this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any exists ing Machine. This is admitted by all honst competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any oth-er machine, settles the question of its superiority as a cleaner over all others. Impar-tial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more sim ple—more easily understood and operated by those unskilled ih machinery—more du-rable—threshing as much and yet cleaning better-with less power and more comfort to hands than any other machine in use-and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply tau wants of all, we now make 4 sizes, viz:— From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impproved triple-geared Horse Powers, suitable for aule at the Mill of Peter Falmestock a each size machine, ranging from \$90 to \$135, quantity of Corn, Rye and Oats, which they and fall fully and fairly warranted.
