Pomeroy's Democrat has suspend-

ed publication after sinking \$250,000. Governor Dix sent a message to the New York Legislature last week, vetoing the local aption law, The Assembly, after a debate, failed to pass the bill

over the veto.

Philip Straus, of New York city, shot himself dead one day lust week. A few years ago his father left him \$75,000, all of which was lost in unlucky business ventures and stock speculation.

The estate of the late Major General Henry W. Hallack, of Colifornia, has been finally settled in the San Francisco Probate Court. After deducting the widow's allowance, commissions and costs, the estate nets the sum of \$430,785 in gold.

About two years ago Mr. Wm. P. Wilstach, a rich Philadelphia merchant, died, leaving an estate worth \$1,000,000. By the terms of his will he left half of this sum to his wife for her sole separate use, and the other half to his daughter, Anne Gertrude, then a minor, who was to come into possession of it when she should attain the twenty-first year of her age, on March 21st, 1874. In case of her death before that time, however, the share which she would otherwise have received was to go to certain public institutions and charities of the city of Philadelphia. On Monday last Miss Wilstach died, and consequently the \$500,000 bequeathed to her will go to the institutions and charities named by the father's will.

As far as the General Government is concerned, Decoration day is this year to be observed, in a measure at least, as a national commemoration of the departed heroes of the Union, the President having directed the closing of the departments at Washington on the 30th inst., in order to-give the employees of the Government | hurt. ample opportunity to participate in the sadly greatful ceremony of decking with flowers the graves of the nation's soldiers.

The year is yet young, but its record of illustrious dead is already long .-Abroad, the ex-Emperor Napolean, Bulwer, John Stuart Mill, and Liebig have died, and the Pope lingers on the confines convalescent the next. The United States Otis, and other prominent men and wo-

His views were, however, not enfertained by the majority, and he declines further to act with them as a member of that body. The salary has been fixed at \$2,500 and mileage. .

France has passed through anoth er revolution, happily there has been no bloodshed. The Republican party have seared to have a majority in the National Assembly, and President Thiers has resigned. Marshal McMahon, supposed to be loyal to the Bonsparte dynasty, takes the place of Thiers, but whether he will have a working majority of the Assembly on his side remains to be seen. Shouldany one of the half-dozen anti-Republican factions refuse to support him, he will be left in a minority and compelled to resign. Probably his successor will be an advanceed Republican. The new President has not yet indicated his policy, and has not said anything concerning the form of government which he prefers. With the assistance of the army he has promised to preservé peace, which all the world will be glad to hear.

VERSAILES, May 26 .- M. Dufaure handed to Buffet, President of the Assembly a message from President Thiers, announce ing that he delivers back to the Assembly the high functions which had been conferred upon him. The Left moved that the resignation of Thiers be not accepted. This motion was rejected by a vote of 368 to 339. The resignation of President Thiers was then accepted.

A vote was then taken, and it resulted in the election of Marshal McMahon, who received 390 votes. The Deputies of the Left abstained from voting. McMahon

Terrific Tornado in Iowa. Cincinnati, May 23.—A. despatch form Des Moines, Iowa, says the severest thunder storm in that region for years occurred vesterday. Nine houses were blown down or moved from their bases by the wind. A Methodist church was blown down. An unknown man was killed by

FURTHER PARTICULARS.

Washington, May 23 .- A terrific torna do or whirlwine accompanied by hail and rain passed over this country, about six miles north of Washington, yesterday afternoon. Its path was about half a mile in width, and it tore into fragments every thing in its course. Honses, barns, fences, trees, cattle and human beings were caught up and whirled through the air like mere toys, and then dashed to the ground with such violence as to produce instant destruction. Houses and barns were torn into fragments and scattered in all directions, and for miles around the fields are dotted with large timbers driven into the ground at an angle of ninety degrees. Cattle were actually driven headforemost into the ground. One can scarcely conceive the devastation, or realize the force of the tornado.

Already we have heard of thirteen farm houses and barns that were literally torn to pieces, and many others badly damaged. School was in session at the school house six miles north of here, and the tornado tore the building to pieces and carried a fourteen year old daughter of Henry Rothmel about a quarter of a mile from the school. When found 'she was crushed to a jelly. Miss Smith, the teacher, and six or eight of the scholars were injured, some of them severly. The wife Henry Walters was killed. A Miss Gardner and a son of Abe Gibson lie at the point of death. Jacob Seek was seriously hurt. A Mr. Baker was hurt in the

A gentleman who was near the tornado reports that it was baloon-shaped, with the small end to the ground, and moved at the rate of twenty miles an hour. It hegan its fearful work near Keota, where it demolished several houses. We next hear of it about six miles northwest where it destroyed two or three houses, and as of the grave, reported dead one day and it passed on northwest scattered to the four winds five residences, and the barns of has lost, since the first of January, Chief Alexander Gibson, J. A. Babcock and J. Justice Chase, Governor Geary, Minister C. Collingham. It also levelled to the Orr, Bishop McIlvaine, Commodore Mau- ground the dwellings of D. Caneer, F. ry, Joshua Levitt, General Canby, James and H. Walters, Mr. Carringer and Mr. Brooks, Oakes Ames, Mrs. Harrison Gray | Kerr. The lives of many persons were saved by their hastily getting into the cellars of their houses. Sad havoc was made with all kinds of stock.

From the description of an eye-witness it seems almost a miracle that anything Democratic side, resigned his seat last in its track escaped alive. He says he could see large pieces of timber hurled Mr. Gowen was one of the few who from the storm cloud as though shot from

The roaring of the tornado was fearful. and could easily have been heard ten miles. At this place, six miles away, it was perfectualy appalling, surpassing anything ever heard, except war and the din of a terrific battle.

A telegram from Keota last evening says that five persons were killed about 3 miles from that place. One chid was torn to pieces.

The reports received thus far are from only a few points along the line of the terrible destroyer, and the amount of damage cannot be estimated, but it must be many thousand dellars.

Many more lives were prhably lost than those reported, and no estimate can be made of the stock killed.

Nothing so terrible or violent has ever befallen this section of the country, and it is considered a miracle that so few liv-

THE LIQUOR TRADE.—The organ of the liquor interest in New York has taken pains to collect and group all the facts connected with the trade in this country. The amount of tax on spirits collected by the United States in 1872 was \$49,475,-516,36. This represents about 100,000,-000 gallons, worth at wholesale \$85,000,-000, but which brought, at retail, about \$317,000,000. This aggregates a money interest of over \$400,000,000. The beer trade pays a tax to the government of \$8, 573,498.45. This represents a retail value of over \$212,000,000, which added to the value of the article to the manufacturers, represents a money interest of about \$300,000,000. The wine trade represents an interest of \$75,000,000. The import trade of liquors, beer and wine, represents a retail value of liquors of \$27. 000,000; of beer, \$2,800,000; of wines \$135,000,000; or a total of nearly \$165, publications which they intend to exchange | 000,000. END OF THE MODOC WAR.—The Modoc war is at an end. From the time of the savages being chased out of the lava beds a week ago it degenerated into a pursuit after scattered parties of the lately compact little body of savages. The attacks which have been made upon them, although not immediately successful, have proved ultimately so by driving them from refuge to refue until at last, defeated and discouraged, they sought safety in indiscriminate flight. The last fight with leave to inform all that it is no "Quack" the troops took the heart out of a dozen preparation, but made strickly in accordof the warriors-those belonging to the ance with the advanced principles and the-Hot Spring band-and on Thursday they came into Gen.
