

Waynesboro' Village Record.

Thursday, April 10, 1873.

Prepayment on newspapers and periodicals on and after July 1 is not compulsory, but optional, as heretofore.

Rhode Island elected a Republican governor and other State officers by 5000 majority, last week.

Connecticut voted for Governor, etc., on the fifth inst. The State is conceded to the Democrats by a small majority.

Gen. Fremont has been condemned to five years imprisonment by a court in Paris for not appearing at its summons and testifying in reference to certain bonds issued by the Memphis & El Paso railroad and sold in France.

An awful disaster at sea occurred on Tuesday April 1. The ship Atlantic, from Liverpool, England, for New York, having run short of coal attempted to make Halifax, Nova Scotia, and in so doing ran on the rocks and sank. She had on board about 1000 persons, of whom 700 are thought to have been lost.

On Monday a week, Prof. Danaldson made a balloon ascension at Reading, in which he repeated some of his daring feats in mid air. There was no basket, and the aeronaut started holding by his left hand to a trapeze bar, suspended by two ropes from the balloon.

The wretched ruffian Nixon, who shot down a man in the streets of New York without provocation, has shown himself to be a miserable coward since his conviction. Presuming on the impunity which murderers have heretofore enjoyed in New York, and relying upon his able counsel, through whose dexterous dust throwing many a red-headed villain has escaped the gallows, this rowdy maintained a bold and defiant front until the foreman of the jury before which he was tried pronounced the awful words, "Guilty of murder in the first degree."

Dr. R. T. Trail, in the Philadelphia Star, is a very cheerful prophet. He says that we are approaching the climax of a pestilential period. From 1880 to 1885 the planets of Jupiter, Saturn, Uranus and Neptune will approach the earth nearer than they have been for 1800 yrs.

Geo. Brown, arrested about three weeks since, at the house of Mr. V. B. Gilbert, on the mountain, for horse stealing, escaped from the Bedford Jail on the night of the 1st inst. with two other prisoners. A reward of \$100 is offered for their arrest.

For THE WEST.—On Wednesday evening last an immense crowd of persons assembled at the Washington County Depot to see the "emigrants" leave. A considerable number of persons took passage but we are happy to say that very few from this town went, although it was noised about by parties interested that sixty or seventy were going from Hagerstown.

Local News.

Farmers are busy.

See advt. of C. Ruths.

Frick & Co. are over-run with orders for Engines, Boilers, etc.

Miss Issabella Hughes, an estimable lady, died in Hagerstown on Friday.

Dr. John M. Ripple has removed his office to his new dwelling house on West Main Street.

Cases of sudden death by excessive rope jumping are being recorded by our exchanges.

See advt. of Christian Stouffer, successor to Weagly & Kurtz in the butchering business.

Messrs Amberson, Benedict & Co. are now receiving their first installment of new spring and summer goods. Advt. next week.

Mr. Geo. Foltz of the vicinity of Chambersburg on the 29th ult. almost severed the three first fingers on the left hand in a cutting box. Mr. F. was formerly of this vicinity.

It will be seen by reference to his advertisement in this issue that C. W. Good, merchant of Quincy, is now opening out a full line of new goods for the spring trade.

It is claimed that all hotel or restaurant licenses granted prior to the first of January, 1873, enables the applicants to sell until the time for which said license was granted shall have expired.

A pocket ledger was lost on Monday between this place and the residence of Thos. J. Cunningham. The finder will be suitably rewarded by returning it to Mr. C.

A night express train has been put upon the Cumberland Valley Railroad quite recently, which must prove a great public convenience. The train East leaves Hagerstown at 6:53, P. M.

Franklin Summers of the firm of D. Summers & Son, of Quincy, is now East making spring purchases of dry goods, etc. In a day or two the firm will open out a new stock of goods. See advt.

We call special attention to the advertisement of Jacob Adams, proprietor of the long established Coach Factory on Church Street, in this Borough. At present Mr. A. has a fine selection of vehicles on hand. Give him a call.

Special thanks to patrons who did not forget our appeals for money this spring.

Those who were not so considerate will have their accounts presented for payment in the course of the next week.

