his Machine just stands high above all its class. As a thresher it is equal to the best, as a cleaner it is superior to any exist ing Machine. This is admitted by all honest competitors, Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents: bushel more than grain direct from any oth er machine, settles the quest the it superiority as a cleaner over all cities. Impar tial judges at all the State and Cor ity Fairs where it was thoroughly and practically ested, in competition with other leading machines, always agree that it is more sim ple-more early understood and operated by those unskilled in machinery-more durable-threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in useand besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply tou wants of all, we now make 4 sizes, viz:— From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with
