THE GEM

MICROSCOPE The Gem Microscope is the most wonderful scientific production of the nineteenth century. It furnishes the power of a high-pric-ed instrument for a mere trifle, and exceeds ed instrument for a mere trifle, and exceeds in usefulness any microscope ever invented. It reveals the hidden wonders of minute creation—as Eels in Vinegar, Animals in Water, Butterflies' Feathers, the golden marrow of a Hair, Insects' Eyes, the Pads, Claws, Joints and Hairs of a Fly-foot, makes Ropes of Fibers of Cloth, a crow-bar of a Needle's Point, and so on indefinitely. It furnishes hours of instruction, entertainment and amusement for the young and ment and amusement for the young and old, and every family should possess it. It is invaluable to students, professors, teachers, p. ysicians, in fact everybody, and especially in the home circle it is a gem. It is cheap, and at the same time of great value. Price \$1.50. THE PHOTOGRAPH

FAMILY RECORD!

The Photographic Family Record is an elegant Oil Chromo, Photographic Album and Family Record combined, and as its name Family Record combined, and as its name indicates is designed for the insertion and preservation of the pictures of the family as well as the names. It is something entirely new, combines beauty and utility, and should ornament every home in the land. All who see it pronounce it superb, and are lavish in its praise. The faces of dear ones appear in a tasteful setting of gold and beautiful colors, and it is at once and forever a household treasure. And its low price places it within the reach of all. Send for it and you will be gratified when you shall see it. It is something long needed, but never before attainable. Size 12x15 inches.

We build Horizontal Engines with box beds of different sizes and designs and upon the most improved plan.

We also make Upright Engines of different sizes and styles, and where economy of space is an object, they have some advan-tage over the Horrizontal, also in the wear

of the Cylinder, which is always equal in an Upright Engine.

A special point of advantage in these Engines is our (A. O. Frick's) recently invented and patent self-adjusting BALANCED SLIDE VALVE, suited to all Steam Engines and Locomotives. It leaves the Engines as simple in operation as those of the ordina-ry plain slide valve class. We direct spec ial attention to this superior valve, and in vite correspondence.

REMINGTON

FAMILY SEWING MACHINE!

THE subscriber announces to the public that he has the agency for the sale of the "Remington Family Sewing Machine" in Franklin county. Having tested its work-ing qualities and capacity for several months

he can safely recommend it as the very BEST MACHINE IN USE.

Its construction is such that it can be run at a higher rate of speed than any shuttle the speed has been registered, over 1000 stitches perminute have been attained with ease. It is strong in all its parts, and free from the harsh and jarring movements, and friction, common in inferior machines.

A simple change of the needle and thread and it will sew the finest cambric or the heaviest leather. The shuttle carries a large quantity of thread thus saving in a great measure the trouble of filling the bobbins. The Remington has no rotary cams, cog-wheels or lever arms to make a *noise*, run

and, or to get out of order.

Any girl of ordinary intelligence can keep t in order without the least difficulty.
