FIRST-CLASS WORKMEN & MATERIAL this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any exist-ing Machine. This is admitted by all honest competitors. Indeed it is the only Maest competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. riority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more sim-ple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort to—hands-than-any—other machine in use and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of pur-chasers, some of whom have had them in use for the last 18 years. To supply tou wants of all, we now make 4 sizes, viz:— From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. Dr. E. F. GARVIN'S SOLUTION AND COMPOUND ELIXIR

FIRST AND ONLY SOLUTION ever made in one mixture of ALL THE TWELVE valuable active principles of the well known curative agent, PINE TREE TAR. SPECIFIC FOR CONSUMPTION! This all-powerful vegetable preparation expels from the lungs and air passages the muons and muce-pus produced by pulmonary inflammation, heals the irritated membranes, and removates every organ which utilizes the breath of life. It contains no stuperjuing poison, and is in all respects a healthful medicine. The rapidity and certainty with which it

ANNIHILATES A COUGH is astonishing. Its effects go deeper than the more symptoms of pulmonary disease and discharge the cause from the system. It relieves the lurks, chest and theat from the burdens which oppress them, thus arresting Consumption and Brouchttis to the germ before they reach the more dangerous stages. The empedated sufferer

in which it has been administered with entire and cess as a remedy for every variety of maladies which affect the respiratory functions, amount to THOUSANDS at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Expectorants introduced is that they are simply expulsory. Hence they are useless; for unless the causes of the acid secretions which are coughed up are removed, and the ruptured, inflamed or materacel surfaces healed and restored to their natural tone, a cure is impossible.
