

Waynesboro Village Record.

Thursday, June 27, '72.

The Small-pox have broken out at Dickinson College, Carlisle.

Brigham Young's family now numbers exactly one hundred besides himself—32 wives, 28 boys and 40 girls.

Since Jan'y 1st 142,051 immigrants have landed in New York—49,195 over the same period last year.

The only Democratic State Convention which has yet passed resolutions opposed to the endorsement of Greeley is Delaware.

After John Fagan had been hanged in Kentucky last week, it was discovered that he was innocent of the crime charged against him.

The flood which occurred near Prague on the 26th ult., was attended with fearful results, entire villages having been swept away and upwards of 700 persons drowned.

A farmer was arrested at Athensville, Pa., and fined ten dollars for cutting off the toes of chickens, to prevent them from scratching.

The North Carolina Roanoke News says: Mr. Mitchell Curran, of Granville county, sold his crop of tobacco a few days ago for \$3,000 cash. This tobacco was raised on less than eight acres of land, and was made by two of his sons.

The Democratic Convention which assembles in Baltimore, on the 9th of July will endorse Greeley's nomination at Cincinnati. The action of the Democratic State Conventions thus far held warrant this conclusion.

The public debt was reduced during the month of May upwards of Four Millions of Dollars, which makes the grand total of reduction since the 4th of March, 1869, more than three hundred and thirty-one millions of dollars.

The trial of Moore, in Ebensburg, Cambria co., charged with wife murder, occupied eight days. The charge of Judge Dean was lengthy and able. The jury was only out three quarters of an hour when they returned a verdict of murder in the first degree. The counsel for Moore filed reasons in arrest of judgment, and for a new trial, which will be argued at September term.

The new Postal bill, which became a law just before the session closed, makes some changes in reference to postal regulations which are of general interest. The most important is the authorization of one cent postal cards for correspondence, or for printed circulars, similar to those which were introduced in Great Britain nearly two years ago, and which are now in use in nearly all European countries.

The faces of the card will bear a one cent stamp, and will be provided with lines for the address, and the back will be ruled for the letters. The face of the card and stamp will be only one cent. The postage on circulars, newspapers, and other transient printed matter, which under the old law was two cents for every four ounces or less, is now one cent for every two ounces or less. Small circulars, which formerly cost two cents to mail, can now be sent for one cent, an important reduction to business men who use the mails largely to advertise their business. The change is now in force, the law being immediate in its effects.

A New York Herald special, dated Geneva, June 21, says: The question of the indirect claims has been definitely settled, and in a manner unexpected by any of the members of the Court, the American agent and counsel having been instructed by their Government to declare that the United States did not seek a money award for the indirect losses, but only desired the settlement of a principle.

Lord Tenterden, on the part of his Government, called the attention of the Court to the seventh article of the Treaty which gives the Arbitrators only authority to consider claims in relation to money awards, and submitted that since the United States declared that they did not seek a money award for these classes of claims they could not be properly entertained by the Court.

The American counsel thereupon demanding judgment on this issue by the Court.

The Court took time for its decision, but it is known to have decided against the admissibility of the indirect claims. This judgment will be delivered, it is said when the Court again meets, and is reported to be acceptable to both Governments. During the recess Earl Granville will negotiate with Secretary Fish on the subject.

A. S. Abell, editor and proprietor of the Baltimore Sun, is stated to have amassed a fortune of 10,000,000. He commenced life as a journeyman printer, forty years ago, and is reputed to be the wealthiest man in Baltimore.

The case of Joseph Davis who was recently tried at Westminster, Md. for the murder of Abria Lynn it is thought probable will be removed to another county for a second trial, public sentiment in that region being almost unanimously against the prisoner.

Local News.

SPECIAL.—We expect to overhaul our books during next week for the purpose of looking up "dead head" subscribers.—There are large numbers who have not renewed their subscriptions for a long time, ranging from five to ten years. The names of such will be dropped from our packet-book with this issue, and where the money cannot be collected by law, the names of the parties will be published three weeks with the amount of their indebtedness. That we will make our word good in this instance nothing is more sure, our life being spared.

Revival—the gardens.

The springs are nearly dry.

The potato crop will be large.

All is quiet along the "contemplated" B. R. R. L.

The public houses on the Mountain are filling with strangers.

The Frederick and Penn. Line Railway will be finished in a few weeks.

Waiting for something to "turn up" our railroad men.

Since our last issue the Tomstown "cherry train" has been regularly on time, morning and evening.

A snapping turtle weighing 26 lbs., was caught in Antietam creek, near Hagerstown, recently.

Mrs. Mary Magdalene Fox, died in Hagerstown, on the 12th inst., aged 102 years and 6 months.

Short or "dumpy" girls should not wear the hair half down their backs, should lift it up a high as possible.

During last week the weather was intensely warm, the thermometer ranging on Friday as high as 98° in the shade.

