Celebrated

Blood Cleanser or Panacea.

As a medicine for children, the Panacca is, in every way, calculated to take the place of the endless variety of drugs which are annually sold for that purpose, and which are often very injurious. A medicine which possesses the qualities of a cathartic as well as a mind alterative, and which is capable of arrestlar disease without the least injury to the child, is of in-alculable value to every mother. As a cathartic it is very encetive, yet it does not, if given in proper quantities, can e nause or distress to the stomethor bowds. It is very pleasant to the taste, which is a very important feature as a medicine for children. There are always more or less obstructions of the liver, a weakness and irritude state of the stomach, and great torpor of the Lowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walgkin's Vinkgar Bitters, at they will speedily remove the dark-colored visced matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

FIRST AND ONLY SOLUTION over made in one mixture of ALL THE TWELVE valuable active principles of the well known curative agent, PINE TREE TAR. This all-powerful vegetable preparation expela from the lungs and air passages the mucus and muco-pus produced by pulmonary inflammation, heals the irritated membranes, and renountes every organ which utilizes the breath of life. It contains no stupefying poison, and is in all respects a healthful medicine. The rapidity and certainty with which it

is artonishing. Its effects go deeper than the mero symptoms of pulmonary disease and discharge the cause from the system. It relieves the lugs, chestand throat from the burdens which opiness them, thus arresting Consumption and Bronchitis in the

THOUSANDS at the present date, and yet the preparation is only in the infancy of its usualness. The great detect of all Expectorants introduced is that they are simply expulsory. Hence they are useless; for, unless the causes of the serial secretions which are coughed up are removed and the ruptured, inflamed or materated surfaces healed and restored to their natural tone, a cure is impossible.

Plu, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is excretely an individual upon the face of the earth whose body is exempt from the presence of worms.—It is not upon the healthy elements of the body that worms exist, but unon the diseased humors and sliny deposits that breed these living monsters of disease. No system of Medicine, no versifiages, no anthelumitics, will free the system from worms like these Bitters. for coughs, colds, influenza, bronchial difficulties, catarrh, asthma, discases of the heart, liver, stomach and bowels, all female weaknesses, diseases of the skin, inflammation of the lungs, and aid-discretes of a pulmonary nature, they have never been equalled.