Mr. Luther Fisher expired at his residence near this place on Monday morning of pneumonia, after about one week's illness. The deceased was a young man and leaves a wife and three or four small children.

Some of our more cleanly disposed citizens on Main street we notice have already removed the winter accumulation of rubbish. Others will not be long behind in the cleaning up process, when things will present a more healthful and inviting appearance.

Geo. Brown, arrested about three weeks since, at the house of Mr. V. B. Gilbert, on the mountain, for horse stealing, escaped from the Bedford Jail on the night of the 1st inst. with two other prisoners. A reward of \$100 is offered for their arrest.

S. S. ANNIVERSARY.—The Presbyterian Sunday School will hold an anniversary service, next Sunday evening. Brief addresses and reports will be made, some beautiful pieces sung, a part of the shorter Catechism recited &c. A cordial invitation to attend the exercises is given to all.

The Sunday School in connection with the "Church of the Brethren" will be reopened, in the Brethren meeting-house, (Dunker) on Church street, Sunday next, at half past 1 o'clock. A general invitation, especially to those who do not attend any other school, and all who delight in studying the Holy Scriptures which "make wise unto salvation."

STILL ANOTHER ROGUE.—I. H. Brewbaker started with his family for the West about ten days since, forgetting to call and settle his bill for work done at this office. If Isaac's memory is not at fault, he has then intentionally defrauded us out of \$9.75. If this be true we have one consolation left, there is a day of reckoning for all unrepentant rogues.

The weather during the past week has been delightful and farm and garden operations have been fairly commenced. The warm rain and sunshine have wrought a marked change on the face of the country. Already the broad acres are covered with a beautiful verdure. The grain and grass fields have not presented a more promising appearance in many years. The present aspect of things must not be cheerful to the farmers only, but to all classes, for good crops will surely bring better times.

Butter-milk is said to be a cure for small-pox.

MANUFACTURES.—It is of great importance to us as a community that our manufacturing interests should be sustained and increased. We are glad that the shops we have here are meeting with encouragement by receiving larger orders than for the past two years. The prospect for an immense wheat crop all over the Middle States, will we trust fill the Geiser Company's Shops with larger numbers of hands, and carry the valuable machine they make into new territory and open up such a trade, that all the business (great as it has been some seasons) done heretofore may prove to be just the beginning of an era of prosperity to that company and impetus to every branch of industry of our place, as shall establish us forever as a great manufacturing town.

There are other implements beside the Separator that can be profitably made here and find a ready sale. Why not start a large Plow Shop? Grain drills and hay rakes are made here, but there are other farming implements needed, why not make them. Can they be sold? Look at the fertile valleys from the Susquehanna to the green hills of Tennessee. Where are they now purchased? From New England.

Every good citizen of town and neighborhood should always have a good word to say in behalf of such enterprises begun, for what helps the proprietors help every one else. There are too many farmers, let some of them turn their capital and brains to manufacturing, and they and their neighbors will be the gainers. Every dollar brought to us increases the money circulation, and when paid for labor done here, that money is turned over and over again, from mechanic to shop, and from shop to the farmer.

RUN OFF.—A frightful run-off took place on Monday afternoon. Mr. Franklin Miller brought a two-horse load of wood to town. He left the team on the street opposite the saddler shop of Wm. P. Weagly, in care of a lad. The horses started and before they could be reached by any one were in full flight down street. Mr. Miller was at Minter's Hotel where he attempted to arrest them by taking hold of the bridle of one of them. He was thrown to the ground narrowly escaping being run over by horses and wagon. On reaching the hill nearly opposite the shops of the Waynesboro' Manufacturing Company, the horses were arrested. Had not the hill intervened the destruction of the wagon would doubtless have been complete. As it was no damage was done and the scattered cord sticks were soon replaced on the wagon.

SPRING TRADE.—From the indications apparent on all sides, we will have a lively spring trade. Our merchants and business men generally, are engaged in brightening up their establishments for the opening of trade, and it is to be hoped that their expectations may be realized, as the past winter season has been to them anything but a prosperous one. Money still continues to be in great demand, but there is evidently more confidence felt at present than has been for some time, and as a consequence a greater buoyancy is expected. A good spring business, with good prices for the production of our farmers, would restore matters wonderfully in this section of country.

