GEISER'S PATENT SELF-REGULATIN GRAIN SEPARATOR

No implement more important to th armer than a First-class Grain Thresher and Cleaner-for none pays him so well and so

speedily.

The above cut shows the only Geiser Ma chine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with FIRST-CLASS WORKMEN & MATERIAL

this Machine just stands high above all of its class. 'As a thresher it is equal to the best, as a cleaner it is superior to any exist-ing Machine. This is admitted by all hon-est competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its supe rinarine, settles the question of its superiority as a cleaner over all others. 'Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in tise-and besides' all that is sold for less money and besides all that is sold for less money according to capacity. These facts here further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply fau wants of all, we now make 4 sizes, viz:

From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impproved triple-geared Horse Powers, suitable for each size machine, ranging from \$90 to \$135, and all fully and fairly warranted. Ayer's Sarsaparilla.

The reputation this extellent medicine enjoys,
is derived from its cures,
many of which are truly
marvellous. Inveteraticases of Scrothlous disease, where the system

scrofulous affections and disorders, which wereng gravated by the scrofulous contamination until hey were painfully afflicting, have been radically used to such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and offelt tenant of the organism undermines the contitution, and invites the attack of enfeebling or fund diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, or some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a biotip of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afficted with the following complaints generally find immediate relief, and, at length, cure, by tho use of this Sarsaparilla is advisable, even when no setting structures are considered and in the more concluded dorms, as Dyspepsia, Dropsy, Heavet Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous ascertions of the muscular and nervous systems.
