BEDFORD, PA., Sept. 19, 1872.

Bedford, PA., Sept. 19, 18/2.

John Stewart, Esq., Chambersburg, Pa.

Dear Sir. I am informed by a gentleman who was present at a political meeting at Mercersburg, the other day, at which you delivered an address, that in the course of your remarks you declared that I am "an open and avowed Free Trader," and that you had authority for this statement from my own lips. Believing that you misunderstand my posits on on the tariff question, and that you are too fair-minded a man to and that you are too fair-minded a man to misrepresent a political opponent with ma-lice prepense, I respectfully beg leave to correct your statement.

I presume you referred to the course of

the Harrisburg Patriot, some time since, on the subject of the tariff, or something that may have appeared in print attributed to my authorship. However this may be, I ask you and all others who regard the tariff question as an issue in this canvass, to judge me by my record in Congress, rather judge me by my record in Congress, rather than by newspaper articles or words uttered in the heat of a political contest. The record shows that I voted against reducing the duty on pig iron, and that on every proposition looking in that direction I acted with the remainder of the Pennsylvania delegation. On all articles of home manufacture, I invariably voted with the majority of the delegation, led, on the tariff question by Messrs Randall and Kelly. I did ity of the delegation, led, on the tariff question, by Messrs. Randall and Kelly. I did so, not because I believe that "protection" is panacea for all the ills attending the manufacturing interests, but because I knew the sentiment of the people of the district to be favorable to protective duties on articles of home production, and as one who believes in the democratic theory of government. home production, and as one who believes in the democratic theory of government, I felt bound faithfully to represent that sentiment. I voted for no measure which even squinted at "Free Trade," unless the resolution passed by the Honse of Representatives in the Spring of 1871, placing salt, coal, tea and coffee on the free list, for which many protectionists voted, may be so regarded. In the re-adjustment of the tariff in May and June last, I voted for 75 cents per ton on coal, though President cents per ton on coal, though President Grant in his last annual message recom-mended a low duty on that article, and Mr. Secretary Boutwell suggested in his report, a reduction to 50 cents per iton. By this record I ask to be judged, and if you, and those who think with you on the tariff question, choose to condemn me, you and they also must condemn W. D. Kelley, Uthey also must condemn W. B. Kelley, U-lesses Mercur, and, in fact the whole Pennsylvania delegation in Congress, Republicans as well as Democrats. I shall do in the future as I have done in the past, and as long as it may be my privilege to represent the people of the Sixteenth Congress district in the national legislature, I shall or describe reflect their will and to legis. endeavor to reflect their will and to legis-late for their interests, on tariff as well as on every other public question. With much respect I am Sept 26-2t

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the

past 18 years, and now with FIRST-CLASS WORKMEN & MATERIAL this Machine just stands high above all of its class. As a thresher it is equal to the best, as a cleaner it is superior to any exist-ing Machine. This is admitted by all honest competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any othbushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort PIANOS, ORGANS,

CHEAP GOODS FOR THE FOLKS OF WATNESBORO'. JUST home from the great New York Auction House on Monday evening. On Tuesday pile after pile of purchases were thrown down at my door, and customers came along and stood and looked and starded at the switch and entitle. ed at the variety and quantity. But when the tickets were stuck on them they stood ih utter amazement. I thought to myself they trink I did not pay for these goodsand no wonder for the prices are frightfully low. No end to the "Job Lots" on hand— I don't believe in long palavers in circulars but will only quote a few to give customers

"going up" taking any money at all to keep going a few months. The excitement in the the Gold room among the Bulls and Bears is nothing compared with that in the

an idea of the merchantile panic now going on in New York. One house after another
