Reality. BY MRS. M. A. STEVENS.

" Mother," and the plaintive voice of the little sufferer aroused the fainting spirit of her whose love is stronger than death; sent the life' current through the heart that beat in unison with that, whose throbbings, ere the morrow comes, will be silenced forever. Again the dying child murmured as it tossed in that silent agony, that language with all its comprehensiveness fails to portray, "Moits comprehensiveness Again the dying child murmured as it tossed

That mother sits alone with the dying alone to catch the denth-damp gather on her cherub's brow; alone to press the quivering little form to hers, when his dark wing shall shadow her "household pride," who cometh stately as a conqueror. No husband there to cheer her sinking breast; no futher there to receive the proffered kiss; for Bacchus holds his revels near, and his dignitaries haste to do obeisance to his will. There mid the profaners, extatic with the liberal draught sets the High priest bedecked with of gnin, putteth the cup of death unto his neighbor's lips, who boasts exultingly,

West Jersey not in the United States.

When confidence in human nature is at so very low an ehb as the present moment, it is pleasant to know that it has not deserted the whole earth, and fied to other spheres. Some of it lingers yet on the western border of our State at least, according to the relation of a fully invite his friends and the public generally to traveler form New York, who says, that, when give him a call and examine for themselves. he left the cars at Camden, he wanted to visit a place diverging from the railroad line about ten miles. He was entirely unknown, though certainly a respectable-looking person; and, therefore, his first surprise was, that the stabler, to whom he applied, should have fitgy for his journey with alacrity, and without HAVING purchased and the slightest gy for his journey with alacrity, and without the slightest recommendation, or inquiry whatever.

It was clear he had never been in New York, where they will of cupidity and traffic from the boy's breast. But, savs he, " I will cut you a stick, sir, that will answer your purpose almost as well," He did so instantly, and it worked as favorably as he had promised, for in fact the noble steed neither needed whip nor stick.

Still he had on his return, to reckon with the owner. Having paid for the loan of the horse and buggy agreeably to contract, one thing, the gentleman observed, remains to be themselves that this is no Humbug.

At J. R. Bowen's will always be found an exten "The whip; I wish to pay for that, as you see I bring back nothing but a stick." "Did you lose it?" he replied. "Yes," said he, "or else I lest it where I visited." "Very well," he answered, " in either case, as my name is on the handle, some honest person will find and return it to me. I am willing to trust to that." "But I am not," replied the gentleman. "I don't believe that you will ever see your whip again, and therefore in-sist upon paying its value." The owner, who appears to have been in New York as little as the boy that cut the stick, positively refused to take anything, repeating, that " some honest person would return it to him, because it had his name upon it."

DR. HUNTER'S Medical Manual, and Hand Book for the Afflicted-Contaming an ontline of the origin, progress, treatment and cure of every form origin, progress, treatment and cure of every form of disease contracted by promiscuous sexual intercourse, by self-abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all medical technicalities and everything that would offend the ear of decency; with an outline of complaints incident to females, from the result of twenty years' successful practice, exclusively dexoted to the cure of diseases of a delicate or private nature.

To which is added receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the FEVER and AGUE.

Testimony of the Professor of Obstetrics in the Penn Medical College, Philadelphia—DR. HUNTER'S MEDICAL MANUAL"—The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the un-fortunate, or to the rictim of malpractice, as a suc-cessful and experienced practitioner, in whose honor

and integrity they may place the greatest confidence.

Jos. S. Longshore, M. D.

From A. Woodward, M. D., of Penn University, Philadelphia.—It gives me pleasure to add my testi mony to the professional ability of the author of the Medical Manual. Numerous cases of Discase o the Genital Organs, some of them of long standing have come under my notice, in which his skill has been manifest in restoring to perfect health in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by self-abuse or excessive venery, I do not know his superior in the profession. I have been acquainted with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recom mend him as one in whose professional skill and in tegrity they may safely confide themselves,

"This is, without exception, the most comprehensive and intelligible work published on the classes of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and with too little breath io puff and too little presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice.

"No teacher or parent should be knowlede imparted in this valuable work. It would save years of pain and mortification and sorrow to the youth un der their charge."- Peoples' Advocate.

A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says - "Thousands upon thousands of our youth, by cvil example and influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising fau-ilies have been enfeebled, it not broken down, and they do not know the cause or cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide sprend source of human wretchedges would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generation. Intemperance (or the use of intoxicating drinks) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and believe me your co-worker in the good work you are so actively engaged in."

AYERS

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have mone of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimenious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterpalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no hatifu can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the soveral diseases to which they are applicable are given on the box. Among the complaints which have been spredily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessuoss, Irritatility, Blitous Headache, Blious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrolula and Scurry, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every ease where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the latty actio

Hence an occasional do-e is advantageous, even though no serious derangement exists; but unnecessary do-sing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physio is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

AYER'S CHERRY PECTORAL, COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH,

CROUP, ASTHMA, AND CONSUMPTION. This remedy has won for itself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evi-dences of its virtues in any community where it has been employed. So wide is the field of its use has been employed. So wide is the field of its use fulness, and so numerous the cases of its cures, that almost overy section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the nulmonary organs which are incident to employ for the distressing and canagerous after-tions of the pulmonary organs which are incident to our climate. And not only in formidable at-tacks upon the inness, but for the milder varieties of Colles, Coccus, Hoanserses, &c.; and for Children it is the pleasantest and safest medicino

that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by— ROBERT DY, Wellsborough; B.
