NOTICE!

AFTER an absence of fifteen years I again locate in the town of Waynesboro for the purpose of carrying on a first-class Tailoring Establishment. None but the best of workmen will be employed, and clothing made in the most fashionable and durable manner. Also plain suits to suit certain classes of men. Particular attention paid to cutting men and boys clothing all in style. Scouring and renovating done up to place to any outside of the city. My special business is in the office of Dr. Strickler's new building, adjoining the Besore property, on Mechanic street. By strict attention to business, and a disposition to please all, I hope to receive a liberal share of public patronage.
Respectfully,

STEAM-ENGINE AND BOILER WORKS

ESTABLISHED 1853.

STATIONARY AND PORTABLE

STEAM-ENGINES, BOILERS,

Portable Saw Mills,

and all other Machinery made to order.

The above cut represents our Horizontal Engine with Improved Side Bed. This design makes it strong, neat and durable and upon which we have made some valuable improvements, especially upon the working parts making them durable and economical.

We build Horizontal Engines with box bed and cast iron designs and upon the most improved plan.

We also make Upright Engines of different sizes and styles, and where economy of space is an object, they have some advantage over the Horizontal, also in the wear of the Cylinder, which is always equal in an Upright Engine.

A special point of advantage in these Engines is our (A. O. Frick's) recently invented and patent self-adjusting BALANCED SLIDE VALVE, suited to all Steam Engines and Locomotives. It leaves the Engines as simple in operation as those of the ordinary plain slide valve class. We direct special attention to this superior valve, and invite correspondence.

We give special attention to Portable Engines and Saw Mills; also Agricultural Engines for threshing grain and for farm purposes generally. Also

STEAM BOILERS,

of all sizes. Further information may be obtained from the manufacturers,

REMINGTON

FAMILY SEWING MACHINE!

THE subscriber announces to the public that he has the agency for the sale of the "Remington Family Sewing Machine" in Franklin county. Having tested its work-qualities and capacity for several months he can safely recommend it as the very

BEST MACHINE IN USE.

Its construction is such that it can be run at a higher rate of speed than any shuttle and all other goods for gentlemen's wear. The speed has been registered, over 1000 stitches per minute have been attained with ease. It is strong in all its parts, and free from the harsh and jarring movements, and friction, common in inferior machines. A simple change of the needle and thread and it will sew the finest cambric or the heaviest leather. The shuttle carries a large quantity of thread thus saving in a great measure the trouble of filling the bobbins. The Remington is fitted with steel cam, copy wheels or lever arms to make a noise, run hard, or to get out of order.
Any girl of ordinary intelligence can keep it in order without the least difficulty.
The subscriber also informs his customers and the public that he has just opened out his new

FALL AND WINTER SUPPLY
