FIRST-CLASS WORKMEN & MATERIAL this Machine just stands high above all o its class. As a thresher it is equal to the best, as a cleaner it is superior to any exists ing Machine. This is admitted by all honest competitors. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in conpetition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort better—with less power and more comfort to hands than any other machine in use— BIRDSLUS CHEINED CLOVER THRESHER & STPARIOR