FRESH FISH.—Shad are now retailing three for \$1.00 and herring at 25 cents per dozen. Our town is regularly supplied this season by the different dealers with a prime article direct from Baltimore.—Waynesboro' Station on the W. M. R. R. although four miles from town and almost on top of the mountain, is still a great convenience to our citizens. The communication is such that in a few hours any article desired in the city can be delivered here. But how much better would be the advantage and convenience with a depot at our town instead of the mountain, and yet such a result is attainable beyond all peradventure. A stock subscription of fifty or sixty thousand dollars would suffice.

The report that times are hard, and money hard to get hold of, is an old song but we think we heard it oftener and with more solemn earnestness, this spring, than ever before. Let's have a "let up," every fellow go round and pay off his little debts, and it is surprising what a big business a very small sum will do, in that way, and how much improved will be the tone of the business community. Commence with the printer, of course.

SUICIDE.—The Daily announces another suicide in Hagerstown. On Monday afternoon last, Mr. David Smith, aged about 70 years, and for forty years a resident of that place, hung himself in a smoke house attached to his residence. In his time Mr. S. had been prominent as a butcher and a politician. The rash act is attributed to aberration of mind.

ANOTHER CANDIDATE.—It will be seen by reference to our advertising columns that one of our most worthy and respected citizens, Wm. Hammett, Esq. announces himself as a candidate for the office of County Treasurer. Should fortune favor Mr. H. with the nomination and election he would make a most efficient and responsible public officer.

The Border Claims bill is killed for the present session. The vote on the final passage in the House, was 16 for to 58 against.

The following communication from Rev. Mr. Fohl, which appeared in this week's Chambersburg papers, will doubtless interest some of the readers of the Record:

Messrs. Editors:—I have just returned from a pleasant visit of twelve days in and around Waynesboro', after an absence of years. I found a great change, not only in the number of its population, but also in the improvement of the town. Quite a number of fine brick buildings have been erected recently, and if we are to estimate the community by the magnificent churches and the large and commodious school house in its different departments, with a Board of six Teachers under the supervision of Prof. P. Bantz, we are led to conclude that these people are either unusually liberal, or exceedingly wealthy, and so far as I have knowledge, both are true. I was told that the Presbyterian Church cost upwards of six thousand dollars, English Lutheran, eleven thousand; M. E., twelve thousand; Reformed, twenty thousand, and the school house, including the heaters, twenty-one thousand dollars. All the foregoing, I was told, has been accomplished within the last seven years. I doubt whether a parallel to this can be found in our State, in proportion to the size and population of the town.

I had the privilege of forming an acquaintance with the ministers of the different denominations, and was cordially received. I presented the Bible cause before several of their churches, and received proper encouragement in money and promises of donations during the next month, which I hope my worthy co-laborer (Rev. F. Dyson) may glean during his contemplated visit to that place if his health will permit, as I left the place for him to canvass regularly. I, however, had the honor of spending a short time with a few of the most aged and venerable citizens of the town, viz.: Gen. James Burns, who is in the 88th year of his age; Elias Horner, 87th; Elias Harbaugh; 83rd; A. Hamilton, 81st, and his estimable wife in her 73rd year. I also, in that neighborhood, met with a friend, Henry Summers, whom I had not seen for forty-two years. His silver locks are an indicative of the frosts of many winters. His donation to the Bible cause was an evidence to me that his heart was in union with the circulation of the Holy Scriptures.

I visited the printing office (Village Record), and had an interview with the editor, W. Blair, whom I consider worthy of patronage, and who publishes a very respectable paper. I also had the pleasure of forming an acquaintance with G. Middour (brother to the present Steward of the Poor House) and his very kind family, with whom I principally lodged during my stay in Waynesboro'. I also visited Ridgeville, and talked to the people, whence I was conveyed to Shady Grove, and tarried over night with an esteemed friend, Alex. Gordon, (father of the Rev. J. Smith Gordon of Fannettsburg, in this county), where I purpose holding a meeting in a few weeks, by Divine permission, and canvassing the place regularly.

