

Waynesboro' Village Record.

Thursday, Aug. 6, 1874.

The nervous can now breathe freer. The adventists have finally concluded the world is to be destroyed in 1991.

Nearly seven hundred infants under one year died in New York and Philadelphia last week.

Samuel Jones, colored, died recently near Turleytown, Va., aged 133 years. His age was well attested.

Jennie Toogood, a negro woman aged 110 years, died at Frederick on Monday week.

Mrs. Margaret Middleton died recently at the residence of her son-in-law in Simsbury, Conn., at the age of one hundred and seven years, eight months and sixteen days.

Holders of five-twenty bonds will be interested in the announcement made from the Treasury Department of the redemption of twenty-five millions on the first of November, thus saving a million and a half of gold interest to the Government.

All the parties arrested on suspicion of child-stealing at Philadelphia, have been released except the man who hired a wagon at Burn's stable, about the 1st of July, and he is held to await further examination. Mr. Ross has received no intelligence regarding the child.

Secretary Bristow has induced the Rothschilds and Seligmans of Europe to subscribe for \$45,000,000 of the five per cent. U. S. loan, with the option of taking the balance, \$134,000,000 the bonds are taken at par, one-quarter of one per cent being allowed the bankers as commission. The United States is said to be the only country in the world which can place its loans at par, and at so small expense.

We have, says an exchange, been assured by one who considers himself some on prognostications, that the grasshoppers are going to eat up and destroy everything in this country during the months of August and September. He says that myriads of them have made their appearance in some sections and commenced the work of devastation. Can anything be done to avert this threatened visitation, which has almost utterly impoverished Minnesota the present season.

A telegraph correspondence has taken place between Governor Ames of Mississippi and the President, in which the former renews the request of Lieutenant Gov. Davis that Federal troops be sent to Vicksburg to preserve the peace. Mr. Ames intimates that there is likely to be a collision between the whites and negroes, but the President once more refuses to order the soldiers to the scene of trouble unless the former will make a call for them in the regular manner provided by the Constitution.

There are two new theories broached in regard to the abduction case in Philadelphia. First—that Ross himself has privately bestowed the key in conspiracy with other confederates for the purpose of securing the \$20,000 to be paid for the restoration. Second—that the detective force are either the principles in the outrage, or abettors, or both, and are working for the \$20,000. Some circumstances connected with the affair points to conclusions of this kind, but as yet not with sufficient clearness to challenge belief.

The various petitions for the pardon of Ulderzook or the commutation of the death sentence to imprisonment which are being circulated in the neighborhood of the crime are skillfully framed, with the object of catching signatures of all classes of persons who for different reasons do not wish to see the man hanged. One document is especially intended to appeal to the sympathies of the Quakers, and the application of Mr. Perdue to Governor Hartranft is based upon the same reasons for which a new trial was unsuccessfully asked. It is said, however, that the petitions are getting but few signers except among the women, and there appears to be no expectation that they will meet with a favorable consideration at the hands of the Governor or the Board of Pardons.

A BEAUTIFUL INCIDENT.—An exchange says: That was, at least a beautiful sight and enough to arrest angelic attention, if it did not influence Him who sitteth on the great white throne—we mean the children at Chester Heights camp-meeting ground uniting in silent prayer for the restoration of little Charley Ross to his parents. Though the prayers were silent here, we believe they were heard where the Mayor of Philadelphia's \$20,000 reward can have no influence; and that they appeal to a power which alone can restore poor, lost Charley Ross. We believe only God, and the parties immediately concerned in the abduction know where the child is. And if he still lives, it will be God's influence on their hearts that will restore the companion of those who prayed for him last Thursday.

Mrs. Tilton, who is so prominent figure in the Beecher scandal, is the mother of four children: Florence, aged 16; Alice, aged 14; Carroll, aged 11 and Frankie, aged 5. They are said to be very handsome and intelligent.

FIRE IN BEDFORD COUNTY.—The Gazette says: On Wednesday night of last week, the house and barn, and nearly all the contents of both, including crops, of Joseph Hite, of Bedford township, were burned.

