BEAUTY! BEAUTY! BEAUTY!

Nothing contributes more to beauty of the features than a PERFECT, REGULAR, CLEAN SET OF TEETH, while a neglected, filthy, diseased, or painful disfigure every beholder. Such things are noticed now a-days much more than formerly; and good teeth and sweet breath are considered indispensable to every LADY AND GENTLEMAN.

BEWARE of all preparations which are highly recommended as tooth whitening agents. They contain an acid which destroys the enamel. Dr. Forrest keeps constantly on hand of his own Preparation superior TOOTH POWDER, which keeps the teeth absolutely clean, leaving the color of the Enamel just as nature made it. For the convenience of my patients, I have adopted the patent TOOTH POWDER BOTTLE, so constructed as to distribute the powder nicely on the BRUSH, and can be carried when traveling and several may use from the same bottle with perfect safety. Having had an experience of over seven years in the manufacture and administration of Nitrous Oxide Gas, I am prepared at all times to administer this popular Anæsthetic, either to children or adults for the extraction of teeth, without the least unpleasant effects. Insertion, Filing and Filling of Teeth carefully executed. Office next door to Bishop's Art Gallery, Main St., Chambersburg, Pa. H. FORREST, D. D. S.

If you have become discolored, I am prepared to bleach and restore to their natural color. Prices very moderate. may 21 ly

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR CLEANER, BIGGER AND POWERS!

No implement more important to the farmer than a First-class Grain Thresher and Cleaner - for none pays him so well and so speedily. Indeed it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple - more easily understood and operated by those unskilled in machinery - more durable - threshing as much and yet cleaning better - with less power and more comfort to hands than any other machine in use - and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the past 18 years. To supply out wants of all we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a 10 Horse Lever Power, with prices ranging from \$100 to \$300, without power. We also make the latest improved triple-curved 1 Horse Power, suitable for each size machine, ranging from \$90 to \$125, and all fully and fairly warranted. For further information send for circular and price list.

WAYNESBORO' STEAM-ENGINE AND BOILER WORKS

ESTABLISHED 1853.

STATIONARY AND PORTABLE STEAM-ENGINES, BOILERS, and all other Machinery made to order.

The above cut represents our Horizontal Engine with Improved Slide Bed. This design makes it strong, neat and durable and upon which we have made some valuable improvements, especially upon the working parts making them durable and economical.

We build Horizontal Engines with box beds of different sizes and designs and upon the most improved plan.

We also make Upright Engines of different sizes and styles, and where economy of space is an object, they have some advantage over the Horizontal also in the wear of the Cylinder, which is always equal in an Upright Engine.

A special point of advantage in these Engines is our (A. O. Frick's) recently invented and patent self-adjusting BALANCED SLIDE VALVE, suited to all Steam Engines and Locomotives. It leaves the Engines as simple in operation as those of the ordinary plain slide valve class. We direct special attention to this superior valve, and invite correspondence.

We give special attention to Portable Engines and Saw Mills; also Agricultural Engines for threshing grain and for farm purposes generally. Also

STEAM BOILERS, of all sizes. Further information may be obtained from the manufacturers, FRICK & CO., 122 Broadway, New York, or may 8-1f Waynesboro', Franklin Co., Pa.

REMINGTON FAMILY SEWING MACHINE!

THE subscriber announces to the public that he has the agency for the sale of the "Remington Family Sewing Machine" in Franklin county. Having tested its working qualities and capacity for several months he can safely recommend it as the very best machine in use.

Its construction is such that it can run at a higher rate of speed than any shuttle machine now in use. In factories where the speed has been registered, over 1000 stitches per minute have been attained with ease. It is strong in all its parts, and free from the harsh and jarring movements, and friction, common in inferior machines. A simple change of the needle and thread and it will sew the finest cambric or the heaviest leather. The shuttle carries a large quantity of thread thus saving in a great measure the trouble of filling the bobbins. The Remington has no rotary cams, cog-wheels or lever arms to make a noise, run hard, or to get out of order.

Any girl of ordinary intelligence can keep it in order without the least difficulty. The subscriber also informs his customers and the public that he has just opened out his new

FALL AND WINTER SUPPLY of CLOTHS, CASSIMERES, VESTINGS, and all other goods for gentlemen's wear. He solicits an inspection of his stock.

Prime beef, veal and lamb always on hand. A special supply will always be provided for Saturday evening. Bologna sausages to be had at all times. Thankful to the public for past patronage he hopes to merit a continuance of their patronage.

SADDLE AND HARNESS MAKING.

THE subscriber informs the public that he has changed his quarters, and can now be found in the room formerly occupied by William Blair as a printing office, on the second-floor, where he will continue the Saddle and Harness making business. He is prepared to do all work in his line with dispatch and at reasonable prices. He flatters himself that his long experience in the business will enable him to give general satisfaction.

Butchering Again.

THE subscriber announces to his old customers and the public generally that he has recommenced the Butchering business, and will be able to accommodate them as formerly at the cellar in the Walker occupied by William Blair as a printing office. Persons wanting prime Beef, Veal, etc. can rest assured that his cellar will be the place to get it, as he is determined to slaughter the best quality of stock only.
