CLEANER. BAGGER AND POWERS

No implement more important to the

farmer than a Finst-class Grain Thresher and Cleaner—for none pays him so well and so

speedily.

The above cut shows the only Geiser Ma

chine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the

past 18 years, and now with

FIRST-CLASS WORKMEN & MATERIAL

this Machine just stands high above all of

its class. As a thresher it is equal to the best, as a cleaner it is superior to any exist-

ing Machine. This is admitted by all hon-

est competitors. Indeed it is the only Ma chine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a

bushel more than grain direct from any other machine, settles the question of its supe-

riority as a cleaner over all others. Impar

tial judges at all the State and County Fairs

that judges at all the state and county rairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning at the payon and present factors.

better-with less power and more comfort

to hands than any other machine in use— and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of pur-

price list.