Mr. Hite and his family had retired at their usual hour and were awakened, about 11 o'clock by the barking of the dog. On looking out, they saw a light about the barn. Mr. Hite ran out at once and found the barn burning at the Northeast corner. In a few moments the flames had extended to the hay and grain within, when all hopes of saving the building ceased. He then turned his attention at once to saving such articles as he could carry away. When the barn became fully enveloped in fire he turned to the house and found it burning at the Southwest corner. The fire, there too, was so far advanced that there was no hope of saving anything. His wife and children were hurried out and a few articles they picked up on their way out of the building, worth less than \$50, was all that was saved. Both buildings were destroyed, with contents. The summer crop was partly in the barn, beside some 25 or 30 bushels of old wheat. The fire is supposed to have been the work of an incendiary. The loss was fully covered by insurance.

A. T. STEWART'S MR. BROWN.—Everybody who has shopped at Stewart's knows the good looking, the affable, the portly, the well-dressed, and the gentlemanly Mr. Brown, who paces up and down the spacious apartment amid rustling silks and gorgeous merinos day in and day out, year in and year out, always polite, genial, comfortable and happy. John Brown is the most experienced floor-walker of New York. He knows almost every fashionable woman of the city, and he also knows how much it is safe to trust each one. There are some who run a bill—say from \$3,000 to \$5,000—and there are others who are allowed to go as deep as \$10,000, and then there are a few whose account may reach \$20,000 before a bill is presented. When these ladies trade heavy bills the clerk sends the amount on a piece of paper to Mr. Brown, whose pencil at once marks approbation or refusal. Hence it is of great importance with this class whether they keep on good terms with the autocrat. If a fashionable woman wants a \$1,000 shawl how delightful is the approving pencil mark! If the latter be averse, what a cruel disappointment!—Mr. Brown has almost broken some hearts by refusals of this nature, and hence I fear he has much to answer for.

A swindle was perpetrated on Wednesday last week, on Jacob Schlotterbeck, a farmer, residing near Hagerstown, Washington county. Two men stopped at his house, professing to be in search of a farm, and after they had insinuated themselves into the good graces of Mr. Schlotterbeck by their genial manners, their confederate made his appearance. He was hard up and in want of money, having just arrived in this country, and his effects were all in the hands of the custom house officers in Baltimore. He had two gold watches and chains, on which he was anxious to get a loan of \$300. One of the visitors after examining them offered to buy them from him, and give him the \$300 cash; this however he refused, and finally Mr. Schlotterbeck loaned him the money. Shortly afterward a neighbor suggested that the watches and chains might not be worth the amount, and having taken them to a jeweler, Mr. S. was informed that they were worth about \$10. Fruitless search for the swindlers has been made.

VALUABLE DURHAM COWS KILLED BY LIGHTNING.—During the thunder storm of the 11th of July, three valuable thoroughbred Durham Cows belonging to Lewis Snively, of Clearspring District, were struck by lightning in the pasture field and killed. Their average weight was about 1600 lbs. each, and one of them was one of Mr. Snively's choice cows worth \$500. The raising of the fine short-horned stock is the business to which Mr. Snively devotes his principal attention, and this is the second loss of the kind he has sustained, two of his blooded cows having been killed by lightning last year, as then reported. The three cows stricken down on the 11th were about twenty feet apart as they lie dead in the field.—Mail.

Rochester, N. Y. paper tells of a hog which at the time of its purchase when it was two years old, weighed 750 pounds. Now it weighs 1,050 pounds, and the following are its dimensions as taken by a gentleman from that city: Length, 8 feet 4 1/2 inches; height, 3 feet 9 inches, and girth 7 feet 2 1/2 inches. The hind leg, just above the hoof, measures 10 inches in circumference. The hog, is, after all, not fat, being only in good running order.—The owners compose a stock company, who purchased the hog for the sole purpose of seeing how big and fat they could make him. In the fall they will "fat" him and make him, if possible, pull the scales at 1,500 pounds.