The mountain land belonging to the estate of Abria Barr, dec'd., was sold on Saturday last at an average price of \$9 per acre. Purchaser, Mr. B. F. Barr.

F. C. M. S.—The Franklin County Medical Society will hold its quarterly meeting in this place, on Tuesday next, July 2d.

The Grand Army of the Republic Encampment comes off at Gettysburg on Tuesday, Wednesday and Thursday of next week.

The freight trains as well as the passenger cars of the Western Maryland Railroad are now running regularly to Hagerstown.

The work on the Mont Alto Railroad is being pushed very rapidly. The grading will soon be done and the work of laying the rails will be begun at once.

The H. & P. R. R., it has been located as far as the Franklin county line.—Work on the road is still progressing rapidly.

Swornstedt, Baltimore check-raiser was convicted at Louisville, and sentenced to seven years in the Kentucky Penitentiary.

IMPROVEMENTS.—Several new brick buildings are now going up in our town. Among the number is one on the site of the old Nicos property, on Main street.—It is being erected by Mr. Jos. H. Crebs.

HARVEST WEEK.—In accordance with our established custom no paper will be issued from this office next week. The present is a dull season with us and all hands want one week out of fifty-two.

REJOICED.—We are truly glad that harvest is at hand, for we are desperately low in funds, and so many persons have promised to pay us "that little bill" after harvest. We hope they won't forget it.

Prof. Wm. Needling of Selinsgrove, Pa., formerly of this place, is now on a visit with his family to his friends here. Prof. N. we are pleased to learn was recently elected County Superintendent of Snyder county.

Some of our farmers have commenced harvesting. The wheat which survived the ravages of the fly is said to be well headed and more than ordinarily well filled. The yield in the county will exceed the anticipations heretofore indulged by most persons.

MAIL ROUTES.—We call attention to the advertisements of our friends, J. R. Wolfersberger and Joseph Keepers, in to-day's paper, mail contractors between Greensville and the W. M. R. R. and this place and Chambersburg. They are both clever gentlemen and are provided with comfortable conveyances.

Our neighbor Reininger, who is somewhat of an epicure, the other day dispatched a snapping turtle, which cleaned nine pounds, and from which he took seventy-five eggs. He showed us several about the size of a partridge egg with thin shell. He thinks of having them hatched on the shares for poultry yard pets.

NEW DWELLING.—Our clever farmer friend, Mr. John Eshelman, is now erecting a fine two-story brick dwelling house on his farm near Mr. John Dayhoff's machine shops, 2 1/2 miles South of our town, on the turnpike leading to Leeterville. The situation is a delightful one, overlooking the Antietam.

MONEY STOLEN.—The Valley Echo of the 20th inst., has the following: "One night last week Mr. Daniel S. Barnhart, of Middleburg, was robbed of \$520.00. The thief effected an entrance into his house by cutting a window pane, removing the nail and hoisting the window. Mr. Barnhart had the money in his pantaloons pocket which hung in an adjoining room. The money was extracted and the pocket book left lying on the floor. Mr. Barnhart supposes the robbery was committed by some one who knew he had the money, as but a few days before he had received \$500 from the School Board for the purpose of building a schoolhouse. The balance of the sum was his own individual money.

FORTUNE SMILING.—The Vallejo (Cal.) Chronicle of June 8th says:—Our young friend, Chas. F. Speck, has accepted a situation as book-keeper in Gerke's Wine Depot in San Francisco, and proposes to enter upon its responsible duties next week. Mr. Speck is well known in this vicinity having been connected with the Recorder as its local reporter, and more lately with our morning contemporary in the like capacity. He is a young gentleman of pleasant ways and agreeable manners, of strict integrity and wise demeanor, and deserves to find success wherever he may cast his fortunes. He proposes to bid Vallejo adieu on Monday next.

THE ATLANTUS TREE.—The season for this beautiful, but pernicious ornamental tree to bloom is here, and in the vicinity of where they grow the air is loaded with a most unpleasant odor. We are told that its odor not only spreads pestilential fumes through the atmosphere, but the blossoms deposit the elements of poison in cisterns near them, which may lead to fatal consequences. In many places the cultivation of the atlantus tree within the municipal limits has been prevented by ordinances, and their extermination decreed, mainly for sanitary reasons. We would be glad to see the last one uprooted into stove-wood.

CHURCH DIFFICULTY.—The Committee from Mercesburg Church of the Reformed Church, which met in this place on Tuesday last week, (referred to in our last issue,) for the purpose of effecting a reconciliation between the Pastor, Rev. H. H. W. Hilsbman, and several members of the church, adjourned on Wednesday evening, which was their third meeting. We understand Mr. Hilsbman made a satisfactory defence to the Committee in opposition to the complaints against him reported to the Classis, that the parties withdrew the charges, and that the difficulty was satisfactorily adjusted.

