THE TIOGA COUNTY AGITATOR.

A MARRIED WOMAN'S FAVORS. A PRINTER WHIPPED BY THE HUSBAND.

Some time since, (it matters not when exactly,) there resided in Biddeford, Me., a young and lovely damsel of such brilliant beauty that the married and unmarried rakes in town-making her believe that God never formed a child in so delicate and classic a mold for physical labor, and she should therefore amnss gold and silver, the costlicat dresses and jewels, by her fascinating beauty. Alas! the bait was but too tempting, and she fell. She soon became inmate of a house of pleasure in this city, where she was seen and loved by a man, for the want of a more appropriate name, we shall call Grass .- (though he no doubt claims to be somewhat more sure, at oresent.)

The courtship, as may well be imagined, was but of short duration-for the girl, delighted with, they idea of a home, and Grass, believing that he had found an angel in petticoats, the marriage rite was performed without delay, and the happy couple took board in Lowell street. Now Mr. Grass could not have done a more unwise thing, for a boarder in this house was a newspaper proprietor by the name of C., who, to add to his other dangerous qualifications among the daughters of EVE, possessed form and features most camely to look upon.

The motto of Grass-prompted no doubt both by industry and necessity ---- was "carly to bed and early to rise," and the sun, had it over had modesty enough to blush, would have often given way to such emotions on finding itself preceded in its morning rambles by the light-headed --- we beg pardon --- we meant light hearted and unsuspecting husband.

The labors and inclinations of C. prompting a different course of action, his motio was, "to bed and rise --- according to circumstances."

After knowing the peculiarities of the above characters, and that the lodging rooms of Grass and the printer were rather familiarly located, we think the reader will not be greatly surprised to learn that the lady, moved by compassion for the loneliness of the young man during the "dull gray" mornings of the nast few weeks, considered it her philanthropic duty to see that he should be wrapped in arms of greater warmin and more congenial to his tastes than those of Morpheus. Under this construction of her ideas of duty, she for some time paid her morning visits of mercy with as much regularity as the big boots of Grass clumped down stairs to the taps of the seven o'cluck beb.

But in a large boarding house, there is always sure to be some one about with sharp eyes, to keep posted in advance of the press. in the doings and savings of those who are not overcareful in their conduct. I, ----, r young boarder-congratulating himself that he had "smelt a mice"-set his trap for a rat, but being bluffed off with what he considered rather unnecessarily indignant modesty, he "peached" on the indulgent lover. to the husband, and brought a whirlwind about their heads... the like of which they never had seen or read of.

The husband suddenly returned to his room the next morning, and finding his wife in the act of leaving it, he commenced with strongest argument first, by knocking her down, and following up his advantage after her partial recovery, by pulling her hair and boxing her ears.

Hearing the cries of his "ladye love," C. rushed into her room --- without finishing his Darit's Wagon Shop. toilet --- to gallantly defend her ; when Grass.

making his appearance very coolly from the side pocket of the gentleman, and coming within close proximity to his face-he had business another way, not wishing to make the acquaintance of so dangerous a gentleman.-Elmira Republican.

AYER'S PRIAS, Araw and singularly successful remedy for the cure of all Billows diseases - Costiveness, Indi-gestion, Jaundice, Dropy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflamma-tions, Headache, Pains in the Breast, Side, Back, and Limbe, Formale Complaints, &c. &c. Indeed, very fow are the diseases in which a Furgative Medi-cine is not more or less required, and much eick-ness and suffering might be prevented, if a harm-less but effectual Catharite were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Cold, Feveriab symptoms, and Billious derangements. They all tend to become or produce the deep seated and formidable distempers which load tho hearses all over the land. Hence a reliable family physic is of the first importance to with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Profes-sor, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not aub-stantiated by persons of such exalted position and character as to forbid the suspicion of untrutt. Anong the many eminent gentlemen who have Ends in fayor of these Pills, we may mention: D. A. HAYES, Analytical Chemist, othose high when and State Assayer of Massachusetts, whose high How. New York City, endorsed by
HON. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.
S. LELAND & Co., Propr's of the Metropolitan
Hotel, and others.
Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.
These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded nut of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together
in such a manner as to insure the best results. This system of composition for medicines has been found process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been ob-tained by any process. The reason is perfectly ob-vious. While by the old mode of composition, every medicine is burdened with more or less of acri-monious and injurious qualities, by this each indi-vidual virtue ouly that is desired for the curative effect is present. All the incrt and obnoxious qual-lites of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely, remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world. As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British Amer-ican Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address. Of all the Patent Molicines that are offered, how few would be taken if their composition was known ! Their life consists in their mystery. I have no mysteries.

There in a composite in their injective. I have no mystories. The composition of my preparations is laid open to all mon, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-imat Whendiana have deduced the found thing of

hedicine before its effects were known. Many em-iment Physicians have declared the same thing of my Pills, and even more confidently, and are will ling to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscers to purify file blood and stimulate it into healthy action—remove the olstmuctions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, whereare they exist, such decance by correcting, wherever they exist, such derange-ments as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harin can arise from their use in any quantity. For minute directions, see wrapper on the Box.

C. ran for his life, back info his own room, cry. ing "murder" at the top of his voice, but before assistance reached him from the other boarders, he was treated with such a beating as is seldom received outside of the prize ring. And now came the tug of war Both parties ran down one street, through a second, and up a third, impelled by the most powerful of motives---love of life, and the most deadly revenge. The love of life however had the best wind, and escaped; but C. says it is only for a few days.
