Blood Cleanser or Panacea. As a medicine for children, the Panacca is, in every way, calculated to take the place of the endies variety of drings which are annually sold for that purpose, and which are often ever injurious. A medicine which nosesses the qualities of a cathartic as well as a mind alterative, and which is capable of arcstand dased-e without the least injury to the child, is of '\_\_actable value to every motion.' As a cathartic, it is very elicality evide does not, if given in proper quantities, cause maused or distress to the stomethor bowels. It is very pleasant to the faste, which is a very important tenture as a medicine for children. As i presented of disease it is unprecedented, as it acts directly upon the digestive organs and the blood. In all scrofiles, decases, it is the most effective medicine ever offered to the public; and, figiven regularly and persec trainty, those cruptive diseases to common to children may be entirely enallested.

GEISER'S

PATENT SELF-REGULATIN

GRAIN SEPARATOR CLEANER, BAGGERSAND POWERS!

No implement more important to the farmer than a First-class Grain Thresher and Cleaner—for none pays him so well and so

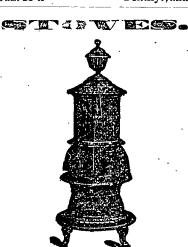

speedily.

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with

FIRST-CLASS WORKMEN & MATERIAL this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honest competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine sortles the operation of its superer machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in useand besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply tou wants of all, we now make 4 sizes, viz:—From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impuroved riple-geared Horse Powers, suitable for each size machine, ranging from \$90 to \$135, and all fully and fairly warranted.