PERSONAL.—W. H. Lambert, Esq., of Philadelphia, State agent for the Mutual Life Insurance Company of New York, one of the oldest and most reliable Companies of the kind in the United States, (for which our friend Reid is local agent) spent a couple of days in this place last week. Than Mr. L. we have rarely met with a more social or agreeable gentleman, and one better "booked up" on the important subject of life insurance.

NATIONAL RAILROAD.—A correspondent to the Gettysburg Star says:—The proposed National Road is intended to be built from the Hudson river, opposite New York, to Philadelphia, thence to Columbia, York and Gettysburg, and then over the Old Tape Worm to Monterey, Waynesboro, and Greenastle, to connect with the Baltimore and Ohio road at Hagerstown. All the necessary legislation has been secured, and a portion will be built at once—between Philadelphia and New York.

WIRELESS RAIN.—On Sunday night last we had a fine rain and on Monday night the most copious and delightful showers, thoroughly soaking the parched earth. These rains could not have been sent at a more opportune time to benefit pasture fields, corn, potatoes, &c. They insure at least a fine potatoe crop. Our cisterns have also been once more replenished, which must be particularly gratifying to "town mothers."

Some Union soldier of the late war has sent ten dollars to the U. S. Treasury, to be added to the conscience fund, because he appropriated some sugar and coffee and a pair of socks, while guarding provisions in East Tennessee. He says: "I must get ready for the Judgment Day, and although this act is not very wrong, it is the violation of the honor of a soldier. I want no shadow on my soul when I come to the Judgment of God."

We commend the example of this man to the shoddyites who were not soldiers, who built great buildings and purchased fine estates, and are to-day clothed in purple and fine linen, from their thefts. Particularly do we commend a careful reading of the last sentence.

THE "LIBERALS" DIVIDED.—On Wednesday evening of last week a convention of politicians dissatisfied with the Cincinnati nominations, including Schurz, Trumbull and ex-Gov. Cox, assembled in New York, and nominated as free trade candidates for President and Vice President, Wm. S. Groesbeck of Ohio, and Frederick Law Olmstead, of New York.

The R. R. cut at Mt. Holly, on the H. & P. R. R., is 2170 feet in length, 28 1/2 feet at the deepest point, and contains about 45,000 cubic yards of earth. This is the heaviest cut along the entire line.

Some idea of the magnitude of the business of life insurance in this country can be obtained from the following figures taken from the books of the Mutual Life Insurance Company of New York:—From February 1, 1842, the date when it commenced business, to January 1, 1872, this company had received in premiums, \$80,028,750.52, in interest on its investments, \$17,522,706.69; total receipts, \$98,151,457.21. During the same time it returned to its policy holders, in death claims paid, \$17,138,415.76; in cash dividends, \$25,111,015, and its cash assets January 1, 1872, were \$51,577,997.

The finishing touches were given to the new school building in this place, one day last week. The necessary furniture will be provided in time for the fall school commencement. If the school Board are fortunate in the selection of teachers, the Principal especially, the investment will doubtless prove one of permanent benefits to our town and neighborhood.

Auction.—It will be seen by reference to the business locals in this issue that Messrs Trimmer & Fogler, trustees of Jacob B. Price, will open an Auction at their store room to-morrow (Friday) evening, which will be continued during Saturday afternoon and evening. They have choice goods which no doubt will be knocked down much under value.

A SMASH.—We understand an accident occurred on the Penna. Railroad on Monday by which several cars were demolished, and with them six or seven separators belonging to the Geiser Manufacturing Company of this place. They had been consigned to Richmond, Va.

Sleasman & Frantz, who run a first-class confectionary in this place, will accept our thanks for a quantity of very choice ice cream.

The Tariff and Tax bill, as it finally passed, goes into effect on the first of August next. As it will stand, it reduces the duties on salt fifty per cent, on coal forty per cent, on lead twenty-five per cent, on iron and copper and other metals, ten per cent, on wools and woolen manufactures, ten per cent; it frees from duty hides and materials for ship building, and a large number of articles used in manufactures, especially drugs, chemicals and dyes; it revises and simplifies the internal revenue taxes; it repeals some seven and one-half millions of stamp taxes; it abolishes tobacco warehouses and establishes a uniform tax of twenty cents per pound; it repeals the allowance of moieties to informers, and it reduces the number of Collectors and Assessors to about 275. The total reduction of taxation by the bill is estimated to be \$53,000,000, and it makes the total reduction within the last two years, one hundred and forty millions (\$140,000,000).

The Trenton (Tenn.) News hears that five persons have died in Skulloona, Gibson county, in consequence of eating fish caught in a river into which caterpillars had fallen and been swallowed by the fish. Also that an infant while crawling on the floor picked up a caterpillar, and before its mother could prevent it swallowed it, from which the child died in less than two hours. The family, to test whether the caterpillars were poisonous, put one in some dough and gave it to a dog, which also died in a few hours.

The June report of the Agricultural Department indicates a yield of about two hundred and twenty millions of bushels of wheat this year, ten millions less than in 1871. The average of the crop is better than expected.
