#### FIRST-CLASS WORKMEN & MATERIAL

his Machine just stands high above all o ts class. As a thresher it is equal to the best, as a cleaner it is superior to any existing Machine. This is admitted by all honest competitors. Indeed, it is the only Machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from his machine commands from 2 to 3 cents: ashel more than grain direct from any other machine, settles the question of its superiority as a cleaner over all others. Impartial judges at all the State and County Fair-where it was thoroughly and practically ested, in competition with other leading machines, always agree that it is more simole-more easily understood and operated by those unskilled in machinery—more du-sty those unskilled in machinery—more du-rable—threshing as much and yet cleaning octter—with less power and more comfort o hands than any other machine in use and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last is years. To supply tou wants of all, we now make 4 sizes, viz:—From a 2 Horse Railway or 3 Horse Lever Power with Power, to a 10 Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest impproved riple-geared Horse Powers, suitable for each size machine, ranging from \$30 to \$135, and all fally and fairly warranted. BEST MACHINE IN USE. ts construction is such that it can be run at a higher rate of speed than any shuttle machine now in use. In factories where the speed has been registered, over 1000 stitches per minute have been attained with ease. It is strong in all its parts, and free from the harsh and jarring movements, and friction, common in inferior machines. A simple change of the needle and thread and it will sew the finest cambric or the heaviest leather. The shuttle carries a large quantity of thread thus saving in a great measure the trouble of filling the bobbins. # BLOOD CLEANSER OR PANACEA ?

7 ITH this rare medicine in your house you can do without purging by means of Pills or Powders. You can do without of Phis of Powders. You can do without Sults, Castor Oil, Citrate of Magnesta, Senna or Manna, and so on. You want none of these; the BLOOD CLEANSER is a substitue for the whole of them. And what is better it may be taken with safety and comfort by the most delicate woman as well as the robust man. It is very palatable, and therefore easily administered to children. It is the only vegetable preparation existing which will answer in the place of Calomel. Regulating the action of the Liver, without making you a life long victim to the insert

Cleansner, for the cure of all disorders of the Stomach, Liver, Bowels, Kidneys and Bladder, For Nervous Diseases, Headache, Costiveness, Indigestion, Billious Fever, and all derangements of the internal viscera. You have in this medicine a PANACEA for some of the most painful and dangerous of all diseases.

LIVER COMPLAINTS.—The state and quality of the bile must first be attended to, in order to preserve health. The bile in a vitiated state, or when not duly secreted, is oftener obstructed in the liver and gall blader and heavy as a state of developing and the content of the co der, and becomes a sette of dyspepsia, constipation, and nervous complaints, jaundice, etc. The Panacea being strictly vegetable, and containing great anti-billious properties, and great alterative properties also, will act like a most magical medicine in this complaint. Thousands have found relief, and thousands will yet turn to this medicine after exhausting their purses and

patience in search of health.
Giddiness of the head, cullness of the mind, feelid breath, coated tongue, loss of appetite, pains and weakness in the stom-ach, enlargement of the liver, yellowness of the skin, constant fever and thirst, with a total disrelish for business, pleasure, or any kind of employment. FAHRNE Y'S PANACEA, if taken and persevered in for a few days, will remove this whole class of symptoms. The fluids of the body become pure, the mind clear, the stomach strength-ened, the tongue clean, the appetite improved, and the whole system so benefitted that disease, during bad weather, is less liable to

afflict you.

"An ounce of Prevention is worth more

verld. You can avoid severe attacks of acute diseases, such as Typhoid. Billious and Spotted and Intermittent Fevers, by keeping ted and Intermittent Fevers, by keeping your blood purified. The different degrees of all such diseases depend altogether upon the condition of the blood, for if this wital fluid is deranged, you will take a disease much more readily than otherwise, and the suffering will be proportion to the amount of foreign matter in the blood. This is so reasonable that we need not here make any illustrations.

boot. We make the best work in town at prices ranging from \$8 and upwards, accor-ding to price of material. We are rerman-ently located here. We have a few customers that we have asked often for their bills, and if they do not appear soon we intend putting their names in the paper, so they may not catch others.
