It takes a snug sum of money, nowadays, to buy sufficient ground in Philadelphia for the erection of a comfortable dwelling. Dr. H. Lenox Hodge purchased a lot of ground on South Broad street, measuring 40 by 220 feet, for which he paid \$24,000 or very nearly 2.75 per square foot.

A Chester county man claims to have the best cow in the state of Pennsylvania. She is about half Durham and weighed 1,375 pounds. She recently calved, and on the fifth day after the calf was taken off, her yield of milk in one day was twenty-eight and one half quarts, and in the second week of the month she made twenty and one half pounds of butter of the finest and best quality.

A sad accident happened at Columbus, Ohio, on the 2nd inst. While the wife of C. V. De Coursey was playfully pointing a pistol at him, he requested her not to do so, and stepping up to take it from her, it went off. The discharge took effect in her side, passing through her lungs, killing her almost instantly.

The recent gale which swept along the North Atlantic coast left a ghastly line of wrecked and stranded vessels in its path. Thirty vessels went down in North Bay alone, carrying all hands to the bottom of the sea. The fragments of clothing and other articles which the waves are bringing to the shore tell a melancholy story of the disaster that has befallen the fishing vessels which were cruising in the waters over which the tornado passed.

The quiet neighborhood of St. Paul's Street, above Saratoga, Baltimore, was the scene of a terrible tragedy on Thursday night last week. Dr. Showalter, who lived at No. 58, where his wife kept a boarding house, has long been addicted to drinking, and whilst laboring under mania a potu, cut his wife's throat, and then attempted to put an end to his own life by similar means. The wound inflicted on his wife was a terrible one, commencing on the left side of the throat, cutting through the carotid artery and jugular vein. The parlor in which the tragedy was committed presented a dreadful scene. Showalter is a physician, but has been prevented by his intemperate habits from the pursuit of his profession. He is respectably connected in Alabama, but had been discarded by his father on account of his habits. His bad behavior had recently forced his wife to have him arrested, and but few hours before the murder she had threatened to again give him in to the custody of the police.

THE CHOLERA.—A despatch from O. kawville, Ill., a place about twenty miles from St. Louis, on the St. Louis and Southwestern railroad, says cholera of the true Asiatic type is raging fearfully. Twenty-three persons died in twelve hours among them the principal bridge builder of the Southwestern railroad and three children have died in one family within three hours. The patients die within fifteen minutes after the attack and turn black immediately. Medical aid will be sent for from the surrounding towns. The citizens are rapidly leaving the place and those remaining are using disinfectants freely burning tar in the streets. It is said no local cause exists for the disease.

The ways of the average politician are not calculated to smooth the path of ambitious women who enter the field for political honors. There was a woman in Cass county, Ill., who tried to run for County Superintendent, but she has withdrawn from the field with this explanation: "We have been excessively annoyed by inquiries relative to the above matter, as well as by the look of disappointment that settles upon the Johnsons, Browns, and Smiths, whenever we pass them without a campaign shake of the hand, and a declaration of their off-spring usual precocity, as evinced while we were their fortunate instructress. Nor is this all. Nay, verily! Every Hans and Pat of street corner notoriety evidently expected us to 'stand treat.'"

HALF SHEET.—Owing to a miscount of paper last week we were compelled to send half sheets to about twenty-five subscribers. We believe this was the first occurrence of the kind, and as the most correct are liable to err sometimes, we trust the mishap will be overlooked by those who received a half instead of a whole sheet.

In Cumberland county all the bills found against parties for violating the Local Option laws, where squashed on account of an informality in sealing the jury wheel. The law requires the wheel to be sealed with the seals of the Sheriff and Jury Commissioner. Schnebly—says the Hagerstown Herald—whose one hundredth birthday was noticed in this paper last February, was in our town during the past week as she had been frequently during the summer, paying her taxes and attending to other business, pretty much, excepting a little bodily feebleness, as she did a quarter of a century ago. What an instance of well-preserved longevity.

