Emigration from Germany to the United States bids fair this year to be more extensive than ever before.

President Finney, of Oberlin College, has started out on a lecturing tour against Free Masonry, and says he will not stop speaking until every Masonic lodge in the country has disbanded.

Mrs. Sarah Colt, who established the first Sunday-school in the United States in 1793, for the instruction of factory children in reading and writing, died in Patterson, N. J., on Saturday.

In Pike, Tioga and Wayne counties, Pa. vast tracts of lumber land has Saturday. been swept by the angry flames, and in numerous instances inmates of cabins had great difficulty in escaping with there lives. The total losses by the fires are estimated at one million of dollars.

On Monday night the large granite building on Dock street, Phila., form orly used by the Post-office Department and owned by Doctor Jayne, was destroyed by fire, The building was occupied by several firms, and the entire loss | ing to the heirs of Abran. Barr, dec'd. will exceed \$200,000.

One paper says Greely is the "destroying angel of carpetbaggers," and another says that though "chronic democracy" may find the nomination a bitter pill, "the only way left is to shut their eyes and bolt it." In a vote on the South Side train the other day every passenger was for Greely except one.

The tariff and Tax bill which was passed by the House of Representatives on Monday, says the Baltimore American, covers an annual reduction of about forty millions of dollars, fourteen millions of which are stricken from internal taxation and the remainder from the customs. The duties on manufactures of cotton, wool, iron, India rubber, gutta percha and straw are cut down ten per cent. from the present rates. As this is very much like the bill which the Senate originated, and the House refused to consider, it will probably get through the former body without much amendment, and in its present shape is pretty nearly all we shall get of legislation on the subject from this Congress.

The United States is likely to receive a large immigration from Russia during this or the ensuing year. The two male associates had gained access to the corpse, and were biting and gnawing at the fleshy part of the body with all the eagerness of the native cannibalism! The female stood aloof in one corner, and by sign, word and gesture, was entreating them to desist. It is understood that this woman is a convert to the teachings of English missionaries, and looks with abhorrence upon all the unchristian habits of her tribe.

Mr. Smith promptly interfered, and the two miserable beings went sullenly taken to their apartment. The remains were then buried at York.

H. & P. R. R.-D. V. Ahl, Esq., the efficient and popular President of this road, paid our town a visit on Tuesday ast. He was accompanied by Mr. Platt geologist, who is engaged in making a geological survey along South . Yountain, with the object of determining, as near as possible, the quantity and quality of the various ore mines along the route of said road. So far as his surveys have been extended, he expresses himself as berieving the iron resources inexhaustible. We anticipate a glowing report of his labors. Mr. Ahl is full of confidence that every serious obstacle has been successfully combatted, and that the road will be completed so far as Cleversburg at an early day. Mr. Rhiel, one of the contractors, has advertised for 500 additional hands. This looks like business, and does not appear very much like bankraptey. Do you think it does, Mr. Waynesboro Record?
