant to the taste, which is a very important feature as a medicine for children. As a presenties of disease it is unprecedented, as it acts directly upon the digestive organs and the blood. In all scroftolics disease, it is the most elective medicine ever o. ered to the public; and, if given registry and persovering; those cruptive diseases so common to children may be entirely stadicated.