PAPER MILL BURNED.—Antietam Paper Mill, situated about two miles Northeast of Hagerstown, belonging to J. W. Stonebraker and J. A. Dushane, was totally destroyed by fire on Thursday evening last, entailing a loss upon these gentlemen of about \$70,000, upon which there was an insurance of \$30,000. From 8 to 9 o'clock the reflection of the light from the burning building was visible here and noticed by many of our citizens. The parties were insured to the amount of \$5000 in the Planters' Mutual Company of Leitersburg, and also \$5000 in the Mutual of Hagerstown. From fifty to sixty hands have thus been thrown out of employment. The origin of the fire is not positively known, but is thought to have been the result of accident.

A FOUR-LEGGED CHICKEN.—We saw in the yard adjoining the Waynesboro hotel the other day a curiosity in the shape of a four-legged chicken. It is a rooster, fully half-grown and healthy in appearance. The unnatural limbs project from the rump, and are suspended in hoop-shape over the tail.—Waynesboro Record.

Wonder if friend Billy Blair hadn't heard a dozen or more of his friends "say something" immediately before looking at that chicken.—Boonsboro Odd Fellow.

The four-legged rooster is still on the walk, but our courteous contemporary should not so insinuate. Does he forget that "say something" is not tolerated in our town or county? The man with the "pink nose" now comes from the Maryland side.

THE "TAPEWORM."—It is really strange, in this age of railroad progress—new lines projected and building in all directions—that the old work known as the "Tape-worm" Railroad commencing at this place and graded with a few breaks, to within half a mile of the Western Maryland Railroad, on the South Mountain, should be allowed to continue in its unfinished and useless condition. The work done upon it was of most substantial character, the banks still being firm and in place, and the bridges solid and uninjured, though built thirty-five years ago and neglected ever since. Eight hundred thousand dollars were appropriated by the State, and exhausted, without at the time a road to connect it with the east. Now it has such connection, and has had for fifteen years, and still it lies idle.—Gettysburg Compiler.

THE DAVIS-LYNN MURDER.—We have been shown by R. B. Norment, Esq., a letter, dated at New York, and directed to Governor Whyte, purporting to have been written by a man named L. Nelandy a manufacturer of counterfeit money, who asserts that Abraham L. Lynn was not murdered by Joseph W. Davis but by a man who was associated with him (Nelandy) in the counterfeiting business. Governor Whyte transmitted the letter to Attorney General Syester, with instructions to have the matter investigated by the Stat's attorney of Carroll county under his (Mr. Syester's) direction. It was therefore sent to Mr. Norment, who kindly permitted us to read it, and we will, if the Attorney General consents, publish it in full. Mr. Norment assures us that it has in no way shaken his confidence in the justice of the verdict of "murder in the first degree," rendered against Davis at Hagerstown.—Westminster (Md.) Sentinel.

Mr. H. D. Herbert, of Hagerstown, was elected one of the vice presidents of "Fat Men's Association" which assembled at Gregory's Hotel, Oct. 4, which since and partook of a clam bake. A New Hampshire farmer makes a novel proposition to the Centennial Committee. He wants a "centennial cheese" made—a cheese in the grandest and most sublime sense of the term, weighing hundreds of thousands of pounds, and one which will astonish the world. The mammoth curd he proposes to have built by the united efforts of all the cheese manufacturers in the United States, each to devote one day's production to the formation of one immense, vast, amputinous, colossal, Brobdignagian cheese. The committee have not yet acted on the proposition, but when they do, they will probably condense their report into the two expressive words, "cheese it."

Two young ladies of La Crose were standing by the side of a ditch thirteen feet wide which they did not know how to cross, when their escort said "snakes," and they cleared it at a bound.

WORTH FINDING.—A poor widow residing near Cullen, Ky., between Morgantown and Marion, in Crittenden county, has found a treasure. One day last week, she was digging potatoes, which were planted on the site of an old cabin, which had been torn down, when she discovered a stone which she thought was in a strange place. She examined the spot and continued the digging until she uncovered the stone, which on removal she found to cover an old pot containing \$5,000 in gold coin.

The cabin which had once stood on the spot, was once inhabited by an old Irishman of miserly habits, who died some years ago, and it is conjectured that he buried the gold and died without revealing the fact. As the old man was not known to have any relatives, the widow is pretty certain of undisturbed enjoyment of the treasure trove.