Mr. Henry Deckman, residing near Dublin, Hartford county, while carrying an old cross-bred horse for firewood, on the 18th inst., his little son about five years of age, ran out to meet him, when his father told him to stand out of the way when about to throw the tie off his shoulder, but instead of moving from him ran against him, and the falling tie struck the little fellow on the head, killing him instantly.

Local News.

Peaches are selling two for a cent. Large water-melons are selling at from 30 to 40 cents. Seedy looking "tramps" are patrolling the country in all directions. The chap with the "big feet" was seen at the show afternoon and evening. Attention is directed to the advertisement of real and personal property by W. B. Stewart in to-day's paper. Frederick McIntire has about 30 Summer boarders at his palatial cottage, Fountain Dale.

WATER-MELONS.—Mr. Martin Geiser has placed us under obligations to him for a large water-melon as a present. Mr. G. will continue to keep a supply on hand during the season.

Mr. J. R. Wolfersberger, U. S. Mail Agent, is now on a pleasure tour to Bedford Springs. Messrs. S. P. Stoner and Henry Harbaugh have supervision over his business during his absence.

Mr. John Mullan has sold his hotel property in London to Michael Ryder, Sr., for \$3400. Mr. Ryder intends to convert it into a private residence for himself and family.

A fine water-melon was dumped down at our door the other day, a present from the grocery store of W. A. Reid.—Mr. R. has a large supply on hand at present.

A young lady in town wishes to know "why every Tom, Dick and Harry have their shirts made to open on the back." Will some young-man-of-the "hair oil age" please answer?

DECEASED.—Miss Martha Adams, the oldest female in our town, died on Monday evening last, in the 92d year of her age. She had been an exemplary member of the Reformed church for half a century or more.

Mr. Kumerant, the Gettysburg "cracker man" paid us a visit on Monday. He was not in the least out of humor with "Tom Collins" or anybody else. He enjoys a joke but disclaims having been one of Tom's victims.

PARALYZED.—We regret to learn that Mr. David Stoner, son of this vicinity, was partially paralyzed one day last week, since which, time he has been lying in a critical situation. Mr. S. is the oldest male citizen in our township, being in about the 96th year of his age.

SUDDEN DEATH.—The Oakville Enterprise announces the very sudden death of Wm. Givler, at Boiling Springs, Cumberland county, on Monday last week. The deceased was a blacksmith by trade and couple years since was engaged in the business at Baer's factory near this place.

A communication from Rev. Henry Miller in reply to the card of Rev. Dr. Higbee, President of Mercersburg College, which was published last week, will appear on the first page of our next issue. An opportunity will be afforded Dr. H. to reply to the article in question, after which our columns will be closed to any further correspondence upon the subject.

IMPROVEMENTS.—Mr. Adam Fornoy, who has the neatest and best proportioned dwelling house on East Main street, recently added to it another important improvement, a porch at the top of the first story running full length of the building, enclosed with handsome latticed iron railing. Mr. S. B. Rinehart on West Main street has added to his dwelling a like improvement.

A Union Basket Pic Nic will be held by our Sabbath Schools on Thursday the 13th of August. All will assemble at the M. E. Church. Procession to start precisely at nine o'clock. The place is not yet determined but Gilbert's Grove will most probably be secured. The public are cordially invited to join in the festivities of the day. J. BURNS AMBERSON, Sec. Joint Com.

Candidates have been circulating pretty freely of late. Among others who visited our town this week we had the pleasure of meeting that jolly, clever fellow, Ben. Ross of Chambersburg. Mr. R. is a candidate for Sheriff on the Democratic side. No man in the party would make a better election, and perhaps no one has stronger claims on the party for the nomination.

The hooping cough has been prevalent in our town for sometime and in many instances assumes a most malignant form. We have had a number of cases in our own family and of all remedies used to give temporary relief, we found tea made from black squaw root the best. It is recommended upon the highest medical authority and should be drank freely. The roots can be had at Fourtman's Drug Store.

A gentleman in the eastern part of the State, who was about having his leg amputated on account of its being bent at right angles and stiff at the knee, heard of Johnson's Anodyne Liniment. After using it a short time his leg became straight, and is now as serviceable as the other.

