Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected prepara-tion for restoring GRAY OR FADED Hain to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baidness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it

As our Renewer in many cases, requires too long a time, and too and the care, to restore gray or faded Whakers, we have prepared this ave, in one preparation, which will ietly and effectually accomplish this result. It is easily applied, and produces a color which will neather rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL & CO.

NASHUA, N.H. Aug. 24-4y.

The merits of this machine consists in part, in the attachment of curved knives to the arms of the cutting-wheel, the shearing cut across the mouth-piece, the great power and directness of the blow, by which treble the volume of material is cut, with less power than is required by any other machine; those combined with its durability and simplicity of construction, command public attention. No implement more important to the farmer than a First-class Grain Thresher and Cleaner-for none pays him so well and so

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the

its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honmarket. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled ih machinery—more durable—threshing as much and yet cleaning according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz:—From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impproved triple-geared Horse Powers, suitable for each size machine, ranging from \$90 to \$135, and all fully and fairly warranted.
