FAMILY PHYSIC.

THENE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an exten-sive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been autompted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bow-els. This is not. Many of them produce so much with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is arrimonious and irritating to the bow-els. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a praviously existing obstruc-tion or derangement in the bowels. Baing purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the soveral discusses to which they are ap-plicable are given on the box. Among the com-plaints which hare been speedily eured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Ap-petite, Listlessness, Irritability, Billous Headache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the con-sequence of discased action in the liver. As an aperient they afford prompt and sure relief in Cos-tiveness, Piles, Colic, Dysentery, Humors, Scrot-tula and Scarry, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required. They have also produced some singularly suc-cessful cures in Rheumatism, Gout, Dropsy, Gravel, Brysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appe-tie and vigor. They purify the blood, and, by their stimulant action on the circulatory system, remo-vate the strength of the body, and restore the wasted or discused energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exist; but un-

Hence an occasional dose is advantageous, even though no serious derangement exists; but un-necessary dosing should nover be carried too fur, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest thomselves to the reason of every body; and it is confidently believed this pill will answer a botter purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will uo louxer hitherto been available to mankind. When their virtues are once known, the public will us longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-yrapped they are pleasant to take, and being purely segetable, no harm can arise from their use in any quantity. For minute directions see wrapper on the Box.

PREPARED BY JAMES C. AYER,

Practical and Analytical Chemist, LOWBEL, MASS.

Price 25 Cents per Box. Five Boxes for \$1.

CHERRY PECTORAL, For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND

CONSUMPTION.

CONSUMPTION. THIS remedy has won for itself such notoristy from its cures of every variety of pulmonary disease, that it is entirely unnecessary, to recount the evi-dences of its virtues in any community where it has been employed. So wide is the field of its use-fulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too appa-rent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affec-tions of the pulmonary organs which are incident to our climate. And not only in formidable at-tacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOLMERVERS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained. that can be obtained

that can be obtained. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by --ROBERT ROY, Wellsborough; B. BARSE, Barseville; E. DYER, Covington; Dr. HUM-PHREY, Tioga, and by Druggists everywhere.

December 7, 1854-4m.