Joseph Middour, Steward, furnishes us with the following statement of the expenditures of our County Alms House for the month of July:

Dry goods \$32.04; groceries \$102.76; shoes and shoemaking \$20.35; beef cattle \$140.00; slaughtering \$62.00; postage and stationary \$1.95; labor on farm \$20.60; plants and fruit \$11.91; brooms \$4.00; vinegar \$6.75; toll for three months \$3.16; fowls \$2.25; hardware \$2.23; repairing mower \$7.70; saddlery \$10.70; blacksmithing \$12.07; coffins for house \$10.50; coffins for out door poor \$7.50; out door medical attendance \$63.15; removals \$1.00; Insane Asylum, Harrisburg, \$78.50; support of out door poor \$310.50. There were two deaths during the month of July—Catherine Brown, from Quincy township, and Thomas Cunningham, (colored) from Chambersburg.

FISHERMEN'S LUCK.—Several parties from this place have been on fishing excursions of late. Last week two citizens who had bated in the evening 140° hooks returned in the morning with two small eels. Another party reports an adventure with a "big eel." These two persons it appears had about the same number of hooks out. In addition to five eels captured, they had so far secured about a "four pounder" as to get it on shore, and although one of them threw his weight upon it, the other taking a vigorous hold of the slimy and much coveted prize, it succeeded in freeing itself from both and regained the water. They talk of retrieving their reputation as fishermen, but say the next time they will take the "dark of the moon" for it.

HORSE CHOKED.—On Friday last Mr. Henry Leonon, of the Marsh, had a horse, a very valuable brown mare, to choke while eating oats. To relieve the animal he wrapped with calico a stick and forced it into her throat, but in the effort to remove the stick it was broken, a piece about eighteen inches long remaining in her throat. In this situation the mare was brought to Dr. Bows in this place. He first tried to remove the stick with a pair of pinchers, but failing he forced his arm down her throat beyond his elbow and finally succeeded in getting a sufficient hold upon it to draw it out. The Dr. thus saved the life of a valuable animal, but in the effort had his hand and arm considerably scarred.

ADVERTISING.—The season for advertising real estate is once more at hand. Persons wishing to dispose of properties at public or private sale will find the Record a profitable advertising medium, its circulation within five and six miles of Waynesboro' being more general than that of any other paper. The benefits of newspaper advertising is very generally admitted, but an individual is occasionally to be met with so old-timed and out of place in his conception of things as to require nothing more than a few posters for the sale of a valuable property, whilst the same advertisement in the newspaper would pass through the hands of a couple thousand readers. Some business men are alike short-sighted in this respect. The opportunity is afforded them to let the world and the "rest of mankind" know what they are doing or what they propose doing, but they fail to embrace it.

THE SHOW.—On Wednesday of last week the "big show" attracted a large crowd of persons to town, the "berry train" included, of course. Those who witnessed the exhibition of animals and the circus performance pronounced it the best show that had been around for years. The steam organ, the Operonicon, seemed the novelty of the occasion, judging from the attention it attracted. Notwithstanding the scarcity of money both exhibitions were crowded.

A little girl in Reading died from the effects of having her ears pierced.

The comet is now visible in Alaska.

BLACK LIST.—The following individuals have swindled us out of the sums annexed to their names, or so far, at least, have refused to settle any part of their accounts, and in order that they may not successfully play the part of "dead beats" in other localities, we give the public their names, and will continue to add "a few more of the same sort" from week to week, and as they appear their names will be dropped from our list as subscribers:

Table with 2 columns: Name and Amount. Includes HENRY L. BROWN (\$30.00), SOLOMON BITNER (6.90), DR. JOHN M. PEDDICORD (19.90), HENRY L. SWITZER (12.00), DAVID CARBAUGH (20.00), DR. J. A. HATTON (14.00), JOHN MENTZER (15.00), GEORGE CORDELL (14.00), JAMES B. SECRIST (12.75), JOHN D. BARE (10.50), ISAAC H. BREWBAKER (9.75), S. A. FOUTZ (10.00), A. N. STALEY (5.00), L. SCHILDNECHT (9.00), AARON BECK (9.00), JACOB BURGER (20.00), GEO. ZENTMYRE (13.00), J. M. LEISE & CO. (30.00), JOHN UHLER (15.00), SAMUEL HELLER (10.00).