I am glad to say the grain crop looks promising, and farmers are hopeful, notwithstanding the pressure financially.—All admit that a good wheat crop would give a stimulus to every department of trade. Let us, therefore, lean by faith upon that arm which moves the world, and trust in his omnipotence. Your humble servant, J. FOHL, Chambersburg, Pa., Bible Agent, April 5, 1873.

STATE NORMAL SCHOOL.—Another State Normal School for seven counties, will be dedicated on the 15th inst., at Shippensburg. Hon. J. P. Wickersham, State Superintendent of Common Schools, and Hon. John Eaton, National Commissioner of Education, will be present and participate in the opening or dedicatory exercises. The building is represented as a very fine one, large enough to accommodate eight hundred students. A large gathering is anticipated on the occasion.

We make the following brief extract from a communication furnished us in reference to the dedication: "The examinations at the Cumberland Valley State Normal School will be conducted by seven County Superintendents, by as many Principals as there are schools then in operation, and by the Superintendent of Common Schools. These comprise the State Board of Examiners. The object of the Legislature in the establishing State Normal Schools in '57 was to qualify teachers by increasing their knowledge of the elements of science, by giving them culture broad and deep, by thoroughly disciplining them in the art of teaching, by making them feel that they have an important and responsible work to do, and by impressing their minds with the truth that teaching must, if teachers do their duty, become a profession, as much so as law, medicine and theology."

Township Clerks are required, within sixty days after the spring elections, to make out and publish a full and complete statement of the financial condition of their township, under a penalty of \$50.

Rev. Daniel Zacharias, for the last thirty-eight years pastor of the Evangelical Reformed Church, Frederick, died in that city on the 31st ultimo, in the 87th year of his age.

A VERITABLE GHOST.—Ghosts are becoming very plentiful now-a-days. We hear of them in every quarter; they have haunted school houses and churches, and are even said to now and then loaf about saloons. One of the veritable has lately appeared in Noble county, Minn. In the great storm of January 7th, a man by the name of Weston was frozen to death; at least such was the supposition, though the body was not discovered. The other day a man named Wesley, living near Hersey Station, was amazed to see Weston approaching him from the barn, dressed as on the day of his disappearance. Supposing it was all a mistake, Wesley spoke to him, telling him that everybody believed him to be dead. Upon this the figure, stalking about in Weston's clothes, declared that such was the fact, and his body would be found in a certain locality about one mile and a half east of the station.—The speaker then vanished. Wesley told the story to his neighbors and they set out for the spot indicated, when sure enough they found the body of the unfortunate man in a large snowdrift. He had on an overcoat of army blue, with a cape, and the apparition was dressed in a similar way.—It was evident that the coat had not been taken off or the body moved, and the question that excites the scientific mind now is: Where did that spirit get its army overcoat? The fact of the appearance of the ghost dressed in this manner, is sufficiently attested to satisfy the St. Paul Press of its reality, and it declares that Mr. Wesley is a gentleman of the strictest veracity. Can the Press explain away this other puzzling question about the coat?

BURNED.—On last Thursday a child of John W. Bryson, of St. Thomas township, was badly burned. Mrs. Bryson went to the house of a neighbor leaving 2 children at home alone. Some chaff had been emptied from a bed-trick which required washing, into the corner of the room where the children were. The older child got hold of some matches and while playing with them set fire to the chaff. The younger child was in the cradle, and before it could get out, its clothing caught fire, and it was severely burned. The alarm of fire was given and several persons hastening to the spot rescued the child and put out the fire. We are not informed as to the extent of the child's injuries.—V. Spirit.

INSTINCT OF THE PIGEON.—Several weeks since Mr. Richard Ranels of this town shipped to New York a lot of pigeons that he had on hand for some time, and, after their departure, thought no more of it, but in a few days thereafter he was astonished to see three of them in the vicinity of where they had been kept whilst here. He knew them by certain marks and there is no doubt of their being the same. It is supposed they were used in a shooting match, thereby gaining their liberty after running, or rather flying, the gauntlet of the guns of the sporting barbarians of Gotham.—Twice A Week.

Our Congressional District is now the Eighteenth, composed of the counties of Franklin, Fulton, Juniata, Huntingdon, Snyder and Perry.

ANOTHER OCEAN HORROR!

