GEISER'S
PATENT SELF-REGULATING
GRAIN SEPARATOR
CLEANER, BAGGER AND POWERS!

No implement more important to the
farmer than a First-Class Grain Separator
Cleaner--for none pays him so well and so
speedily.

The above cut shows the only Geiser Ma-
chine now built under the immediate eye
of the old inventors themselves, with all the
additional improvements made during the
past 18 years, and now with

FIRST-CLASS WORKMEN & MATERIAL
this Mach-e just stands high above all o-
thers. As a thrasher it is equal to the
best, as a cleaner it is superior to any exist-
ing Machine. This is admitted by all hon-
est competitors. Indeed it is the only Ma-
chine that really can, by one operation,
thoroughly thresh and clean grain fit for
market. But the fact that grain direct from
this machine commands from 2 to 3 cents a
bushel more than grain direct from any other
machine, settles the question of its superi-
ority as a cleaner over all others. Impar-
tial judges at all the State and County Fairs
where it was thoroughly and practically
tested, in competition with other leading
machines, always agree that it is more sim-
ple--more easily understood and operated
than any other machine--more dur-
able--thrashing as much and yet cleaning
better--with less power and more comfort
to hands than any other machine in use--
and besides all that is sold for less money
according to capacity. These facts are
further attested by the thousands of pos-
sessors, some of whom have had them in
use for the last 18 years. To supply the
wants of all, we now make 4 sizes, viz--
From a 2 Horse Railway or 3 Horse Lever
Power, to a 10 Horse Lever Power, with
prices ranging from \$190 to \$380, without
power. We also make the latest improved
triple-gear Horse Powers, suitable for
any size machine, ranging from \$125 to \$155,
and all fully and fairly warranted. For
further information send for circular and
price list.

THE ALDINE,

An illustrated monthly journal universal-
admitted to be the handsomest periodical
in the world. A representative and cham-
pion of American taste.

Not for Sale in News or Book Stores.
THE ALDINE while issued with all the
regularity, has none of the temporary or
irregularly characteristic of ordinary
periodicals. It is an elegant miscellany of
pure, light, and graceful literature, and
a collection of pictures, the rarest speci-
mens of artistic skill, in black and white. Altho'
each succeeding number affords a fresh
pleasure to its friends, the real beauty and
value of the Aldine will be most appreci-
ated after it is has been bound up at the close
of the year. While other publications may
lay claim to superior cheapness, as compar-
ed with rivals of a similar class, the Aldine
is a unique and original conception--alone
and unapproached absolutely without com-
petition in price or character.

PREMIUM CHROMOS FOR 1873.
Every subscriber to The Aldine, who pays
in advance for the year 1873, will receive
without additional charge, a pair of beau-
tiful oil chromos, after J. J. Hill, the eminent
English painter. The pictures entitled "The
Village Belle," and "Crossing the Moor," are
14x20--are printed from 25 different plates
requiring 25 impressions and tints to per-
fect each picture. The same chromos are
sold for \$30 per pair in the art stores.

THE LITERARY DEPARTMENT
will continue under the care of Mr. Richard
Henry Stoddard, assisted by best writers
and poets of the day, who will strive to
have the literature of The Aldine always in
keeping with its artistic attractions.

TERMS.
\$5 per annum, in advance, with Oil Chromo-
free.
THE ALDINE will, hereafter be obtain-
able only by subscription. There will be no
reduced or club rate; cash for subscriptions
must be sent to the publishers direct, or
handed to the local agent, without respon-
sibility to the publishers, except in cases
where the certificate is given, bearing the
fac-simile signature of James Sutton & Co.

STEAM-ENGINE AND BOILER WORKS

ESTABLISHED 1853.
STATIONARY AND PORTABLE
STEAM-ENGINES, BOILERS,
Portable Saw Mills,
and all other Machinery made to order.

The above cut represents our Horizontal
Engine with Improved Side Bed. This de-
sign makes it strong, neat and durable and
upon which we have made some valuable
improvements, especially upon the working
parts, making them durable and economi-
cal.

We build Horizontal Engines with box
beds of different sizes and designs and up-
on the most improved plan.
We also make Upright Engines of differ-
ent sizes and styles, and where economy of
space is an object, they have some advan-
tage over the Horizontal, also in the wear
of the Cylinder, which is always equal in an
Upright Engine.

A special point of advantage in these En-
gines is our (A. O. Frick's) recently inven-
ted and patent self-adjusting BALANCED
SLIDE VALVE, suited to all Steam Engines
and Locomotives. It leaves the Engines as
simple in operation as those of the ordina-
ry plain slide valve class. We direct spe-
cial attention to this superior valve, and in
vite correspondence.

We give special attention to Portable
Engines for threshing grain and for farm
purposes generally. Also
STEAM BOILERS,
of all sizes. Further information may be