THE BUGS.—The potato bugs instead of diminishing as the season advances are said to be largely on the increase. Where they were not molested the vines are almost entirely divested of leaves. There appears to be no foundation in fact for the assertion that they confine their depredations in the same locality to only three years. It is stated that they have infested certain parts of the West for more than a half dozen years. The only remedy seems to be in a war of extermination.

TO MILLERS.—We call the attention of our millers to the fact that P. Shubart, general agent for the sale of the Diamond Millstone Dressing Machine will be at the Bowden House, in this place, in a day or two, when those who have not procured one of these machines can be supplied. Several in our neighborhood have made purchases and after testing the machine recommend it very highly. It is claimed to save as much as \$200 to a single miller in one year besides being a great saving of time.

HOTEL CHANGE.—Mr. M. G. Minter a few days since disposed of the furniture, etc. belonging to the Waynesboro' Hotel to Mr. John A. Barr. On Tuesday the latter took possession of the house, Mr. Minter and family occupying the one vacated by Mr. Barr. With a little exception Mr. B. will no doubt make a very agreeable and popular landlord.

FIRE.—On Friday night last, a grain and straw stack belonging to Wm. Adams, Esq. near Upton, was discovered to be on fire. Mr. Adams had been thrashing out his grain with a steam thrasher on the day before, and the fire was first discovered about 11 or 12 o'clock—and before the flames had reached the barn and its contents, which together with the Separator, was saved from the flames. Some circumstances connected with the fire lead to the suspicion that it was the work of an incendiary. Mr. Adams loss is about \$300.—Echo.

GRANGERS' PRONIC.—The Grangers propose holding a picnic at some point in the Cumberland Valley in the latter part of August or the beginning of September next. Williams Grove on the Dillsburg and Mechanicsburg Railroad, will probably be fixed upon as the place. It is proposed that the Grangers of Franklin, Adams, York, Perry, Dauphin and Lebanon join Cumberland in this affair, and make it a grand gathering of the Grangers of Southern Pennsylvania. The Grangers of Western Virginia will also, probably, be invited to attend. Liberal excursion rates will be fixed by the Cumberland Valley Company.—Spirit.

A MAN CUT HIS THROAT.—An inquest was held over the body of a man by the name of John Shaffer, by coroner McCallin last evening. He was found about 4 o'clock in the afternoon with his head almost severed from his body. After hearing the testimony in the case, the jury rendered a verdict of death by suicide.—Deceased was forty years old, and leaves a wife and seven children. He is a polisher by trade, and being out of employment, he became low spirited, which probably led him to commit the rash act. The above is from the Pittsburg Telegraph of Thursday evening. We have since learned that the unfortunate at one time resided in this place, was a son of the widow Shaffer, and brother-in-law of Mr. Adam Hamilton of Altoona. Mr. Shaffer learned the polishing trade with Mr. Lewis Wampler and afterward worked under Mr. Philip Evans, at the old Lemnos axe factory.—Opinion.

HORSE THIEF ARRESTED.—Recently a valuable iron-grey horse belonging to C. F. Fletcher, Esq., of Greensboro, was stolen from his stable. Also, one from Mr. John Kissecker, of Antrim township.—Detective M. W. Houser, of this place, succeeded in capturing the supposed thief one day last week in Virginia, who proves to be one Charley Saylard. Charley is a rather good looking man, and up to the disappearance of these horses, had been spending some weeks in Chambersburg and vicinity.—Opinion.

Baker, aged 5 months and 11 days. Pure as the snow drop in its bloom, Our dear little Ira passed away Into the dark and silent tomb, His dear little form to lay. Dearest little Ira, fare thee well, With sad, sad hearts we yield our trust. Content to us a little while, Then called unto thy native dust. Lovely babe, thy stay was brief, Angel spirits bid thee come From this world of sorrow care and grief, To their ever happy home Where soon we hope to meet thee. C. P. B.
