^a Dr. P. FAHRNEY'S ^a Celebrated . Blood Cleanser or Panacea.

As a medicine for children, the Panacca is, in every way, calculated to take the place of the endle-s variety of drags which are annually sold for that purpose, and which are often very injurious. A medicine which possesses the qualities of a cathartic as well as a mind alterative, and which is capable of arcestine discare without the least injury to the child, is of "in-alculable value to every mother. As a cathartic, it is very elective, yet it does not, if given in proper quantities, can-o nau-ea or distress to the stomach or bowels. It is very pleasant to the taste, which is a very important feature as a medicine for children. As it prematire of disease, it is unprecedented, as it arts this city upon the digestive or span dard the modicine least everyore to the seases to common to children may be entirely endicated.

GEISER'S

CLEANER, BAGGER AND POWERS

No implement more important to the farmer than a First-class Grain Thresher and Cleaner—for none pays him so well and so speedily.

The above cut shows the only Geiser Machine now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the

this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all hon-est competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the <u>question</u> of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled ih machinery—more du-rable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in useand besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply tou wants of all, we now make 4 sizes, viz:— From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impproved triple-geared Horse Powers, suitable for
