Dr. P. FAHRNEY'S

Celebrated

Blood Cleanser or Panacea.

As a medicine for children, the Panacea is, in every way, calculated to take the place of the endless variety of crugs which are annually sold for that purpose, and which are often every injurions. A medicine which pessesses the qualities of a cathartic as well as a mind alterative, and which is capable of arresting disease without the least injury to the child, is of in-alculable value to every mother. As a cathartic, it is very elective, yet it does not, ligiven in proper quantities, cause nausea or distress to the atomachor bowels. It is very pleasant to the taste, which is a very important feature as a medicine for children. As it presentine of disease it is unprecedented, as it acts directly upon the digestive organs and the blood. In all acrofulous diseases, it is the most effective medicine ever offered to the public; and, figiven regularly and per-averimity, those cruptive diseases to common to children may be entirely eradicated. FIRST-CLASS WORKMEN & MATERIAL

this Machine just stands high above all its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honest competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this mention companies from the fact that grain direct from this machine commands from 2 to 3 cents: bushel more than grain direct from any oth er machine, settles the question of its supe riority as a cleaner over all others. Impar tial judges at all the State and County Fairstial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled ih machinery—more du-rable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use and besides all that is sold for less money and besides all that is sold for less moley according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply tou wants of all, we now make 4 sizes, viz.—From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power.
