GEISER'S

PATENT SELF-REGULATIN GRAIN SEPARATOR

CLEANER, BAGGER AND POWERS

No implement more important to the farmer than a First-class Grain Thresher and Cleaner-for none pays him so well and so

speedily.

The above cut shows the only Geiser Maof the old inventors themselves, with all the additional improvements made during the - past-18 years, and now with

FIRST-CLASS WORKMEN & MATERIAI this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honest competitors. Indeed it is the cally Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a this machine commands from 2 to 3 cents : bushel more than grain direct from any other machine, settles the question of its supe ority as a cleaner over all others. Imparriority as a cleaner over an others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshings machinery—thereby rable-threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply tou wants of all, we now make 4 sizes, viz:—From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impproved triple-geared Horse Powers, suitable for each size machine, ranging from \$90 to \$135, and all fully and furly warranted. For further information send for circular and price list.
