HALL'S

VEGETABLE SQUILL

HAIR

RENEWER.

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and it is the only reliable and perfected preparation for restoring Gray or Faded Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair-Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the Best Preparation for its intended purposes."

Sold by all Druggists and Dealers in Medicines. Price One Dollar.

Buckingham's Dye.

FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation, which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL & CO., NASHUA, N.H.

Aug. 24—1st.

PATENTED SEPT. 21 1869

RYLAND'S PAT. CUTTER.

FOR CUTTING HAIR, STRAW, ROPE, &c.

The merits of this machine consist in the attachment of curved knives to the arms of the cutting-wheel, the shearing cut across the mouth-piece, the great power and directness of the blow, which treble the volume of material is cut, with less power than is required by any other machine; those combined with its durability and simplicity of construction, command public attention. Nothing liable to get out of order, but what a boy could remedy with a pocket wrench.

Persons in want of machines of this description will do well by calling upon or addressing the undersigned. Good and responsible agents wanted to sell machines and territory.

The above Machine is now on exhibition at the Waynesboro' Manufacturing Company's Office. Persons interested should call and examine it, for it is what every farmer should have.

HOW IS THIS FOR HIGH.

JOHN FORD in returning thanks to the public for their patronage announces that he intends removing his shop to the Basement of Walker's Building, (and not leaving it as the belief of many, where he is carrying on the BOOT AND SHOE BUSINESS as usual.

All persons knowing themselves indebted to me will please call and settle their accounts immediately, for I pay cash for my stock, and must have my money. Don't want to see the face of that unwelcome visitor, the Deputy from "Fort Fletcher" prowling about my shop seeking whom he may devour, &c.

Customers will therefore find me at the Basement referred to after the first of April next.

GEISER'S

PATENT SELF-REGULATING

GRAIN SEPARATOR

CLEANER, BAGGER AND POWERS!

No implement more important to the farmer than a First-class Grain Thresher and Cleaner—for none pays him so well and so speedily.

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with FIRST-CLASS WORKMANSHIP AND MATERIAL.

This Machine just stands high above all of its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honest competitors. Indeed, it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use—and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz:—From a 2 Horse Railway or 3 Horse Lever Power, to a 4 Horse Lever Power, with prices ranging from \$150 to \$360, without power. We also make the latest improved triple-gear Horse Powers, suitable for each size machine, ranging from \$80 to \$135, sold all fully and fairly warranted. For further information send for circular and price list.