OVER 500 LIVES LOST!

HALIFAX, April 1.—The steamship Atlantic of the White Star Line, from Liverpool, March 20, for New York, running short of coal, made for Halifax. When about twenty miles from port of Cape Prospect at 2:30 this morning, ran ashore on Meagher's Head. She had on board over 1,000 men women and children.—Only 250 succeeded in landing. The remainder, including woman and children, were lost. The captain and third officer were saved; the first officer was drowned.

The following are the particulars touching the ship and disaster as related by Mr. Brady, the third officer:

The Atlantic, Mr. Brady said, left Liverpool on Thursday, March 20, for New York; touched at Queenstown the next day to receive the mail and passengers, after which she started on her voyage across the ocean. She had a full cargo of general merchandise and a very large number of passengers. Mr. Brady could not give the precise number, but thought there were over 800 in the steerage and about fifty in the cabin. These, with her crew would make the total number not less than 1,000 souls. She was commanded by Capt. James Agnew Williams. Rough weather was experienced; but nothing worthy of note occurred until noon on Monday, the 31st, when the coal being short, Capt. Williams resolved to put into Halifax for a supply. The captain and Mr. Brady had the night watch up to midnight, when they were relieved by the chief and fourth officers. At that time they judged that Sambre Light then bore N. N. W. 39 miles.

The sea was rough and the night was dark. The chief and fourth officer having taken charge, Mr. Brady went below and turned into his berth. The captain at the same time went to his room to lie down. What occurred between midnight and 2 o'clock—the time of the disaster—Mr. Brady cannot tell, as he was sleeping. He was awakened and thrown out of his bunk by the shock when

THE STEAMER STRUCK. She struck heavily three or four times. Mr. Brady ran up to the deck and found it full of passengers. He found an axe and with it began to clear away the star-board life boat. He observed that the captain and the other officers were engaged in clearing the other boats. Mr. Brady succeeded in getting his life boat out. This was the only boat launched and it had no sooner touched the water than a crowd made a rush to get into it. Brady had to use some force to prevent them

from crowding in. He put two women and about a dozen men into it, and also got in himself. Just then the steamer fell and sank. The boat with its living freight was carried down with the steamer, and all in it were drowned except Brady. The hull of the steamer became almost totally submerged, and only the bow and the masts remained above water. The greater part of the passengers were in their rooms below at the time, and immediately drowned. Indeed, so soon after striking did the steamer sink, that many of the passengers were no doubt sleeping peacefully in blissful ignorance of all that was going on around them, and passed into eternity without a struggle. Of those on deck numbering several hundreds, many were washed overboard when the ship fell over and then

CRISIS FOR HELP as they struggled in vain for life, were most heartrending. Many, however had taken refuge in the rigging and on the bow and where still living, but with the prospect of almost certain death before them, they knew not where they were, and were in a momentary expectation of ship sinking further and engulfing them all. Even as they were clinging in desperation to the rigging with the sea washing over them continually, their situation was indeed most trying, and every few minutes some of them benumbed by the cold and exhausted from their struggles loosed their hold and perished.

The Atlantic was 3,107 tons burthen, and was built two years ago in Belfast, Ireland.—This was her 19th trip. She had fifty cabin passengers. She was valued at \$500,000. New York, April 3.—The latest Halifax dispatches received show that the loss of life by the wreck of the steamer Atlantic is not as great as was supposed. The loss altogether is now estimated at 546.

BUSINESS LOCALS.

Best Bee Hives for sale by D. D. Fahrney, Waynesboro'. April 10-4 GARDEN SEEDS.—Fresh stock at Reid's Old Grocery Stand.

ROASTED COFFEE.—The best in the market at REID'S. Why use dangerous burning fluids? Call at Reid's and get the "Safety Oil."

Ladies Serge Button Boots—the latest styles—only \$2.50 at BEAVER & JACOBS'.

For fresh Garden Seeds go to April 10-3] Amberson & Brackbill.

RECEIVED.—Another lot of fine Apple—also another lot of Honey. M. GEISER.

Material for Soap Boiling—Crude Potash—Soda Ash—Concentrated Lye—Babbitt's Potash—for sale by April 10-3] Amberson & Brackbill.
